SECTION III - RISK FACTORS

An investment in our Equity Shares involves a high degree of financial risk. Prospective investors should carefully consider all the information in the Red Herring Prospectus, particularly the “Financial Information of the Company” and the related notes, “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on page 137, 97 and 220 respectively of this Red Herring Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.

The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Red Herring Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- 1. Some events may not be material individually but may be found material collectively.*
- 2. Some events may have material impact qualitatively instead of quantitatively.*
- 3. Some events may not be material at present but may be having material impact in future.*

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

In this Red Herring Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in “Risk Factors” on page 32 and “Management Discussion and Analysis of Financial Condition and Results of Operations” on page 220 of this Red Herring Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the “Restated Financial Statements”.

INTERNAL RISK FACTORS

- 1. Our business is capital intensive in nature. If we are unable to raise additional funds whenever required, or on terms acceptable to us, we may be required to scale down or abandon our expansion & growth plans and/or reduce capital expenditures and the size of our operations, any of which could materially and adversely affect our business, financial position and results of operations.*

We require significant amount of capital for purchasing the road construction equipment such as Soil stabilisers, Tandem Rollers, PTR, Soil Compactors, Cement Spreaders, Excavators, Transit Mixer, Milling Machine, Jaw Crusher, Concrete Paver, Asphalt Paver, Wheel Loaders, Rock Breakers, Graders, Boom Placers, Tippers, Diesel Generators etc. and the failure to obtain additional financing on terms commercially acceptable to us may adversely affect our ability to grow our business and increase/maintain our future profitability. As of March 31, 2024, 2023 and 2022 our net fixed assets towards

plant and machinery were ₹19,450.77 lakhs, ₹15,839.99 lakhs and ₹9,902.30 lakhs respectively. For details of fixed assets please refer *Annexure XIV in the section titled “Financial Information of the Company- Restated Financial Statements* on page 233 of the Red Herring Prospectus”. We also require funds for mobilization of resources before payment is received from clients. As a result, we may need to incur additional indebtedness in the future to meet the requirement of our capital expenditure and working capital requirements. Our ability to obtain such financing on acceptable terms is dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, levels of our existing indebtedness, future financial condition, results of operations and cash flows and other factors beyond our control. There can be no assurance that we will be able to raise additional financing on favorable terms in a timely manner or at all. If we are unable to raise additional funds whenever required, or on terms favorable/acceptable to us, we may be required to scale down or abandon our expansion & growth plans and/or reduce capital expenditures and the size of our operations, any of which could materially and adversely affect our business, financial position and results of operations. However, the company was converted from a partnership firm on January 12, 2024 and there were no instances in the past where they were unable to raise additional funds whenever required.

Our capital expenditure requirements and growth strategy require continued access to significant amounts of capital on acceptable terms, as our continuous cash flows are the source for purchase of new equipment, which is directly responsible for our business growth. We cannot assure you that market conditions and other factors will permit financing through debt or equity, on terms acceptable to us or at all. We strive to maintain strong relationships with banks to increase our financing flexibility. However, we cannot assure you that our relationships with lenders will not change or that lenders will continue lending practices we are familiar with. Our lenders may implement new credit policies, adopt new pre - qualification criteria or procedures, raise interest rates or add restrictive covenants in loan agreements, some or all of which may significantly increase our financing costs, or prevent us from obtaining financings totally. As a result, our revenue growth may reduce, and our business, financial condition and results of operations may be materially and adversely affected. All of these factors may result in an increase in the amount of our borrowings and the continued increase in capital requirements may have an adverse effect on our financial condition and results of operations..

2. *We generate a significant percentage of our revenue from few clients. The loss of any one or more of our major clients would have a material adverse effect on our business operations and profitability.*

During Fiscal 2024, 2023 and 2022 revenue generated from our top ten customers were ₹20,699.7 lakhs, ₹29,169.51 lakhs and ₹24,751.28 lakhs which represented 62.21%, 81.07% and 84.02% respectively of our revenues from operations. Our largest customer, contributed to approximately 19.14%, 63.25% and 68.31% of our revenue from operations respectively. We have not entered into long term agreements with these customers and the success of our business is accordingly significantly dependent on maintaining good relationship with them. The loss of a significant client or clients could have a material adverse effect on our results of operations. We cannot assure you that we will be able to maintain the historical levels of business from these clients or that we will be able to substitute the revenues lost by way of termination of work with these clients. Our dependence on these clients also exposes us to risks associated with their internal management, financial condition and creditworthiness, and major events affecting these clients such as bankruptcy, change of management, mergers and acquisitions, reduction in growth or a slow-down in the business of our clients, could adversely impact our business. If any of our major clients becomes bankrupt or insolvent, we may lose some or all of our business from that client and our receivables from that client may have to be written off, adversely impacting our results of operations and financial condition. Further, we may be exposed to payment delays and/or defaults by our customers and our financial position and financial performance are dependent on the creditworthiness of our customers. There is no guarantee that all or any of our customers will honour their outstanding amounts in time and whether they will be able to fulfil their obligations, due to any financial difficulties, cash flow difficulties, deterioration in their business performance, or a downturn in the global economy. If such events or circumstances occur from all or any of our major customer, our financial performance and our operating cash flows may be adversely affected.

3. *The construction equipment industry is sensitive to changing economic conditions and various other factors. Any decline in demand for these equipment may adversely impact our business prospects and results of operations.*

There are several factors which affect the renting and sales of new and pre-owned road construction equipment in India which are difficult to predict, including but not limited to the state of the economy, fuel prices, credit availability, interest rates, consumer preferences, the level of personal discretionary spending, unemployment rates, vehicle production levels and capacity, auto emission and fuel economy standards, the rate of inflation, currency exchange rates, tariffs, incentives, intensity of industry competition, product quality, technological innovations, restrictions under environmental laws etc. As a result, the overall demand for our road construction equipment may decline, which could adversely affect our business. Further, the rise in demand for electric vehicles and the growth in electric vehicles segment may adversely affect the demand for such commercial vehicles sold by us. As on date of this Red Herring Prospectus, most of our OEMs have not started producing electric vehicles to cater to the increasing demand for such vehicles in the market. While we have been

able to achieve significant growth in our revenue and profits in the last Fiscal, we may not be able to maintain the same level of growth in the coming fiscals. Demand for certain types of pre-owned construction equipment may suddenly decline due to the introduction of innovative technologies for new equipment, such as autonomous driving systems or change in laws pertaining to carbon emission and creation of new legal norms such as ban of certain type of diesel equipment. The pre-owned equipment procured by us may not offer such innovative features or cater to the change in laws of India. There can be no assurance that our entire equipment inventory will be sold in the future.

4. The road construction industry is sensitive to the government infrastructure spending or regulatory changes. Any decline in government infrastructure spending may adversely impact our business prospects and results of operations.

We derive our revenue from renting, trading and refurbishment of road construction equipment. We have gained experience of executing road construction activities like: milling, crushing and paving which are usually sub contracted to us by large and small infrastructure companies. The road construction infrastructure is funded by the Central and State Government in India. Under the Union Budget 2023- 24, the Government of India allocated Rs. 2.7 lakh crore (US\$ 33 billion) to the Ministry of Road Transport and Highways. For further information, see “*Industry- Infrastructure*” on page 98 of the Red Herring Prospectus. The Roads sector is expected to account for 18% capital expenditure over FY19-FY25. In FY22 (until November 2021) private sector invested Rs. 15,164 crore (US\$ 1.98 billion) in roads. (Source: Ministry of External Affairs, Economic Survey-2019-20, MoRTH, News Articles.) Various government initiatives facilitate the growth of our company of this sector which in turn contribute to growth of our operations. Any reduction in the budgetary allocation or support by the Central and/or the State Governments may have a significant impact on the number of projects for which tenders may be issued by government authorities/bodies resulting in slowdown or downturn in our business prospects. Our business is indirectly and significantly dependent on projects awarded by them. In the event of any adverse change in budgetary allocations for such projects or a downturn in available work in this sector resulting from any change in government policies or priorities, our business prospects and our financial performance, may be adversely affected.

5. Margins earned from our rental services and refurbishment may be impacted by pricing guidelines set by our customers or by our OEMs for supply of spare parts and accessories which may adversely affect our financial condition and results of operations.

We offer fully integrated services and refurbishment offerings. The table below indicates percentage contributions from our rental and refurbishment vertical to our total revenue during Fiscal 2024, Fiscals 2023 and Fiscal 2022:

(Rs in lakhs)

Particulars	March 31, 2024	March 31, 2023	March 31, 2022
Rental of road construction equipment	16857.33	11752.77	7846.24
<i>As a % of Revenue</i>	50.66%	32.66%	26.64%
Trading and Refurbishment of road construction equipment	16417.25	24228.04	21611.18
<i>As a % of Revenue</i>	49.34%	67.34%	73.36%
Total	33,274.58	35,980.81	29,457.43

During the FY 2022, we rented out our construction equipment to approx. 95 customers which expanded to approx. 133 customers during FY 2024. During the FY 2022 we refurbished and/or sold more than 500 equipment and during FY 2024 we have refurbished and sold out around 400 road construction equipment

Pursuant to the terms of our arrangements with our customers we are entitled to determine the prices for our rental services. Furthermore, we procure spare parts required in refurbishment of pre-owned equipment from the OEM suppliers. The OEMs are entitled to change the prices, or the discounts offered thereon, without prior notice and without incurring any liability towards us. Margins earned from our services and refurbishment vertical may be impacted by the ability of our customers and OEMs to periodically revise rates to be charged by for the services done by us or the spare parts sold to us.

6. Our Company is dependent on limited number of suppliers. Any delay or failure on the part of such suppliers to deliver equipment at acceptable prices, may adversely affect our business, profitability and reputation.

We are an equipment outsourcing company, engaged in providing road construction equipment for sale and on a rental basis. We do not manufacture any of the road construction equipment that we sell or provide on rental basis. We rely on the limited number of OEMs and suppliers for purchasing this equipment. Our purchases from our top ten suppliers during Fiscal 2024, 2023 and 2022 are Rs 9,471.95 lakhs, Rs 10,216.77 lakhs and Rs 12,147.87 lakhs respectively.

Our reliance on a limited number of suppliers for our business exposes us to risks, that may include, but are not limited to, reductions, delay or failure on the part of our suppliers to deliver such equipment in a timely manner, deterioration in the

financial condition or business prospects of these suppliers, failure to negotiate favourable terms with our key suppliers, all of which could have a material adverse effect on the business, financial condition, results of operations and future prospects of our Company.

We do not have any long-term supply contracts with our suppliers. We generally make our purchases with suppliers through purchase orders. Thus, our suppliers may be unable to provide us with sufficient quantity of equipment, at prices acceptable to us. Further, any unexpected rise in the prices of the equipment or shortage in supply or any adverse change in terms and conditions of supply would result in increase of our procurement cost. In case we are not able to pass on any such increase in cost to the clients because of competition or otherwise, it may affect the profitability of the Company.

