PAGE NUMBERS

Unless stated otherwise, all references to page numbers in this Red Herring Prospectus are to the page numbers of this Red Herring Prospectus.

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Red Herring Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, IND AS and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “**Financial Statements as Restated**” beginning on page 210. Our restated financial statements are derived from our audited financial statements prepared in accordance with IND AS and the Companies Act and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1st of each year and ends on March 31st of the next year. All references to a particular fiscal year are to the 12-month period ending March 31st of that year. In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points. There are significant differences between IND AS, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company’s financial data. Accordingly, the extent to which the financial statements included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Ind AS. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “**Risk Factors**”, “**Our Business**”, “**Management Discussion and Analysis of Financial Condition and Result of Operations**” and elsewhere in this Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Ind As and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “**Financial Statements as Restated**” beginning on page 210.

CURRENCY OF PRESENTATION

In this Red Herring Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘lakhs’/ ‘Lac’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn. / Billions’ means ‘one hundred crores.

INDUSTRY AND MARKET DATA

Unless stated otherwise, industry and market data and various forecasts used throughout this Red Herring Prospectus have been obtained from publicly available information, industry sources and government publications.

Industry sources as well as government publications generally state that the information contained in those publications have been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Red Herring Prospectus is reliable, it has not been independently verified by the Book Running Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section titled **“Risk Factors”** beginning on page 31. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Red Herring Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENTS

This Red Herring Prospectus contains certain statements which are not statements of historical fact and may be described as “forward-looking statements”. These forward-looking statements include statements which can generally be identified by words or phrases such as “aim”, “anticipate”, “are likely”, “believe”, “continue”, “can”, “could”, “shall”, “expect”, “estimate”, “intend”, “may”, “likely”, “objective”, “plan”, “propose”, “seek to”, “will” “will achieve”, “will continue”, “will likely”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe the strategies, objectives, plans or goals of our Company are also forward-looking statements.

These forward-looking statements, whether made by us or a third-party, are based on our current plans, estimates, presumptions and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties, and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

This may be due to risks or uncertainties or assumptions associated with the expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which our Company operates and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in the industry and incidence of any natural calamities and/or acts of violence. Important factors that could cause actual results to differ materially from our Company’s expectations include, but are not limited to, the following:

- A reduction in the demand of our products and/or competing brands gaining wider market acceptance;
- Loss of one or more of our key customers and/or suppliers;
- An increase in the productivity and overall efficiency of our competitors;
- An adverse change in the regulations governing our products and the products of our customers;
- Any adverse development that may affect the operations of our manufacturing unit;
- A downturn in the utility of our products to the industries we cater to;
- Inability to obtain, maintain or renew requisite statutory and regulatory permits and approvals with respect to the usage of our key raw material may adversely affect our business, financial condition, results of operations and prospects;
- General economic and business conditions in the markets in which we operate and in the local, regional and national economies;
- Changes in technology and our ability to manage any disruption or failure of our technology systems;
- Our ability to attract and retain qualified personnel;
- Our ability to successfully execute our expansion strategy in a timely manner or at all;
- Changes in political and social conditions in India or in countries that we may enter, the monetary and interest rate policies of India and other countries, inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- Our reliance on third party suppliers for our products;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Occurrences of natural disasters or calamities affecting the areas in which we have operations;
- Market fluctuations and industry dynamics beyond our control;
- Our ability to compete effectively, particularly in new markets;
- Inability to collect our dues and receivables from, or invoice our unbilled services to our customers, our results of operations;

- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Conflict of interest with our Promoters, Promoter Group, Group Company and other related parties; and
- Changes in domestic and foreign laws, regulations and taxes and changes in competition in our industry;

For a further discussion of factors that could cause our actual results to differ from our expectations, see section titled **“Risk Factors”** and chapter titled **“Our Business”** and **“Management’s Discussion and Analysis of Financial Condition and Results of Operations”** beginning on pages 31, 138 and 274, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated and are not a guarantee of future performance.