We may not be able to renegotiate our pricing or delivery terms on a reasonable basis or find suitable alternative suppliers in the future, which may affect our business, financial condition, cash flows and results of operations. If we are required to identify alternative third parties for any of our required equipment, the process of qualification and approval could cause delays in providing services to clients. Any extended interruption in the supply of equipment could disrupt our operations and can have a material adverse effect on our business, results of operations or financial condition. Although we believe we have maintained stable relationships with these suppliers in the past, we cannot assure you that we will be able to source adequate quantities of equipment in a timely manner from our existing suppliers in the future or we will be able to find alternative suppliers at acceptable prices and quality levels or at all. Our inability to do so may adversely affect our reputation, business, results of operations and cash flows.

7. *We are subject to the significant influence of, and restrictions imposed by our OEMs that may adversely impact our business, results of operations, financial condition and prospects.*

We have large no. of fleet of construction equipment from major OEM's like Wirtgen, Case, Luigong, Dynapac, Komatsu, Atlas Copco, Ashok Leyland, Bharat Benz, Eicher Motors, Volvo, Terex Power Screen, Caterpillar, Metro, BOMAG etc. We have not entered into any long term agreement with these OEMs in the ordinary course of our business. However, the OEMs are able to exert influence over the day-to-day operations of our company. For instance, the OEMs may unilaterally discontinue associations with us where we might have entered into long term contracts and made advance payments to them for their continued association. The OEMs may also require us to prescribe the minimum requirements and specifications from time to time which may require significant capital expenditure from time to time. We are also required to adhere to certain service and customer satisfaction levels prescribed by the OEMs in operating these equipment and our failure to do so may lead to the disassociation with such OEMs.

The terms and conditions as Imposed in the OEMs' interests and objectives may, in certain circumstances, conflict with our interests and objectives. Our OEMs' also have the right to terminate their business with us upon breach of any of the terms and conditions by us and can unilaterally change the price of their equipment being sold which may require additional capital expenditure on our part. Further, any reduction in margins or capping of service fees by the OEMs may impact our revenues and profitability. The significant influence of and restrictions imposed by OEMs could impact our business financial condition, results of operations, cash flows, and prospects.

8. *We derive a significant portion of our revenue from trading and refurbishment activities, for which we have to rely on third parties.*

We derive a significant portion of our revenue from trading and refurbishment activities. For the financial years 2024, 2023 and 2022, ₹16,417.25 lakhs, ₹24,228.04 lakhs, and ₹21,611.18 lakhs, or 49.34%, 67.34% and 73.36% of our revenue from operations were derived from trading and refurbishment activities. For further information, see "*Annexure XXII Details of revenue from operations*" as restated on page 237 of the Red Herring Prospectus. During the aforementioned financial years/period, we've traded and refurbished multiple type of construction equipment. Our reliance on the external vendors for procurement of such equipment, exposes us to risks, that may include, but are not limited to, reductions, delay or failure on the part of our suppliers to deliver the equipment in a timely manner, quality issues and clear title of the equipment as we do not have control over the equipment, failure to negotiate favorable terms with the vendors, vendors changing their sales strategy or shifting focus to some other channel which could have a material adverse effect on the business, financial condition, results of operations and future prospects of our Company.

9. *Changes in technology render our current fleet of equipment obsolete and require us to make substantial capital investments.*

Our fleet of equipment for road construction activities are subject to continuous change and development. Our inventory of existing equipment becomes obsolete on introduction of newer and better technologies. We must continuously update our existing equipment in order to meet our clients' requirements and remain competitive in the market. In addition, rapid and frequent technological and market demand changes often render our equipment obsolete and result in requirements for additional and substantial capital expenditures and/ or significant write downs of our assets. The cost of upgrading our existing equipment could be significant. Our inability to successfully adopt new technologies in a cost effective and a timely manner could increase our costs and adversely affect our competitive position in terms of pricing or quality of service. Further, if we fail to anticipate or respond adequately to our clients' changing requirements or keep pace with the latest technological developments, our business, prospects, financial condition and results of operations may be materially and adversely affected

10. *We may fail to successfully implement our growth strategy, which includes acquiring existing orders for rental business, diversifying our portfolio and penetrating deeper into existing geographic locations which may adversely affect our financial condition and results of operations*

In order to continuously grow our operations, we need to increase our penetration by partnering with new OEMs for additional fleet of equipment, expand our existing order book to attract larger rental orders etc, expansion of exports of refurbished equipment. Our ability to partner with different brands of OEMs may also depend on certain additional factors such as overall product mix, customer preferences, brand value etc. Further, we may also face additional risks encountered with growth. These risks include, without limitation:

- failing to assimilate the operations and personnel;
- failing to achieve predicted sales levels;
- incurring significantly higher capital expenditures and operating expenses, which could substantially limit our operating or financial flexibility;
- entering new, unfamiliar markets;
- disrupting our ongoing business;
- diverting our management resources;
- failing to maintain uniform standards, controls and policies;
- impairing relationships with employees, OEMs and customers;

11. *Our operations are subject to various governmental laws and regulations and certain state specific notifications and guidelines. If we are found to be in violation of or subject to liabilities under any of these laws or regulations, or if new laws or regulations are enacted that adversely affect our operations, our business, operating results, and prospects could suffer.*

Our operations are subject to certain state specific guidelines and notifications pertaining to display of number plates, road transport office rules and various other laws and regulations, including those relating to new and pre-owned equipment sales, finance and insurance, consumer protection, consumer privacy, environment, equipment emissions and fuel economy, health and safety, and employment practices. For details, see "**Key Regulations and Policies**" on page 109. We currently devote significant resources to comply with applicable laws and regulations and we may need to spend additional time, effort, and money to keep our operations and existing or acquired facilities in compliance therewith. Further, the approvals that we obtain may stipulate certain conditions requiring our compliance. If we fail to abide by the conditions mentioned in our existing approvals or fail to obtain any of the approvals or licenses required for our operations, or renewals thereof, in a timely manner, or non-compliance with applicable laws and regulations could result in imposition of fines and penalties which could adversely impact our business, results of operations, financial condition, cash flow, and prospects. For further details, please see the section entitled "**Government and Other Approvals**" on page 237. Further, our business is subject to government-mandated fuel economy which continue to change and become more stringent over time. New vehicles in India are currently required to be Bharat Emission Stage VI compliant. These and other laws and regulations could materially adversely affect, the ability of our company to deliver its services at affordable prices, which could materially adversely impact our business, results of operations, financial condition, cash flow, and prospects.

12. *The agreements governing our indebtedness contain certain restrictive covenants which could adversely affect our financial condition and results of operations*

As of March 31, 2024 our indebtedness aggregated to ₹26,506.92 lakhs including fund based and non-fund based facilities. We have entered into agreements for short-term and long-term equipment loans, working capital facilities and other borrowings. As of March 31, 2024 our unsecured loan from Promoter and promoter group accounted for Rs. 5,197.96 lakhs which constituted 19.16% of the total indebtedness. Some of these agreements contain requirements to maintain certain security margins, financial ratios and contain restrictive covenants relating to issuance of new shares, changes in capital

structure, making material changes to constitutional documents, implementing any expansion scheme, incurring further indebtedness, encumbrances on or disposal of assets, paying dividends and making investments over certain thresholds. For further details, see *“Statement of Financial Indebtedness”* on page 217. Furthermore, some of our financing arrangements specify that upon the occurrence of an event of default, the lender shall have the right to, inter alia, cancel the outstanding facilities available for drawdown, declare the loan to be immediately due and payable with accrued interest, impose a penal interest on the principal amount and enforce rights over the security created. There can be no assurance that we will be able to comply with these financial or other covenants. Our lenders also have the ability to recall or accelerate all or part of the amounts owed by us, subject to the terms of the financing arrangement. Such recalls may be contingent on happening of an event beyond our control and there can be no assurance that we will be able to persuade our lenders to give us extensions or to refrain from exercising such recalls. There can be no assurance that we will be able to repay our loans in full, or at all, at the receipt of a recall notice, or otherwise. Our inability to comply with the conditions prescribed under the financing arrangements, or repay the loans as per the repayment schedule, may have an adverse impact on our credit rating, business operations and future financial performance. Further, if we are unable to service our existing debt, our ability to raise debt in the future will be adversely affected, which will have a significant adverse effect on our results of operations, financial condition and our business. However, there were no instances in the past where we defaulted the repayment of loan.

13. *Our success depends upon our ability to attract, develop and retain trained manpower while also maintaining low labour costs.*

Modern equipment are increasingly complex and require specially trained technicians to perform certain services. To meet the needs and expectations of our customers, we must attract, train and retain a number of qualified service technicians, while maintaining low labour costs. While we undertake in-house training for employees, we cannot assure you that we will be able to retain these specially skilled personnel. Further, in case of any disputes with the employees in connection with tasks performed by them in the course of their employment, may have an adverse impact on the business operations and financial collections. However, there can be no assurance that there will not be any future disruptions in our operations due to any disputes with our employees or that such disputes will not adversely affect our business and results of operations. We will need to continue to recruit, train and retain a greater number of sales representatives and trained manpower, including service labour like technicians and service staff, at various levels. Our ability to maintain low labour costs is subject to numerous external factors, including prevailing wage rates, as well as the impact of legislation or regulations governing labour relations and minimum wages. An inability to provide wages and/or benefits that are competitive within the markets in which we operate could adversely affect our ability to retain and attract qualified personnel, which in turn may affect our business, prospects and financial condition. However, there were no instances in the past where we were not able to hire trained manpower and had faced the situation of understaffing.

14. *Our plan relating to establishment of our new refurbishment unit is subject to the risk of unanticipated delays in implementation and cost overruns.*

We intend to establish our new refurbishment unit at Gat No 185 and 186, Ambi, Taluka - Maval District- Pune, Maharashtra 410507 for which we have already executed the leave and license agreement for a period of 5 years. Our plan remains subject to the potential problems and uncertainties including cost overruns or delays. Problems that could adversely affect our plans include labour shortages, the possibility of unanticipated future regulatory restrictions, incremental pre-operating expenses, taxes and duties, interest and finance charges, working capital margin and other external factors which may not be within the control of our management. There can be no assurance that the proposed set up of our new refurbishment unit will be completed as planned or on schedule, and if they are not completed in a timely manner, or at all, our budgeted costs may be insufficient to meet our requirements. If our actual expenditures significantly exceed our budgets, we may not be able to achieve the intended economic benefits, which in turn may materially and adversely affect operations of our Company. There can be no assurance that we will be able to complete the set up in accordance with the proposed schedule of implementation and any delay could have an adverse impact on the operations of our Company.

15. *Our business is subject to seasonality, which may contribute to fluctuations in our results of operations and financial condition.*

Renting of road construction equipment is subject to seasonality as the road construction activities are affected at the time of monsoon. We typically see a dip in sales during the second quarter of each financial year. Our sales are considerably higher during the third and fourth quarter of the year due to favorable weather conditions and impact of festive seasons. Accordingly, our quarterly results of operations may not accurately reflect the trends for the entire financial year and may not be comparable with our results of operations for other quarters.

16. We may be unable to detect, deter and prevent instances of theft, breakage or damage of our equipment stationed at the client location, which may have a material adverse effect on our business, results of operations and financial conditions

As we operate in the rental industry, we are usually prone to risk relating to theft, breakage or damage of the rented equipment or any of its parts, stationed at the client location, which can be difficult to detect, deter and prevent, and could subject us to financial losses and impact our business and financial conditions. We cannot assure that we may be able to recover the replacement cost or reimbursement of repair expenses from our customers, if any, against the breakage or damage or theft of equipment, which may have a material adverse effect on our business, results of operations and financial condition. Also, in addition, the agreements/arrangements which we enter with our clients does not contain any clause relating to security deposit and as such we do not possess any security deposit amount against the equipment supplied to the customers, which exposes us to risk relating to non-recovery of any unpaid dues from the clients (in case of any dispute) or damage of supplied equipment. Although, we assess the credibility of the customers prior to the rental transaction, still we cannot assure that there would not be any instance of fraudulent behavior of the customers. The occurrence of any such incident relating to theft or breakage or damage of our equipment at client location or misconduct committed by customers against our interests, may have a material adverse effect on our business, results of operations and financial condition. Any of the foregoing could disrupt our services, cause us to incur cost of legal proceedings against customers for recovery of losses and divert the time and attention of our management. However, in the past, there were no occurrences of theft, breakage, or damage to our equipment stationed at the client location that could have had a detrimental impact on our business, operational results, and financial condition.

17. Our business operations are majorly concentrated in certain geographical regions and any adverse developments affecting our operations in these regions could have a significant impact on our revenue and results of operations.

We generate major revenue through our customers from the state of Maharashtra, Uttar Pradesh, Odisha and Others. During the FY 2024, FY 2023 and FY 2022 our revenue from top 10 states accounted for 65.67%, 92.23% and 88.67% of our revenue from operations. Such geographical concentration of our business in these region heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in this region, which may adversely affect our business prospects, financial conditions and results of operations.

Below are the details of the state wise revenue breakup from top 10 states as on March 31, 2024.

	<i>(Rs. In Lakhs)</i>		
Particulars	Fiscal 2024	Fiscal 2023	Fiscal 2022
Maharashtra	11518.59	27,290.90	20,830.90
Uttar Pradesh	3037.43	1,979.15	26.19
Odisha	1608.56	251.32	85.37
Telangana	1192.3	595.24	356.54
Karnataka	1021.41	810.43	411.99
Rajasthan	925.85	587.46	356.52
West Bengal	697.25	841.49	216.08
Chhattisgarh	648.81	216.02	12.15
Assam	612.81	-	-
Madhya Pradesh	588.42	613.64	3,823.06
Total from top 10 States	21851.43	33185.65	26118.8
Total Revenue from Operations	33274.58	35980.81	29457.43
<i>% of Revenue from top 10 States</i>	<i>65.67%</i>	<i>92.23%</i>	<i>88.67%</i>

Further, as we enter into new markets and geographical areas, we are likely to compete with not only national players, but also the local players, who might have an established local presence, and are more familiar with local business practices and have stronger relationships with local customers, relevant government authorities, suppliers or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into other areas may adversely affect our business prospects, financial conditions and results of operations. While our management believes that the Company has requisite expertise and vision to grow and mark its presence in other markets going forward, investors should consider our business and prospects in light of the risks, losses and challenges that we face and should not rely on our results of operations for any prior periods as an indication of our future performance.

18. Our business is working capital intensive. If we experience insufficient cash flows to meet required payments on our working capital requirements, there may be an adverse effect on the results of our operations.

We require a significant amount towards working capital requirements which is based on certain assumptions, and accordingly, any change of such assumptions would result in changes to our working capital requirements. A significant amount of working capital is required to finance the purchase of equipment, stores and spares, mobilization of resources and other work on road construction activities as service provider, before payment is received from clients. As a result, we will continue to avail debt in the future to satisfy our working capital requirements. Our working capital requirements may increase if we undertake larger or additional projects or if payment terms do not include advance payments or such contracts have payment schedules that shift payments toward the end of a project or otherwise increase our working capital burden.

The working capital requirement involves providing of bank guarantees and security deposit for some of the work orders awarded to our Company for which cash margin has to be provided. Apart from that the clients retain certain percentage of the contract value after the completion of the project as retention money. However, we cannot assure you that our relationships with lenders will not change or that lenders will continue lending practices we are familiar with. Our lenders may implement new credit policies, adopt new pre-qualification criteria or procedures, raise interest rates or add restrictive covenants in loan agreements, some or all of which may significantly increase our financing costs, or prevent us from obtaining financings totally. As a result, our business, financial condition and results of operations may be materially and adversely affected.

In general, a large part of our working capital is also blocked in inventories and trade receivables from our clients, including those arising from progress payments or release of retention money. The results of operations of our business are dependent on our ability to effectively manage our inventory and trade receivables. To effectively manage our inventory, we must be able to accurately estimate customer demand / potential orders and supply requirements and purchase new inventory accordingly. However, if we misjudge expected customer demand / potential orders, it could cause either a shortage or an accumulation of excess inventory. During FY 2023-24, FY 2022-23 and FY 2021-22, our inventories were ₹2,926.13 lakhs, ₹992.53 lakhs and ₹1,741.84 lakhs. For further information, see “*Annexure XVII- Details of Inventories as restated*” on page 236 of the Red Herring Prospectus.

To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if we fail to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. During FY 2023-24, FY 2022-23 and FY 2021-22, our trade receivables were ₹9,585.84 lakhs, ₹4,439.92 lakhs and ₹4,431.88 lakhs. For further information, see “*Annexure XVIII- Details of trade receivables as restated*” on page 236 of the Red Herring Prospectus. There can be no assurance that the progress payments and the retention money will be remitted by our clients to us on a timely basis or that we will be able to efficiently manage the level of bad debt arising from such payment practice. All of these factors may result in an increase in the amount of our receivables and short-term borrowings and the continued increase in working capital requirements may have an adverse effect on our financial condition and results of operations.

19. *We derive a certain portion of our income from profit on sale of fixed assets*

Our portfolio of services includes renting of road construction equipment. Our business of renting of road construction equipment is executed in two rental modes based on: (i) “time-based pricing” and (ii) “output-based pricing”. We focus on equipment lifecycle management where we acquire a new machinery or equipment, utilize it for a set period (typically two to three years), and then dispose of or replace it with newer equipment. This approach has helped us to derive income from sale of fixed assets. For Fiscal 2024, 2023 and 2022 our income from profit on sale of fixed assets accounted for Rs. 1,541.59 lakhs, Rs. 888.60 lakhs and Rs. 926.53 lakhs. For further information, see “*Annexure XXIII- Details of other income as restated.*” Any reduction in such income or our inability to dispose the used equipment on profitable terms may affect our cash flows and financial position.

20. *Our Order Book may not be representative of our future results and our actual income may be significantly less than the estimates reflected in our Order Book, which could adversely affect our results of operations.*

Our Order Book as of June 15, 2024 has been calculated on the basis of the aggregate value of work orders for some of our ongoing projects as of such date reduced by the value of work executed by us until such date, and estimated value of work orders awarded to us. For the purposes of calculating the Order Book value, we do not take into account any escalation or change in work scope of our ongoing projects as of the relevant date. The manner in which we calculate and present our Order Book is therefore not comparable to the manner in which our revenue from operations is accounted, which takes into account revenue from work relating to escalation or changes in scope of work of our work orders. The manner in which we calculate and present our Order Book information may vary from the manner in which such information is calculated and presented by other companies. The Order Book information included in this Red Herring Prospectus is not audited and

does not necessarily indicate our future earnings. Our Order Book should not be considered as a substitute for performance measures. As of June 15, 2024 our Order Book includes (i) 17 work orders under Crushing Services aggregating to Rs. 12,038.28 Lakhs (ii) 24 work orders under Milling services aggregating to Rs. 1,290.38 Lakhs. These orders are spread across 13 states in India. We may not be able to achieve our expected margins or may even suffer losses on one or more of these contracts or we may not be able to realize the revenues which we anticipated in such work orders. In addition, there can be no assurance that we will be awarded the projects that we currently expect.

We may encounter problems in execution as ordered, or executing it on a timely basis. Moreover, factors beyond our control may postpone a project or cause its cancellation, including delays or failure to obtain necessary permits, authorizations, permissions, and other types of difficulties or obstructions. Delays in the completion of an order can lead to clients delaying or refusing to pay the amount, in part or full. These payments often represent an important portion of the margin we expect to earn on a project. In addition, even where a project proceeds as scheduled, it is possible that the contracting parties may default or otherwise fail to pay amounts owed. Any delay, reduction in scope, cancellation, execution difficulty, payment postponement or payment default in regard to our Order Book or any other uncompleted projects, or disputes with clients in respect of any of the foregoing, could materially harm our cash flow position, revenues and earnings.

21. Increase in the prices of raw materials, fuel and labour could have an adverse effect on our business, results of operations and financial condition.

We undertake various road construction activities like: milling, crushing and paving. A significant part of the execution of any of these activities is planning, procurement, execution, monitoring and controlling, operations & maintenance. These activities require significant raw materials, stores and spares and labour and therefore forms a major cost for our operations. During Financial Years 2024, 2023 and 2022 the cost of material consumed were Rs. 17,669.21 lakhs, Rs. 23,489.13 lakhs and Rs. 22,107.55 lakhs which constituted 53.10%, 65.28% and 75.05% of our revenue from operations respectively. For further information, see “*Annexure XXIV- Details of cost of material consumed as restated*” on page 238 of this Red Herring Prospectus. We are vulnerable to the risk of rising and fluctuating prices of raw materials which are determined by demand and supply conditions in the global and Indian markets. Any unexpected price fluctuations after placement of orders, shortage, delay in delivery, quality defects, or any factors beyond our control may result in an interruption in the supply of such materials and adversely affect our business, financial performance and cash flows.

Furthermore, we are susceptible to the risk of increase in prices of fuel as it forms part of some of our work orders for road construction activities like: milling, crushing and paving. Fuel is a fundamental component in the operation of heavy machinery and Rising fuel prices directly impact the operating costs of an equipment. Higher fuel costs may necessitate adjusting rental rates to reflect increased operational expenses. If we are unable to shift the burden of increased fuel costs onto our customers, our profitability may be adversely affected.

22. There are outstanding legal proceedings involving our Company which may adversely affect our business, financial conditions, and results of operations.

23. Our Company is in process of transferring secured loan from partnership firm to public Company. Any delay/ non-transfer of secured loans could impact the reputation and financial position of the Company to that extent.