Although the assumptions on which such forward-looking statements are based are reasonable, we cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect the current views of our Company as on the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on the management’s belief and assumptions, which in turn are based on currently available information. Although the assumptions upon which these forward- looking statements are based are reasonable, any of these assumptions as well as statements based on them could prove to be inaccurate. Neither our Company, our Promoters, our Directors, the BRLM, nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with regulatory requirements, our Company will ensure that investors in India are informed of material developments from the date of registration of this Red Herring Prospectus with the RoC until receipt of final listing and trading approvals by the Stock Exchange for this Issue.

FINANCING ARRANGEMENTS

There have been no financing arrangements whereby our Promoter, members of the Promoter Group, the directors of the Company which are promoters of the Company, the directors of the Company and their relatives have financed the purchase by any other person of securities of our Company, other than in the normal course of business, of the financing entity during a period of six months immediately preceding the date of this Red Herring Prospectus.

WEIGHTED AVERAGE PRICE AT WHICH EQUITY SHARES WERE ACQUIRED BY EACH OF OUR PROMOTERS AND SELLING SHAREHOLDERS DURING THE LAST ONE YEAR PRECEDING THE DATE OF THIS RED HERRING PROSPECTUS

The weighted average Price of equity shares acquired by the Promoters of our Company during the past one year preceding the date of this Red Herring Prospectus are as follows:

S. No.	Name of the Promoters	Number of Equity Shares ⁽¹⁾	Weighted Average Price per Equity Share (In Rs.) ⁽¹⁾
1.	Shera Energy Limited	6,81,000	61.00
2.	Isha Infrapower Private Limited	NIL	NIL
3.	Shivani Sheikh	NIL	NIL
4.	Sheikh Naseem	NIL	NIL

Note: Pursuant to the certificate dated July 20, 2024, issued by Peer Review Auditor of our Company, M/s Keyur Shah & Co., Chartered Accountants.

(1) The Weighted Average Price for Equity Shares acquired during last one year has been calculated by taking into account the amount paid by the Promoter to acquire, by way of fresh issuance, Bonus Issue or transfer, the Equity Shares and the net cost of acquisition has been divided by total number of shares acquired during last one year.

Note: There is no offer for sale from the existing shareholders of the company in the present issue of the issuer.

AVERAGE COST OF ACQUISITION OF SHARES FOR PROMOTERS AND SELLING SHAREHOLDERS

The average cost of acquisition of equity shares held by our promoters are set forth in the table below:

S. No.	Name of Promoters	No. of Equity Shares held	Average Cost of Acquisition per equity share (in Rs.) *

SECTION – III

RISK FACTORS

*An investment in Equity Shares involves a high degree of risk. You should carefully consider all of the information in this Red Herring Prospectus and the Prospectus, when available, particularly the “**Our Business**”, “**Our Industry**” “**Financial Statements as Restated**” and related notes thereon and “**Management Discussions and Analysis of Financial Condition and Results of Operations**” on page 138, 120, 210 and 274 respectively and the risks and uncertainties described below, before making an investment in the Equity Shares. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also have an adverse impact on our business, results of operations, cash flows and financial condition. If any or a combination of the following risks, or other risks that are not currently known or are currently deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition may be adversely affected, the price of the Equity Shares could decline, and you may lose all or part of your investment.*

*In making an investment decision, as prospective investors, you must rely on your own examination of us and the terms of the Issue, including the merits and the risks involved. You should consult your tax, financial, legal advisors about the particular consequences of investing in the Issue. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries. To obtain a complete understanding of our business, you should read this section in conjunction with the sections titled “**Our Industry**”, “**Our Business**”, and “**Financial Statements as Restated**” beginning on pages 120, 138 and 210, respectively, as well as the other financial and statistical information contained in this Red Herring Prospectus.*

This Red Herring Prospectus also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including the considerations described in this section and elsewhere in this Red Herring Prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context otherwise requires, in this section, reference to “we”, “us” “our” refers to our Company.