As on March 31, 2024 the Company had outstanding secured loan of Rs 19,929.70 lakhs from 24 lenders. All these loans were availed by the company at the time it was a partnership firm and accordingly the company was not required to file the Form CHG 1 with ROC at that time. Later the Company was converted from partnership firm to the public company vide Certificate of Incorporation dated January 12, 2024. Pursuant to conversion from partnership firm to company the process of registration of charge against the outstanding loans was initiated. Thus the Company made an application to the secured lenders for change of name in the loan documents from M/s Vision Infra (“Partnership firm”) to Vision Infra Equipment Solutions Limited (“the Company”) and the same is in the process. The Company has received the revised agreement from 6 lender banks and has filed their charge form for the same. The outstanding balance from such 6 banks was Rs 2807.65 Lakhs as on March 31, 2024. It further foreclosed the loan from 2 of the lender banks which had outstanding balance of Rs 54.17 lakhs as on March 31, 2024. The company is awaiting the revised agreements from remaining 12 Banks which had an outstanding balance of Rs 17067.88 lakhs as on March 31, 2024. The Company has initiated the process with lender banks to execute sanction agreements in the name of the Company. Upon receiving the revised agreements, our Company shall comply with provision of Section 77 of the Companies Act, 2013 and file Form CHG-1 with RoC for creation of charge within the time frame prescribed under the provisions of Companies Act, 2013. The company shall complete the process of registration of pending charge with MCA upon receipt of revised sanction agreements from these banks. In the event that any lender does not transfer the loan from partnership firm to the Company, we may be required to repay the loan, which may affect business operations of our Company.

24. Our Company has been recently formed by conversion of the erstwhile partnership firm into the company, thus we have limited operating history as a Company which may make it difficult for investors to evaluate our historical performance or future prospects.

Our Company was incorporated as a limited Company under the Companies Act, 2013 with Registrar of Companies, dated January 12, 2024. The Company has been incorporated by conversion of the erstwhile partnership firm; thus, we have limited operating history as a company from which one can evaluate our business, future prospects and viability. Our future business operation and financial position may not comparable with that of the partnership firm and difficult to estimate and could fluctuate significantly and as a result the price of our Equity Shares may remain volatile. Although, our overall presence in the construction equipment space is of about 8 years, as the partnership firm has been converted into the public limited company on a going concern basis but, there can be no assurance that we will be able to successfully pursue our growth strategies, or that pursuing these strategies will provide us the anticipated benefits post conversion of the partnership firm to company. Any inability to pursue our growth strategies successfully or at all, or an inability to manage our growth, may adversely affect our prospects. For further details, see the chapter titled “**History and Corporate Structure**” and “**Restated Financial Statements**” on page 118 and 137 respectively of the Red Herring Prospectus.

25. We are subject to risks arising from interest rate fluctuations, which could reduce the profitability of our projects and adversely affect our business, financial condition and results of operations.

Interest rates for borrowings have been increasing in recent times. Our fleet of equipment and working capital requirements are partly funded by debt and any increase in interest rate and a consequent increase in the cost of servicing such debt may have an adverse effect on our results of operations and financial condition. Changes in prevailing interest rates affect our interest expense in respect of our borrowings and our interest income in respect of our interest on our deposits with banks. As on March 31, 2024, our fund based financial assistance from banks and financial institution is ₹21,229.70 lakhs. For further details, please see “**Statement of Financial Indebtedness**” on page 217. Our current debt facilities carry interest at floating rates on REPO. We do not currently enter into interest hedging arrangements to hedge against interest rate risk. Upward fluctuations in interest rates may increase our borrowing costs, which could impair our ability to compete effectively in our business relative to competitors with lower levels of indebtedness. As a result, our business, financial condition, cash flows and results of operations may be adversely affected. In addition, we cannot assure you that difficult conditions in the global credit markets will not negatively impact the cost or other terms of our existing financing as well as our ability to obtain new credit facilities or access the capital markets on favourable terms.

26. Our operations are subject to risks of mishaps or accidents that could cause damage or loss to life and property and could also result in loss or slowdown in our business

Our business operations are subject to operating equipment that entails risks, including fatal accidents, mishaps failure of equipment, labour disputes, natural disasters or other force majeure conditions which are beyond our control. The occurrence of any of these mishaps and accidents may expose us to litigations and could significantly affect our results of operations and financial condition. Long periods of business disruption could result in a loss of business. Although we take precautions to minimize the risk of any significant operational problems at our operation sites, there can be no assurance that we will not face such disruptions in the future.

27. We are required to furnish bank guarantees as part of our business. Our inability to arrange such guarantees or the invocation of such guarantees may adversely affect our cash flows and financial condition

As part of our business and requirements of our work orders we are required to provide financial and performance bank guarantees in favor of our clients under the respective contracts for some of our work orders. These guarantees are typically required to be furnished at the time of execution of the work order and are valid up to the completion of service. We may not be able to continue obtaining new financial and performance bank guarantees in sufficient quantities to match our business requirements. If we are unable to provide sufficient collateral to secure the financial bank guarantees, performance bank guarantees or letters of credit, our ability to enter into new contracts or obtain adequate supplies could be limited and could have a material adverse effect on our business, results of operations and financial condition. Providing security to obtain financial and performance bank guarantees also increases our working capital requirements. As of March 31, 2024, we had issued bank guarantees amounting to ₹79.25 lakhs towards securing our financial/ performance obligations for our projects. We may be unable to fulfil any or all of our obligations under the contracts entered into by us due to unforeseen circumstances which may result in a default resulting in invocation of the bank guarantees issued by us. If any or all the bank guarantee are invoked, it may result in adverse effects on our business and financial condition.

28. Our Registered Office is located on leased premises. If we are unable to renew these leases or relocate on commercially suitable terms, it may have a material adverse effect on our business, results of operation and financial condition.

Our registered office is taken on rent pursuant to leave and license agreements. Further we have entered into another leave and license agreement for establishment of new refurbishment unit. Such agreements may be terminated upon the expiry of their tenure and may not be renewed. Additionally, the agreements require our Company to comply with certain conditions including prior consent of the lessor for certain actions such as making significant structural alterations, subletting, transferring or assigning the leased premises. If we fail to meet any such conditions, we may be required to incur additional liability. Moreover, we carried out our refurbishment activities in the past on a rented premises and were required to shift the same to other location. Therefore, any present and future conflicts arising due to these agreements could have a material adverse effect on our operations. If these agreements are terminated or revoked if we are unable to renew these agreements on commercially reasonable terms or at all, we may suffer significant disruptions to our operations and incur considerable costs to relocate and move our operations elsewhere. In the event we are required to vacate the premises, we may need to do with short or no notice. Any inability on our part to timely identify a suitable location to relocate could have an adverse impact on our business.

29. Any Penalty or demand raised by statutory authorities in future will affect financial position of the Company.

Our Company is engaged in providing road construction equipment for sale and on a rental basis, which attracts tax liability such as Goods and Service tax and Income tax as per the applicable provisions of Law. We are also subject to the labour laws like depositing of contributions with Provident Fund, and Employee State Insurance. Any demand or penalty raised by the concerned authority in future for any previous year and current year will have an additional liability. Details of the same are as under:

For further information please refer *Annexure XXX- Details of Contingent Liabilities* as restated on page 240 of this Red Herring Prospectus.

31. *We have experienced negative cash flows in the past and may continue to do so in the future and the same may adversely affect our cash flow requirements, which in turn may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition.*

We have experienced negative net cash flows from operating, investing and financing activities in the past and may continue to experience such negative operating cash flows in the future. The following table sets forth certain information relating to our cash flows on a restated consolidated basis for the periods indicated:

(₹ in lakhs)			
Particulars	Fiscal 2024	Fiscal 2023	Fiscal 2022
Net cash from/ (used in) Operating Activities	181.60	7,614.56	1,749.83

Net cash from/ (used in) Financing Activities	6,211.86	128.48	2,705.10

Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. As a result, our cash flows, business, future financial performance and results of operations could be materially and adversely affected. For further details, see “*Restated Financial Statements- Annexure III- Statement of Cash Flow as restated*” and “*Management’s Discussion and Analysis of Financial Position and Results of Operations*” beginning on pages 158 and 220, respectively.

32. *Our operations are dependent on a significant number of contract labour and an inability to access adequate labour at reasonable costs at our sites across India may adversely affect our business prospects and results of operations.*

Our operations as a service provider in road construction activities like: milling, crushing and paving are significantly dependent on access to a large pool of contract labour for the execution of our work orders. The number of labourers employed by us varies from time to time based on the nature and extent of work we are involved in. Our dependence on such contract labour may result in significant risks for our operations, relating to the availability and skill of such contract labourers, as well as contingencies affecting availability of such contract labour during peak periods in labour intensive sectors such as ours. There can be no assurance that we will have adequate access to workmen at reasonable rates and in

the areas in which we execute our work orders. As a result, we may be required to incur additional costs to ensure timely execution of our work orders.

33. *We have not received No Objection Certificate from all the lenders of term loans to our company.*

We have not received the no objection certificate from the lender banks from whom we have availed secured loan. Our company has made an application with these Bank to provide us with the NOC. We are awaiting to receive the same. In case the said consent or NOC is not received in time we may delay the operations. Further, in case we undertake any operation without their prior consent, our lenders may ask for repayment of amounts outstanding under such facilities, or even terminate such facilities, and as a result we may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows.

34. *We are dependent upon the experience of our management team and a number of KMP and senior management personnel. If we are unable to attract or retain such team, this could adversely affect our business, results of operations and financial condition.*

We are dependent on the experienced and capable management team for successful operations. Our ability to meet continued success and future business challenges depends on our ability to attract, recruit and retain experienced, talented and skilled personnel. The loss of the services of our key personnel or our inability to recruit or train a sufficient number of experienced personnel or our inability to manage the attrition levels in different employee categories may have an adverse effect on our financial results and business prospects. Further, if we cannot hire additional qualified personnel or retain them, our ability to expand our business may be impacted. As we intend to continue to expand our operations, we will be required to continue to attract and retain experienced personnel. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting suitable employees. There can be no assurance that our competitors will not offer better compensation incentives and other perquisites to such skilled personnel.

In the event that we are not able to attract and retain talented employees as required for conducting our business, or if we experience high attrition levels which are largely out of our control, or if we are unable to motivate and retain existing employees, our business, results of operations and financial condition may be adversely affected. For further information, see *“Our Management”* on page 121.

35. *We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule.*

The proposed fund requirement for our objects of the Issue, as detailed in the section titled "Objects of the Issue" is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule our growth prospectus. For further details, see *“Statement of Financial Indebtedness”* beginning on page 217. In the event that any lender seeks a repayment of any such loan, we would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all.

37. *Our inability to respond adequately to increased competition in our business may adversely affect our business, financial condition and results of operations.*

We compete with several companies and entities, that include large infrastructure companies and organized and unorganized contractors in the infrastructure industry. Our competitors may have greater brand recognition, stronger manpower and greater financial resources and experience. We also face competition from new entrants who may have more flexibility in responding to changing business and economic conditions. The basis of competition includes, among other things, pricing, innovation, perceived value and other criteria. We have experienced price competition in the past, and there can be no assurance that such price competition will not recur in the future. Growing competition may reduce revenues and

margins and/or decrease our market share, either of which could affect our results of operations. These developments could render us obsolete or in competitive, which would harm our business and financial results.

38. *Some of our Group Companies and Promoter Group Entities operate in the same line of business as us, which may lead to conflict of interest.*

We derive some portion of our revenue from sales to group companies and promoter group entities. During the Year ended March 2024, March 2023 and March 2022, we derive 30.79%, 63.25% and 69.39% of our revenue from operation respectively from our group companies. Hence, we may have to depend on our Group Entities for business, which may impact our business, financial condition and results of operations. We cannot assure that our Promoters who have common interest in said entity will not favour the interest of the said entity. As a result, conflicts of interests may arise in allocating business opportunities amongst our Company and these Companies in circumstances where our respective interests' conflict. In cases of conflict, our Promoters may favour these companies. There can be no assurance that our Promoters or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. The interests of our Promoters may also conflict in material aspects with our interests or the interests of our Shareholders. Further we may be unable to establish that sales to these foreign group companies have been made at arms length pricing which may expose us to statutory liabilities. However, our Company will ensure necessary procedures and practices as permitted by laws and regulatory guidelines to address situations of conflict of interest as and when they arise. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations. 39. *Any variation in the utilization of the Net Proceeds as disclosed in this Red Herring Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company.*

We propose to utilize the Net Proceeds towards Funding Capital Expenditure towards purchase of additional equipment, to meet working capital requirements and general corporate purposes. For further details of the proposed objects of the Issue, see "***Objects of the Issue***" beginning on page 76. In accordance with the Companies Act, 2013 and the SEBI ICDR Regulations, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Red Herring Prospectus without obtaining the approval of shareholders of our Company through a special resolution. In the event of any such circumstances that require us to vary the disclosed utilization of the Net Proceeds, we may not be able to obtain the approval of the shareholders of our Company in a timely manner, or at all. Any delay or inability in obtaining such approval of the shareholders of our Company may adversely affect our business or operations. Further, our Promoters would be required to provide an exit opportunity to the shareholders of our Company who do not agree with our proposal to modify the objects of the Issue, at a price and manner as prescribed by SEBI. Additionally, the requirement to provide an exit opportunity to such dissenting shareholders of our Company may deter our Promoters from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoter will have adequate resources at their disposal at all times to enable them to provide an exit opportunity. In light of these factors, we may not be able to vary the objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition, if any, which may adversely affect our business and results of operations.

Our Promoters may continue to provide such guarantees and other securities post listing. In case of a default under our loan agreements, any of the guarantees provided by our Promoters and Promoter group members may be invoked or the personal property of the promoters may be forfeited, which could negatively impact the reputation and net worth of our Promoters and Promoter group members. In addition, our guarantors may be required to liquidate their shareholding in our Company to settle the claims of the lenders, thereby diluting their shareholding in our Company.

However, if the Issue size is more than ₹ 10,000 Lakh, our Company shall appoint a monitoring agency for this Issue. However, as per section 177 of the Companies Act, the Audit Committee of our Company, would be monitoring the utilization of the proceeds of the issue. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

46. *Our Promoters and Promoter Group will continue to retain significant control in our Company after the Issue which will allow them to influence the outcome of matters submitted to shareholders for approval. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control.*

After the completion of this Issue, our Promoters and Promoter Group will continue to hold 70.20% of the equity share capital of our Company and will be in a position to exercise significant control, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting, and our other shareholders will be unable to affect the outcome of such voting. Our Promoters and Promoter Group may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholders, such as actions which delay, defer or cause a change of our control or a change in our capital structure, merger, consolidation, takeover or other business combination involving us, or which discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us. We cannot assure you that our Promoters and Promoter Group will act in our interest while exercising their rights in such entities, which may in turn materially and adversely affect our business and results of operations. We cannot assure you that our Promoters and Promoter Group will act to resolve any conflicts of interest in our favor. If our Promoters and Promoter Group sell a substantial number of the Equity Shares in the public market, or if there is a perception that such sale or distribution could occur, the market price of the Equity Shares could be adversely affected. No assurance can be given that such Equity Shares that are held by the Promoters will not be sold any time after the Issue, which could cause the price of the Equity Shares to decline.

47. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

We have not declared any dividends on our Equity Shares in the past. The amount of our future dividend payments, if any, will depend upon factors that our Board deems relevant, including among others, our results of future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends in future. For further details, please see 'Dividend Policy' on page 136 of the Red Herring Prospectus.

48. *Our employees may engage in misconduct or other improper activities, including non-compliance with regulatory standards and requirements.*

We are exposed to the risk of employee fraud or other misconduct. Misconduct by employees could include intentional failures to comply with any regulations applicable to us, to provide accurate information to regulatory authorities, to comply with manufacturing standards we have established, or to report financial information or data accurately or disclose unauthorized activities to us. In particular, sales, marketing and business arrangements in our industry are subject to laws and regulations intended to prevent fraud, misconduct, kickbacks, self-dealing and other abusive practices. These laws and regulations may restrict or prohibit a wide range of pricing, discounting, marketing and promotion, sales commission, customer incentive programs and other business arrangements. While we have not faced such instances in the past, there can be no assurance that we will be able to identify and deter such misconduct, and the precautions we take to detect and prevent this activity may not be effective in controlling unknown or unmanaged risk. If our employees engage in any such misconduct, we could face criminal penalties, fines, revocation of regulatory approvals and harm to our reputation, any of which could form a material adverse effect on our business.

49. *We are exposed to the risks of malfunctions or disruptions of information technology systems.*

We depend on information technology systems and accounting systems to support our business processes, including designing, planning, execution, procurement, inventory management, quality control, product costing, human resources and finance. Although these technology initiatives are intended to increase productivity and operating efficiencies, they may not achieve such intended results. These systems may be potentially vulnerable to outages due to fire, floods, power loss, telecommunications failures, natural disasters, computer viruses or malware, break-ins and similar events. Effective response to such disruptions or malfunctions will require effort and diligence on the part of our third-party distribution partners and employees to avoid any adverse effect to our information technology systems.

50. ***Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and may be subject to change based on various factors, some of which are beyond our control.***

We intend to use the Net Proceeds for the purposes described in “*Objects of the Issue*” on page 76 of this Red Herring Prospectus. As on the date of this Red Herring Prospectus, our funding requirements are based on management estimates, current circumstances of our business, the prevailing market condition and other commercial and technical factors and have not been appraised by any bank or financial institution. They are based on current conditions and are subject to change in light of financial condition, business strategy and external factors such as government policies, market conditions, competitive environment and interest or exchange rate fluctuations and other external factors which may not be within the control of our management. While we will use the Net Proceeds for purposes such for funding its working capital requirements in the manner specified in “*Objects of the Issue*” on page 76.

51. ***Our Promoters and Promoter Group Members have provided guarantees for loans availed by us, and in the event the same is enforced against them, it could adversely affect our Promoters’ ability to manage the affairs of our Company.***

Our Promoters and Promoter Group Members have given guarantees in relation to certain borrowings availed by our Company. In the event of default on such borrowings, these guarantees may be invoked by our lenders thereby adversely affecting our Promoters’ ability to manage the affairs of our Company and this, in turn, could adversely affect our business, prospects, financial condition and results of operations. Further, if any of these guarantees are revoked by our Promoters and some of our Promoter Group Members our lenders may require alternate securities or guarantees and may seek early repayment or terminate such facilities. Any such event could adversely affect our financial condition and results of operations.

52. ***We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.***

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt - equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company’s Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company’s Equity Shares. Additionally, the disposal, pledge or encumbrance of Equity Shares by any of our Company’s major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

53. ***The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.***

The issue price of the equity shares has been based on many factors and may not be indicative of the market price of our Equity Shares after the Issue. For further information please refer the section titled “***Basis for Issue Price***” beginning on page 83 of the Red Herring Prospectus. The market price of our Equity Shares could be subject to significant fluctuations after the Issue in case of unfavorable situation it, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price.

54. ***Certain data mentioned in this Red Herring Prospectus has not been independently verified.***

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

55. ***QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Issue Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Bidders can revise their Bids during the Bid/Issue Period and withdraw their Bids until Bid/Issue Closing Date. While we are required to complete Allotment, listing and commencement of trading pursuant to the Issue within three (3) Working Days from the Bid/ Issue Closing Date, events affecting the Bidders’ decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders’ ability to sell our Equity Shares Allotted pursuant to the Issue or may cause the trading price of our Equity Shares to decline on listing. Retail Individual Investors can revise their Bids during the Bid/Issue Period and withdraw their Bids until Bid/Issue Closing Date. While our Company is required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed including Allotment pursuant to the Issue within three Working Days from the Bid/Issue Closing Date, events affecting the Bidders’ decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders’ ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

EXTERNAL RISK FACTORS

1. ***Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.***

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Recent developments in the ongoing conflict between Russia and Ukraine has resulted in and may continue to result in a period of sustained instability across global financial markets, induce volatility in commodity prices, increase borrowing costs, cause outflow of capital from emerging markets and may lead to overall

slowdown in economic activity in India. In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries.

2. *Our business and results of operations could be adversely affected by disruptions in global economic and geo political conditions.*

As substantially all of our operations are dependent on our customers who have their head offices or parent companies situated outside India, our financial performance and growth are necessarily dependent on economic conditions prevalent globally. The global economy may be materially and adversely affected by political instability or regional conflicts; a general rise in interest rates; inflation; exchange rate fluctuations; changes in tax, trade, and monetary policies; occurrence of natural or man-made disasters; downgrade in debt rating; and adverse economic conditions occurring elsewhere in the world, such as a slowdown in economic growth in China, the repercussions of the United Kingdom exit from the European Union and other matters. While the Indian economy has grown significantly in recent years, it has experienced economic slowdowns in the past due to global economic and geo political conditions. The Indian economy in particular could be adversely impacted by inflationary pressures, currency depreciation, the poor performance of its large agricultural and manufacturing sectors, trade deficits, recent initiatives by the Indian government and other factors. Unfavourable changes in the above factors or in other business and economic conditions affecting our customers could result in a corresponding decline in our business

3. *We are exposed to risks associated with fluctuation in metal prices or shortages in supply of electric components.*

Our manufacturing activities depend on fluctuation in metal prices, being one of the important raw materials and supply of electric components. Changes in macroeconomic conditions generally impact these industries and could negatively impact our business or profitability. Accordingly, our business is highly dependent on the state of development of the Indian economy and the macroeconomic environment prevailing in India. Changes in government policies that may have adverse effect on the development associated industries, may have an adverse impact on our business.