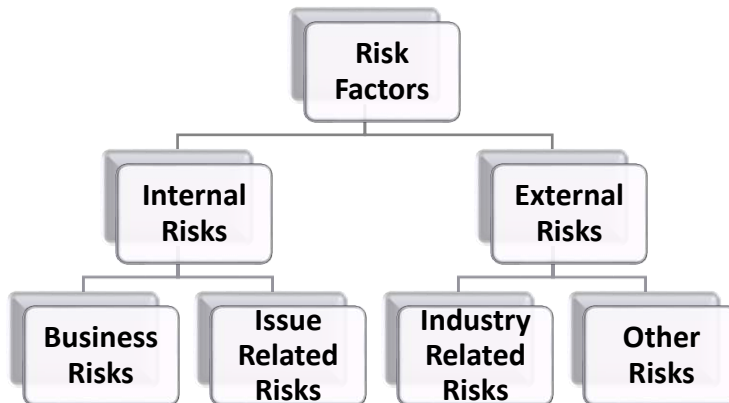

Unless otherwise stated, the financial information of our Company used in this section is derived from our audited financial statements under Ind As, as restated.

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively.
- Some events may have material impact qualitatively instead of quantitatively.
- Some events may not be material at present but may be having material impact in future.

The risk factors are classified as under for the sake of better clarity and increased understanding:

For further details in relation to transactions with related parties, please refer to the section entitled ***“Related Party Transactions”*** on page 208. While we are of the opinion that these related party transactions entered into by us, were in compliance with the Companies Act, 2013, we cannot assure you that we could not have achieved more favorable terms had such transactions been entered into with unrelated parties. It is likely that we may enter into related party transactions in the future. Although upon listing of our Equity Shares pursuant to the Issue, all related party transactions that we may enter into, will be subject to the requirements of the Companies Act, 2013 and the SEBI Listing Regulations, there can be no assurance that such transactions, individually or

in the aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favorable terms if such transactions had not been entered into with related parties. Such related party transactions may potentially involve conflicts of interest.

2. **We are highly dependent upon a limited number of suppliers 79.49%, 87.42% and 92.75% of our Total Purchases are derived from our top 10 suppliers for the Fiscal Years ended on March 31, 2024, 2023 and 2022. Further our 45.98%, 52.35%, and 73.18% of our total purchases for Fiscal Years ended on March 31, 2024, 2023 and 2022 are procured from our holding and group companies. Any failure of our suppliers to deliver these products in the necessary quantities or to adhere to delivery schedules, credit terms or specified quality standards and technical specifications may adversely affect our business and our ability to deliver orders on time at the desired level of quality.**

We source our product requirement indigenously. Purchases made from top 10 suppliers for the Financial Year ended March 31, 2023, 2022 and 2021 are as follows:

(₹ in Lakhs)

Particular	As on March 31, 2024	As on March 31, 2023	As on March 31, 2022

While we confirm that all the related party transactions done by our company in the past have been executed on Arm's Length Price and were in compliance with provisions of the Companies Act, 2013 as amended and other applicable laws, but we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties and there can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations. For further details in relation to transactions with related parties, please refer to the section entitled "**Related Party Transactions**" on page 208.

We may find additional suppliers to supply these products, any failure of our suppliers to deliver these products in the necessary quantities or to adhere to delivery schedules, credit terms or specified quality standards and technical specifications may adversely affect our business and our

ability to deliver orders on time at the desired level of quality. As a result, we may lose customers which could have a material adverse effect on our business, financial condition, and results of operations.

Further our product supply and pricing may become volatile due to several factors beyond our control, including global demand and supply, general economic and political conditions, transportation and labour unrest, natural disasters, competition, import duties, tariffs and currency exchange rates, and there are inherent uncertainties in estimating such variables, regardless of the methodologies and assumptions that we may use. Therefore, we cannot assure that we will be able to procure adequate supplies of our products in the future, as and when we need them on commercially acceptable terms. Further, there can be no assurance that we will be able to effectively manage relationships with our existing or new suppliers or that we will be able to enter into arrangements with new suppliers at attractive terms or at all. If we fail to successfully leverage our existing and new relationships with suppliers, our business and financial performance could be adversely affected.

The availability of copper and aluminium raw materials, essential for manufacturing our products is through short term supply contracts. We purchase all these raw materials on a need basis primarily through the spot market purchase mechanism and seek to source such raw materials from diverse suppliers.

3. We have in the past entered into transactions with related parties and may continue to do so in the future. These or any future related party transactions may potentially involve conflicts of interest and there can be no assurance that we could not have achieved better terms, had such arrangements been entered into with unrelated parties.