4. *If certain labor laws become applicable to us, our profitability may be adversely affected.*

India has stringent labor legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labor laws may affect our flexibility in formulating labor related policies.

5. *The continuing effect of the COVID-19 pandemic on our business, results of operations and financial condition is highly uncertain and cannot be predicted.*

The outbreak, or threatened outbreak, of any severe communicable disease (particularly COVID-19) could adversely affect the overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The outbreak of COVID-19 has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines and lockdowns. These measures have impacted and may further impact our workforce and operations, the operations of our consumers. In case there is a rapid increase in severe cases of infections leading to deaths, where the measures taken by governments are not successful or are any bans imposed by the government in this regard are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. If any of our employees were suspected of contracting COVID-19 or any other epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general. The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of COVID-19 will cause an economic slowdown and it is possible that it could cause a global recession.

6. *A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.*

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by center or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. There have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural

production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

7. *Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.*

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details please refer to the chapter ***“Government and Other Approvals”*** on page 237 for details of the laws currently applicable to us. The governmental and regulatory bodies in India and other jurisdictions where we operate may notify new regulations and/or policies, which may require us to obtain approvals and licenses from the government and other regulatory bodies, or impose onerous requirements and conditions on our operations, in addition to those which we are undertaking currently. Any such changes and the related uncertainties with respect to the implementation of new regulations may have a material adverse effect on our business, financial condition, results of operations and cash flows.

In addition, unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and investments in our Company by non-residents, could result in us being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. Tax and other levies imposed by the central and state governments in India that affect our tax liability include central and state taxes and other levies, income tax, turnover tax, goods and services tax, stamp duty and other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each jurisdiction as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred. We are involved in various disputes with tax authorities. For details of these disputes, see ***“Outstanding Litigation and Material Developments”*** on page 232. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time.

Any change in Indian tax laws could have an effect on our operations. For instance, the Taxation Laws (Amendment) Ordinance, 2019, a new tax ordinance issued by India's Ministry of Finance on September 20, 2019, prescribes a number of changes to the income tax rate applicable to companies in India. According to this new ordinance, companies can henceforth voluntarily opt for a concessional tax regime (subject to no other special benefits/exemptions being claimed), which would ultimately reduce the effective tax rate for Indian companies. Any such future amendments may affect other benefits such as an exemption for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemption for interest received in respect of tax-free bonds, and long-term capital gains on equity shares if withdrawn by the statute in the future, and the same may no longer be available to us. Any adverse order passed by the appellate authorities/ tribunals/ courts would influence our profitability.

The Finance Act, 2022 (“Finance Act”), has, amongst others things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax (“DDT”), will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident and are likely to be subject to tax deduction at source. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such dividend. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares. Further, the Government of India has notified the Finance Act, 2023, which has introduced various amendments to taxation laws in India. There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

8. *Instability in financial markets could materially and adversely affect our results of operations and financial condition.*

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

9. *Natural calamities could have a negative impact on the Indian economy and cause Our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunamis, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

10. *Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.*

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in effect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

11. *Our performance is linked to the stability of policies and the political situation in India.*

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

a. Detailed rationale for increase in working capital requirement of the Company for FY 2022

One of the most important factors affecting working capital requirements is the size of a business and the scale of its operations. The increase in sales volume significantly influences the working capital needs of a business. The Company's overall turnover from FY 2021 to FY 2022 almost increased by 86.23% from Rs 15817.74 lakhs to Rs 29457.43 lakhs. The increase in turnover also required cash flow for the purchasing of additional equipment to run the business and accordingly the inventories increased by 168.78% from Rs 648.06 lakhs in FY 2021 to Rs 1741.84 lakhs in FY 2022. Moreover, with expansion of business larger amount of funds were blocked in Trade receivables which increased by 58.92% from Rs 2788.70 lakhs in FY 2021 to Rs 4431.88 lakhs in FY 2022. As a result of an increase in the requirement for funds for the above activities the company's requirement for working capital increased by 83.88% from Rs 1820.30 lakhs to Rs 3347.18 lakhs.

b. Detailed rationale for decrease in working capital requirement of the Company for FY 2023

During the year 2023, the demand for road construction equipment surged and the requirement was huge which led to increase in Revenue from operations by 22.15 % from Rs 29457.43 lakhs in FY 2022 to Rs 35980.81 lakhs in FY 2023. The company was able to receive an advance against the orders due to which there was increase in other current liabilities. The Advance from customers increased by 66.42% from Rs 665.79 lakhs in FY 2022 to Rs 1108.04 lakhs in FY 2023. Further the other current liabilities also increased due to increase in the amount Payable for Capital Goods by 41.74% from Rs 1,617.17 lakhs in FY 2022 to Rs 2,292.16 lakhs in FY 2023. Thus there was overall increase in other current liabilities by 49.42% from Rs 2,421.45 lakhs in FY 2022 to Rs 3,618.21 lakhs in FY 2023. The above reasons led to Increase in Current liabilities.

Further, due to rising demand company was able to conclude the trading and refurbishment orders faster resulting in reduction of inventories by 43.02% from Rs 1,741.84 lakhs in FY 2022 to Rs 992.53 lakhs in FY 2023. Moreover, during the FY 2023 the company has also witnessed reduction in Other Current Assets due to reduction in GST receivables by 41.66% from Rs 1,575.73 lakhs in FY 2022 to Rs 919.24 lakhs in FY 2023. The above reasons led to Decrease in Current Assets.

Contrastingly, when a business benefits from reduction in amounts blocked in current assets and ensures extended payments terms in current liabilities, the working capital requirement reduces significantly.

c. Detailed rationale for increase in working capital requirement of the Company for estimated period

Under the Union Budget 2023- 24, the Government of India allocated Rs. 2.7 lakh crore (US\$ 33 billion) to the Ministry of Road Transport and Highways. The Roads sector is expected to account for 18% capital expenditure over FY19-FY25. In FY22 (until November 2021) private sector invested Rs. 15,164 crore (US\$ 1.98 billion) in roads. (Source: Ministry of External Affairs, Economic Survey-2019-20, MoRTH, News Articles.) Various government initiatives facilitate the growth of our company of this sector which in turn contribute to growth of our operations. The increasing demand for road construction equipment in the market will increase the demand for the purchase of these assets. Purchasing assets from the market requires cashflow. During the FY 2022, we rented out our construction equipment to approx. 95 customers which expanded to approx. 133 customers during FY 2024.

d. Detailed rationale for increase in working capital ratio for last three financial years.

Reply: We have explained above the rationale for working capital requirements year on year. The aforesaid reasons led to working capital requirements. Moreover, to expand its operations the company would be required to extend liberal credit policy and ensure timely delivery of goods. Effectively managing large inventories becomes a necessity, driving the requirement for a higher level of working capital. This proactive approach enables businesses to meet customer demands promptly and maintain a competitive edge.

Justification:

Debtors	The historical holding days of trade receivables has been ranging from 45 days to 85 days from FY 21-22 to FY 23-24. As per the current credit terms and prevalent trend of the industry & in order to expand company's operations, the holding level for debtors is anticipated at 90 days of total revenue from operations during Fiscal 2025. The company has initiated expansion of revenue from rental operations, which shall require allowing them more time to settle their invoices and capture larger customer base in the industry. By offering this flexibility, we expect to stimulate increased sales volume and foster stronger customer relationships. This trend is primarily driven by the characteristics of our customer base, predominantly comprising of industries requiring heavy equipment. Customers in these sectors typically follow a payment practice where post completion of work and expand our customer base the general payment terms may be required to be extended to around 90 days. The prolonged credit period is a result of the trust and long-term relationships we maintain with our clients. As a result, our trade receivable days are in alignment with industry norms and the necessity to accommodate the payment practices prevalent in our customer base.
----------------	--

Creditors	Past trend of Trade payables holding days has been in the range of 37 days to 49 days from FY 21-22 to FY 23-24. However, with additional working capital funding, our Company intends to reduce trade payable 30 days during Fiscal 2025 to avail cash discount as well as competitive purchase price to increase overall profitability of our Company. By reducing the time, it takes to settle our payables we aim to negotiate more favourable terms and conditions with our suppliers, enabling us to access competitive pricing. Further some of our purchases require some advances to be paid to suppliers and we need to ensure timely payments so as to strengthen our long-term relationships with such suppliers to maintain supply chain balances.
Inventories	The historical holding days of inventories has been in range of 18 days to 45 from FY 21-22 to FY 23-24. With the perspective to increase business operations and expand revenue from operations, the Company estimates to expand inventories holding days to be around 60 days in Fiscal 25. With increase in executable orders we would need higher levels of working capital funds. Refurbishment of equipment before being sold will also require us to maintain higher turn around time from purchase of equipment to until they are sold. With additional working capital limits the company is also expecting to maintain sufficient inventory of spare parts to address the needs of wear and tear in the business.

Global economic prospects

Global growth is expected to slow to 2.4 percent in 2024— the third consecutive year of deceleration—reflecting the lagged and ongoing effects of tight monetary policies to rein in decades-high inflation, restrictive credit conditions, and anemic global trade and investment. Near-term prospects are diverging, with subdued growth in major economies alongside improving conditions in emerging market and developing economies (EMDEs) with solid fundamentals. Meanwhile, the outlook for EMDEs with pronounced vulnerabilities remains precarious amid elevated debt and financing costs. Downside risks to the outlook predominate. The recent conflict in the Middle East, coming on top of the Russian Federation’s invasion of Ukraine, has heightened geopolitical risks. Conflict escalation could lead to surging energy prices, with broader implications for global activity and inflation. Other risks include financial stress related to elevated real interest rates, persistent inflation, weaker-than-expected growth in China, further trade fragmentation, and climate change-related disasters. Against this backdrop, policy makers face enormous challenges and difficult trade-offs. International cooperation needs to be strengthened to provide debt relief, especially for the poorest countries; tackle climate change and foster the energy transition; facilitate trade flows; and alleviate food insecurity. EMDE central banks need to ensure that inflation expectations remain well anchored and that financial systems are resilient.

Elevated public debt and borrowing costs limit fiscal space and pose significant challenges to EMDEs— particularly those with weak credit ratings—seeking to improve fiscal sustainability while meeting investment needs. Commodity exporters face the additional challenge of coping with commodity price fluctuations, underscoring the need for strong policy frameworks. To boost longer-term growth, structural reforms are needed to accelerate investment, improve productivity growth, and close gender gaps in labor markets.

Global economic activity continues to soften, amid the effects of tight monetary policies, restrictive financial conditions, and weak global trade growth. After a sharp slowdown in 2022 and another decline last year, global output growth is set to edge down in 2024, marking the third consecutive year of deceleration. The recent conflict in the Middle East has heightened geopolitical risks and raised uncertainty in commodity markets, with potential adverse implications for global growth. This comes while the world economy is continuing to cope with the lingering effects of the overlapping shocks of the past four years—the COVID-19 pandemic, the Russian Federation’s invasion of Ukraine, and the rise in inflation and subsequent sharp tightening of global monetary conditions.

Indian Economy

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. India's gross domestic product (GDP) at current prices in the second quarter (Q2) of 2023-24 is estimated to be Rs. 71.66 trillion (US\$ 861.2 billion), as against Rs. 65.67 trillion (US\$ 789.2 billion) in Q2 of 2022-23, showing a growth rate of 9.1%. Strong domestic demand for consumption and investment, along with Government’s continued emphasis on capital expenditure are seen as among the key driver of the GDP in the first half of FY24.

In 2023-24 (April-December), India’s service exports stood at US\$ 247.92 billion. Furthermore, India’s overall exports (services and merchandise) in 2023-24 (April-December) were estimated at US\$ 565.04 billion. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships. India's appeal as a destination for investments has grown stronger and more sustainable as a result of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 296.58 trillion (US\$ 3.56 trillion) in 2023-24. Additionally, the Nominal GDP at current prices in Q2 of 2023-24 was Rs. 71.66 trillion (US\$ 861.2 billion), as against Rs. 65.67 trillion (US\$ 789.2 billion) in 2022-23, estimating a growth of 9.1%. As of 03rd October 2023, India is home to 111 unicorns with a total valuation of US\$ 349.67 Billion. Out of the total number of unicorns, 45 unicorns with a total valuation of US\$ 102.30 Billion were born in 2021 and 22 unicorns with a total valuation of \$ 29.20 Billion were born in 2022. India presently has the third-largest unicorn base in the world. The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030.

ROAD TRANSPORT

Road transport is the dominant mode of transport in India, both in terms of traffic share and contribution to the national economy. Apart from facilitating the movement of goods and passengers, road transport plays a key role in promoting equitable socio-economic development across regions of the country. It also plays a vital role in social and economic integration and development of the country. Easy accessibility, flexibility of operations, door-to-door service and reliability have earned road transport a greater significance in both passenger and freight traffic vis-à-vis other modes of transport.

Strengthening ITS in Public Transport System: The Ministry has revamped its previous ITS Scheme and issued guidelines on June 23rd, 2022, to continue the previous scheme. This will provide additional financial support to STUs to equip themselves with advanced ITS technologies, improved bus services, operations, performance, and customer conveniences. The Scheme provides support of hardware and software components for Fleet Management System, Electronic Ticketing & Fare Collection System (including NCMC) and Passenger Information & Feedback System.

So far, proposals amounting to over Rs 200 crores have been received in the Ministry from several STUs such as TSRTC, KSRTC, GSRTC, BEST, Ahmedabad Jalmarg Ltd., Bhopal City Link Ltd., Kerala SRTC etc. These proposals are under consideration of this Ministry and several of them are already in advanced stages of appraisal.

PORT CONNECTIVITY

India has a total of 226 ports which comprise 12 Major ports. At present, there are 87 operational / under implementation ports which are being considered for assessment in terms of connectivity or capacity augmentation. For improving first/ last mile connectivity to all Major & Non-major ports of the country specifically the operational/ under implementation ports, 55 port connectivity and associated hinterland projects with a total length of 2,779 km have already been initiated by the Ministry and its implementing agencies. As of now, 8 projects of length 294 km have been completed, 14 projects of length 1,645 km are under implementation, 13 projects of length 363 km are under bidding and 20 projects of length 476 km are yet to be awarded. Post completion of these projects, 45 maritime ports will be provided with National Highway or 4 Lane+ connectivity.

MoRTH is working to enhance the ports logistics ecosystem by connecting Major & Minor Ports with National Highways, with NHLML spearheading this endeavour. The programme has been envisioned to connect all major ports, non-major ports as well as inland waterway terminals in the country to create an integrated network to support efficient and unhindered freight movement. As many as 52 critical infrastructure gap projects identified by MoPSW for connecting maritime ports and IWTs (Inland Waterway Terminals) to be taken up under PM Gati Shakti National Master Plan. Currently, DPR of total 56 projects (including 11 IWT projects) under this category with total of 1215 km length are under bidding stage for the feasibility assessment of these projects, which is being carried out by NHAI.

1. Robust Demand

India intends to enhance its infrastructure to reach its 2025 economic growth target of US\$ 5 trillion.

India's population growth and economic development require improved transport infrastructure, including investments in roads, railways, aviation, shipping and inland waterways.

2. Policy Support

Budget 2023-24 is complemented with a continuation of the 50-year interest-free loan to state governments for one more year to spur investment in infrastructure and to incentivize them for complementary policy actions, with a significantly enhanced outlay of Rs. 1.3 lakh crore (US\$ 16 billion).

Under the National Infrastructure Pipeline (NIP), projects worth Rs. 108 trillion (US\$ 1.3 trillion) are currently at different stages of implementation.

In November 2022, National Investment and Infrastructure Fund (NIIF) is set up as a collaborative investment platform between the Government of India, global investors, multilateral development banks (MDB) and domestic financial institutions to facilitate investment across multiple sectors in India through an India Japan Fund.

3. Attractive Opportunities

Development of infrastructure has a multiplier effect on demand and efficiency of transport and increases commercial and entrepreneurship opportunities.

In June 2022, the Minister of Road Transport and Highways, opened 15 national highway projects worth Rs. 13,585 crore (US\$1.7 billion) in Patna and Hajipur, Bihar.

In October 2021, the Dubai government and India signed a contract in October 2021 to build infrastructure in Jammu and Kashmir, including industrial parks, IT towers, multipurpose towers, logistics centres, medical colleges, and specialized hospitals.

Strong momentum in expansion of roadways

India has about 63.73 lakh km of road network, which is the second largest in the world.

National Highways play a very important role in the economic and social development of the country by enabling efficient movement of freight and passengers and improving access to the market. MoRTH and its implementing agencies have implemented multiple initiatives in the last 8 years to augment the capacity of the National Highway infrastructure in India.

In the Union Budget 2023-24, the government has decided to raise the allocation towards the Ministry of Roads by some 36% to Rs. 2.7 lakh crore (US\$ 32.6 billion) for 2023-24.

In FY23, the total length of National Highways in the country was 1,45,240 km.

National Highways had increased from 91,000 km in 2008 to 1,41,000 km in 2022, and the pace of construction had improved from 12 km a day to 42.03 km in FY23.

Infrastructure development in northeast India

- Investing in infrastructure would generate employment and would play a major role in thwarting secessionist movements in the Northeast region.
- In Budget 2023-24, there have been significant increases in the Ministry of Development of North Eastern Region (MDoNER) Scheme-wise outlays, that will increase the impact in infrastructure, social-development and livelihood sectors in the NER.
- Finance minister Nirmala Sitharaman's Budget for 2023-24 underlines sustained focus on the northeast for "inclusive development" as one of the
- seven priorities, which act as the 'Saptarishi' guiding the government "through the Amrit Kaal".
- Budget 2023-24 highlights:
- For FY24, the budgetary allocation for the Ministry of Development of Northeastern Region stood at Rs. 5892 crore (US\$ 711 million).
- Rs. 2,200 crore (US\$ 265.5 million) allocated for Prime Ministers Development Initiative for North-East (PMDevINE) Scheme.
- Rs. 2491 crore (US\$ 300.6 million) was allocated to North East Special Infrastructure Development Scheme (NESIDS).

- As the cost of travel by water is the least when compared to air, road and rail networks, the riverine systems of India and Bangladesh can be leveraged for all types of transportation.
- Along the Brahmaputra River, the development of the entire area between Sadiya and Dhubri in Assam is ongoing for improved connectivity.
- Multimodal hub that includes a ship repairing port at Pandu, four tourist jetties, and 11 floating terminals on the Brahmaputra in Guwahati is under construction.

Increasing investments in Indian infrastructure

The National Infrastructure Pipeline (NIP) for 2019-2025 is a first-of-its-kind, whole-of-government exercise to provide world-class infrastructure to citizens, improving their quality of life.

Infrastructure is the backbone of any country. Its development implies growth in all sectors of the economy, not to mention real estate, an indirect beneficiary of every headwind in infrastructure sector. The PM Awas Yojna and the extended credit-linked subsidy scheme address the affordability concern by provisioning increment in the PM Awas Yojna by 66% to 79,000 crores and extension of CLSS till 2027.

FDI in construction development (townships, housing, built-up infrastructure and construction development projects) and construction (infrastructure) activity sectors stood at US\$ 26.23 billion and US\$ 28.95 billion, respectively, between April 2000-September 2022.

In January 2023, the Construction arm of Larsen & Toubro secured orders for its power transmission & distribution and buildings & factories businesses to establish a 112.5MW Solar Power Plant in West Bengal and to construct a 600-bed super speciality hospital in Mumbai, respectively. In December 2022, BHEL formed a consortium with Titagarh Wagons and is among five entities which have bid for the mega Rs. 58,000 crore (US\$ 7 billion) contract to manufacture 200 Vande Bharat trains and maintain them for the next 35 years.

In December 2022, Mr. Nitin Gadkari, Minister of Road Transport and Highways inaugurated and laid the foundation stone of 8 National Highway projects of 226 km length worth Rs. 1,800 crore (US\$ 217.4 million) at Igatpuri, Nashik, Maharashtra. In December 2022, Mr. Nitin Gadkari, Minister of Road Transport and Highways inaugurated 7 National Highway projects worth Rs. 2,444 crore (US\$ 295 million) with a total length of 204 km in Rewa, Madhya Pradesh. In November 2022, the Prime Minister of India laid the foundation stone of various road projects worth over Rs. 2200 crore (US\$ 2.6 billion), namely the Medak-Siddipet-Elkathurthy section of NH-765DG; Bodhan-Basar-Bhainsa section of NH-161BB; Sironcha to Mahadevpur Section of NH-353C in Telangana.

In October 2022, National Highways Infra Trust (NHAI InvIT), the infrastructure investment trust sponsored by the National Highway Authority of India (NHAI) to support the Government of India's National Monetization Pipeline, raised a sum of Rs. 1,430 crore (US\$ 172.6 million) from domestic and international investors through the placement of its units, for part funding its acquisition of three additional road projects from NHAI. As many as 52 critical infrastructure gap projects identified by MoPSW for connecting maritime ports and IWTs (Inland Waterway Terminals) to be taken up under PM Gati Shakti National Master Plan. Currently, the DPR of a total of 56 projects (including 11 IWT projects) under this category with a total of 1215 km length are under the bidding stage for the feasibility assessment of these projects, which is being carried out by NHAI.