We have entered into various transactions with related parties, including for purchase and sale of goods and services from time to time. The Details of the related party transactions on the basis of Restated Financial Statements for the last 3 fiscal years ended on March 31, 2024, March 31, 2023 and March 31, 2022 are as under:

(Amount in Lakhs)

For further details in relation to transactions with related parties, please refer to the section entitled **“Related Party Transactions”** on page 208. While we are of the opinion that these related party transactions entered into by us, were in compliance with the Companies Act, 2013, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. It is likely that we may enter into related party transactions in the future. Although upon listing of our Equity Shares pursuant to the Issue, all related party transactions that we may enter into, will be subject to the requirements of the Companies Act, 2013 and the SEBI Listing Regulations, there can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favourable terms if such transactions had not been entered into with related parties. Such related party transactions may potentially involve conflicts of interest.

There is no assurance that our related party transactions in future would be on terms favourable to us when compared to similar transactions with unrelated or third parties or that our related party transactions, individually or in the aggregate, will not have an adverse effect on our financial

condition. For details, see **“Financial Statements as Restated – Annexure 41: Related Party Transaction”** on page 262-263.

4. Our Promoters or Directors may have interests, either directly or indirectly, in ventures involved in a business similar to us or our Holding Company may be involved in a business similar to us, which may result in a real or potential conflict of interest.

Our Promoter Shera Energy Limited is engaged in the similar line of business. Similarly, our Promoter Group Company Shera Metal Private Limited and Shree Khatu Shyamji Metal Industries Private Limited (**“SKSMIPL”**) are also engaged in the similar line of business. Further our individual promoters, namely Ms. Shivani Sheikh and Mr. Sheikh Naseem are also the key managerial position in these companies. For further details in relation to our Directors and Promoters, please see the sections entitled **“Our Management”** and **“Our Promoters and Promoter Group”** on pages 177 and 195, respectively.

Although we have same line of business, but we do not compete with each other in the business as Shera Metal Private Limited do does not sell billets made of metals like aluminium, copper or brass, Copper rods, Aluminium rods, Copper mother tube, brass wires and super enameled copper conductor in the domestic market and our company majorly sell these products in the domestic market.

SKSMIPL deals in trading and is not involved in any manufacturing activity while our company is a manufacturing company engaged in the business of manufacturing of diverse range of non-ferrous metal products from primarily Copper, Aluminium, Brass and various alloys from scrap metal.

However, such interest and relationships of our Promoters and Directors may result in a real or potential conflict of interest affecting our business. While we continue to adhere to the requirements of the Companies Act, 2013 and the SEBI Listing Regulations, there can be no assurance that these or other conflicts of interest will be resolved in a timely and efficient manner.

For further details on the business, refer chapter titled **“Our History and Certain Other Corporate Matters”** and **“Our Group Companies”** on Pages 173 and 205 respectively.

5. Our Company was operating with negative working capital for the fiscal year 2022. Our inability to meet our working capital requirement may have adverse effect on our results of operations.

Our business is working capital intensive and requires a significant amount of working capital for smooth functioning. Summary of our working capital position based on the financial statement is given below:

There was severe shortage of working capital in our Company in fiscal year 2022 and our current liabilities were funding our current assets. This was seriously affecting our business and result of operations and huge liquidity crises in the Company. The position was improved in the fiscal year 2023 and 2024 through infusion of long term funds and equity in the Company, however we cannot assure you that the same situation will not arise in future. Any such shortage of working capital will adversely affect our results of operations and the financial condition of our Company.

Pursuant to the Certificate No. BTA/JPR/220/2023 dated May 20, 2024 by Hari Dutt Purohit, Chartered Engineer.

Our actual capacities may not reach their installed capacity. Under-utilization of our manufacturing capacities, over extended periods, or significant under-utilization in the short-term, could materially and adversely impact our business, growth prospects and future financial performance on account of the constant overhead costs associated with our business. For details on our manufacturing capacities, see **“Our Business – Capacity Utilization”** on page 158-159.

7. Our Company has a negative cash flow from our operating, investing and financing activities in past three years, details of which are given below, sustained negative cash flow could impact our growth and business.