➤ OUTPUT BASED PRICING

We work as a service provider in road construction activities like: milling and crushing. Our scope of services include:

• MILLING ACTIVITY

Milling in road construction refers to the process of removing a layer of the existing pavement surface from a roadway. This activity is also known as cold milling or asphalt milling. The primary purpose of milling is to prepare the road for resurfacing or reconstruction by removing damaged or deteriorated asphalt or concrete layers. We own a large fleet of milling machines like: milling machines, soil stabilizer etc from various brands like: Writgen. These machines have a large rotating drum with cutting teeth that can remove the pavement surface. Milling is a crucial step in road construction as it improves the quality and durability of the road surface. It also allows for cost-effective recycling of existing materials, contributing to sustainable construction practices. Our scope of services include: Execution of rehabilitation, bitumen overlay, micro surfacing and associated ancillary works. An overview of the milling process in road construction is as under:

1. Process:

- The milling machine is positioned over the section of the road to be milled.
- The rotating drum with cutting teeth grinds and removes the top layer of the pavement.
- The milled material, known as RAP (Reclaimed Asphalt Pavement), is collected by the machine for recycling.

2. Purpose:

- **Surface Preparation:** Milling removes surface irregularities, bumps, and deformities in the road, providing a smoother and more even surface.
- **Pavement Removal:** It allows for the removal of damaged or deteriorated asphalt or concrete layers, which may include potholes, cracks, or other structural issues.
- **Profile Correction:** Milling helps in correcting the cross-sectional profile of the road, ensuring proper drainage and meeting design specifications.

3. Recycling:

- The milled material (RAP) is often recycled and reused in the construction of new pavement. This is an environmentally friendly practice that reduces the demand for new raw materials.

4. Resurfacing or Reconstruction:

- After milling, the road is ready for the application of a new asphalt or concrete surface. This could be part of routine maintenance or a larger road rehabilitation project.

• CRUSHING ACTIVITY

Crushing in road construction refers to the process of reducing larger-sized materials into smaller particles that can be used as aggregates in various construction activities, including road building. This activity is commonly associated with the preparation of materials for use in base courses, sub-base layers, and other components of the road construction process. We have all the units required for executing the Crushing Activity from Single stage Crushing Activity to 3 Stage Crushing Activity along with Mobile & Stationary Crusher Units. We own a large fleet of crushing machines like: mobile crusher plant, jaw, cone and screen; fixed crusher plant, mobile scalper screen, sand washing plant and sand air classifier plant etc from renowned brands like: Kleemann, Metso, Terex Powerscreen, Terex Finlay, Meloskey etc. The specific crushing process and equipment used depend on the type of material and the project requirements. The primary goal of crushing is to produce uniform, well-graded material that meets specific engineering and construction requirements. An overview of crushing activity in road construction is as under:

1. Material Selection:	<ul style="list-style-type: none"> The materials chosen for road construction, such as rocks, stones, or recycled concrete, are often too large in their natural state. Crushing is necessary to reduce these materials to a size suitable for the intended application.
2. Types of Crushing Equipment:	<ul style="list-style-type: none"> Jaw Crushers: These machines use a fixed jaw and a moving jaw to apply pressure and crush materials between them. Impact Crushers: Impactors use impact force to crush materials, and they can be either vertical shaft impactors (VSI) or horizontal shaft impactors (HSI). Cone Crushers: Cone crushers are used to crush materials by squeezing them between an eccentrically gyrating cone and a concave hopper.
3. Primary, Secondary, and Tertiary Crushing:	<ul style="list-style-type: none"> In the crushing process, materials may undergo primary, secondary, and tertiary stages of crushing, depending on the desired end product specifications.
4. Screening:	<ul style="list-style-type: none"> After crushing, the material may go through a screening process to separate particles of different sizes. This ensures that the final product meets the required gradation and size specifications.
5. Aggregate Production:	<ul style="list-style-type: none"> The crushed and screened material is often referred to as aggregate. Aggregates are essential components of road construction, providing the structural foundation for roads, highways, and other transportation infrastructure.
6. Base Course and Sub-base Construction:	<ul style="list-style-type: none"> The crushed aggregates are commonly used in the construction of base courses and sub-base layers in road projects. These layers provide support, stability, and drainage for the road structure.
7. Recycling:	<ul style="list-style-type: none"> Crushing activities also play a crucial role in recycling efforts. Recycled materials, such as crushed concrete or asphalt, can be used as aggregates in road construction, promoting sustainability and reducing the demand for new raw materials.

Code of Civil Procedure, 1908

The Code of Civil Procedure, 1908 is a procedural law related to the administration of civil proceedings in India. The Civil Procedure Code consolidates and amends the law relating to the procedure of the Courts of Civil jurisdiction. The Code of Civil Procedure is an adjective law it neither creates nor takes away any right. It is intended to regulate the procedure to be followed by Civil Courts. The Civil Procedure Code consists of two parts. 158 Sections form the first part and the rules and orders contained in Schedule I form the second part. The object of the Code generally is to create jurisdiction while the rules indicate the mode in which the jurisdiction should be exercised.

The Code does not affect any special or local laws nor does it supersede any special jurisdiction or power conferred or any special form of procedure prescribed by or under any other law for the time being in force. The Code is the general law so that in case of conflict between the Code and the special law the latter prevails over the former. Code of Criminal Procedure Code, 1973

It is the main legislation on procedure for administration of substantive criminal law in India. It was enacted in 1973 and came into force on 1st April, 1974. It provides the machinery for the investigation of crime, apprehension of suspected criminals, collection of evidence, determination of guilt or innocence of the accused person and the determination of punishment of the guilty.

Criminal law occupies a pre-dominant place among the agencies of social control and is regarded as a formidable weapon that society has forged to protect itself against anti-social behaviour. The law of criminal procedure is meant to be complimentary to criminal law. It is intended to provide a mechanism for the enforcement of criminal law. The Code of Criminal Procedure creates the necessary machinery for apprehending the criminals, investigating the criminal cases, their trials before the criminal courts and imposition of proper punishment on the guilty person. The Code enumerates the hierarchy of criminal courts in which different offences can be tried and then it spells out the limits of sentences which such Courts are authorized to pass.

The law of criminal procedure is intended to provide a mechanism for the enforcement of criminal law. Without the proper procedural law the substantive criminal law which defines offences and provides punishment for them would be almost worthless.

d) Depreciation on fixed assets will be calculated using the Written Down Value (WDV) method, which involves applying depreciation rates prescribed under Schedule II to the Companies Act 2013. to the carrying amount of the asset. The carrying amount is reduced each year by the amount of depreciation charged.

f) Depreciation methods, useful lives, and residual values are reviewed periodically, including at each financial year end;

3. Impairment

The Management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

4. Inventories

Inventories are valued after providing for obsolescence, as follows:

Raw Materials -Lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on First in First out (FIFO) basis.

5. Foreign Exchange Transactions

All transactions in foreign currency are recorded at the rates of exchange prevailing at the date of transaction. Any gain/ loss on account of the fluctuation in the rate of exchange is recognized in the statement of Profit and Loss.

Monetary items in the form of Loans, Current Assets and Current Liabilities in foreign currencies outstanding at the close of the year are converted in Indian currency at the appropriate rates of exchange prevailing on the date of Balance Sheet. Resultant gain or loss on account of the fluctuation in the rate of exchange is recognized in the statement of Profit and Loss.

6. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

7. Borrowing Costs

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of that asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Costs incurred in raising funds are amortized equally over the period for which the funds are acquired. All other borrowing costs are charged to profit and loss account.

8. Income Tax

The accounting treatment for the Income Tax in respect of the Company's income is based on the Accounting Standard on 'Accounting for Taxes on Income' (AS-22). The provision made for Income Tax in Accounts comprises both, the current tax and deferred tax. Provision for Current Tax is made on the assessable Income Tax rate applicable to the relevant assessment year after considering various deductions available under the Income Tax Act, 1961.

Deferred tax is recognized for all timing differences; being the differences between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Such deferred tax is quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date. The carrying amount of deferred tax asset/liability is reviewed at each Balance Sheet date and consequential adjustments are carried out.

9. Earnings Per Share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

10. Provisions and Contingent Liabilities

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the likely future outflow of economic benefits required to settle the obligation at the reporting date.

Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

11. Cash and Cash Equivalents

Our financial statements have been prepared in accordance with Indian GAAP, the Companies Act and the SEBI (ICDR) Regulations and restated as described in the report of our auditor dated August 31, 2024 which is included in this Red Herring Prospectus under “Financial Statements”. The Restated Financial Information has been prepared on a basis that differs in certain material respects from generally accepted accounting principles in other jurisdictions, including US GAAP and IFRS. We are a solution provider in the equipment space delivering our services in airports, smart cities, irrigation, building & factories, mining, railways, etc. Our portfolio of services includes: renting of road construction equipment and trading and refurbishment of these equipment. Our services offer several advantages, such as improved efficiency, cost control and a streamlined supply chain. Our business of renting of road construction equipment is executed in two rental modes based on: (i) “time-based pricing” and (ii) “output based pricing”.

The time based pricing model allows customers to pay for the equipment based on how much they use it or the time duration they utilize it for, which is primarily a fixed fee. This model is common where our equipment is leased to contractors or developers in the infrastructure industry and in road construction activity like: paving. Rental based on the output of a service provider is often referred to as "output-based pricing". In this model, the customer pays for the service based on the results or outcomes delivered by the service provider, rather than a fixed fee or hourly rate. This approach is commonly used in delivering our services as service provider for various road construction activities like: milling and crushing. We deploy our equipment, manpower and other resources for running out these activities.

We have large no. of fleet of major OEM's like Wirtgen, Case, Luigong, Dynapac, Komatsu, Atlas Copco, Ashok Leyland, Bharat Benz, Eicher Motors, Volvo, Terex Power Screen, Caterpillar, Metro, BOMAG etc which is rented out to infra companies like: Larsen & Toubro, Ashoka Buildcon Ltd, Afcons Infrastructure Ltd, NCC Ltd, GMR Infraprojects Ltd, Shapoorji Pallonji, Dilip Buildcon Ltd, Tata Projects Ltd, ITD Cementation India Limited, HG Infra Engineering Ltd, IRB Infra developers Ltd, GR Infra Projects Ltd, etc. Offering a fleet of road construction equipment for rent provides flexibility to clients who may not want to invest in purchasing the machinery outright. Further it allows our clients to access the latest technology without the long-term commitment of ownership. As of March 31, 2024 we own a fleet of 395 road construction equipment. During the FY 2022, we rented out our construction equipment to approx. 95 customers which expanded to approx. 133 customers during FY 2024. We operate from our head office situated at Shop No 401-405, Bhawani International Business Bay, Bhavani Peth, Pune City, Pune-411042, Maharashtra, India.

The leasing of Construction equipments require a combination of expertise, efficient equipment, and a skilled workforce. Our scope of work as a service provide includes deployment of road construction equipment along with ancillary equipment of required quality and capacity with suitable manpower for operation and maintenance of the same. Our scope further includes mobilization and demobilization of such equipment from client location. Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RII had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public Issue closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public Issue closure to listing would continue to be six Working Days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 (“T+3 Notification”). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Issue is being made under Phase III of the UPI (on a mandatory basis).

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI mechanism.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP").

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the "FDI Policy"), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("Restricted Investors"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company.