Our Company has a negative cash flow from our operating, investing and financing activities in the previous year(s) as per the Restated Financial Statements and the same has been summarized below:

(Amount in Lakhs)

Particulars	For The Year Ended March 31,		
	2024	2023	2022
Cash Flow from/ (Used in) Operating Activities	1,754.98	(338.23)	881.96
Cash Flow from/ (Used in) Investing Activities	(801.88)	(212.84)	(63.94)
Cash Flow from/ (Used in) Financing Activities	(936.53)	539.69	(819.34)

Cash Flow of a Company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. Cash flows from our Operating activities are positive since last two years as per Restated Financial Statements. However, if we are not able to generate sufficient cash flow in future, it may adversely affect our business and financial operations.

8. Our Promoter, Mr. Sheikh Naseem and Mrs. Shivani Sheikh were alleged to be involved in a criminal matter relating to abetment of suicide. Though a negative final report has been filed by the police in the court and the complaints Amit Dusad has given his acceptance to abide by the police investigation (FR), yet a final disposal order is pending from the court. If an adverse order is delivered by the court in the matter, it may lead to re-opening of investigation and may have an impact on our business and reputation.

A FIR was filed in the Shastri Nagar Police Station, Jaipur bearing FIR No. 43/2018 on 02/02/2018 by Mr. Amit Dusad accusing our promoters, Mr. Sheikh Naseem and Mrs. Shivani Sheikh and certain others for abetment of suicide (under Section 306 of Indian Penal Code, 1860) committed by his brother Late Ashok Dusad, an ex-director of our Company.

Further, a case before Rajasthan High Court Padma Dusad vs. State of Rajasthan & Ors. (CRLMP/1326/2018) was also filed by Mrs. Padma Dusad (wife of deceased) in relation to the above FIR, which was subsequently withdrawn by her and accordingly, the matter stands disposed of as on date.

The police investigated on the basis of FIR and came to conclusion that no offence was being made out against the abovementioned persons. Accordingly, the police filed a negative final report before the Additional Senior Civil Judge cum ACMM-1, Jaipur (Final Report/8126/2019). As per order dated June 01, 2018, the complainant was personally present and submitted his no-objection on the final report and also stated that he does not wish to pursue the matter further.

The matter is, currently, pending before the court of Additional Senior Civil Judge cum ACMM-6, Jaipur Metro-2 for a final disposal order on acceptance of final report. If an adverse order is delivered by the court in the matter, it may lead to re-opening of investigation and may have an impact on our business and reputation.

9. Our Company, our Promoters and our Directors other than promoters are involved in certain legal proceedings. Any adverse decision in such proceedings may render us / them liable to liabilities / penalties and may adversely affect our business and results of operations.

Our Company, our Promoters and Directors other than promoters are involved in certain legal proceedings at different levels of adjudication before various courts, tribunals and appellate authorities. In the event of adverse rulings in these proceedings or consequent levy of penalties by other statutory authorities, our Company or Directors may need to make payments or make provisions for future payments, which may increase expenses and current or contingent liabilities and also adversely affect our reputation.

In the ordinary course of business, our Company, promoters and our directors are involved in certain legal proceedings, which are pending at varying levels of adjudication at different forums. The summary of outstanding matters set out below includes details of civil proceedings, criminal proceedings, tax proceedings, statutory and regulatory actions and other material pending litigation involving our company, directors, promoters and our Group company.

According to the materiality policy, any outstanding litigation, other than criminal proceedings, statutory or regulatory actions and taxation matters, is considered material if the monetary amount of claim by or against the entity or person in any such pending matter is in excess of ₹ 5,00,000 or if an adverse outcome of any such litigation could materially and adversely affect our business, prospects, operations, financial position or reputation.

We cannot assure that any of the legal proceedings described below will be decided in favour of the company and or directors respectively. Further the amounts claimed in these proceedings have been disclosed to the extent ascertainable, excluding contingent liabilities and include amounts claimed jointly and severally. Should any new developments arise, such as change in Indian law or rulings by appellate courts or tribunals, additional provisions may need to be made by us, the promoters, directors and Group company in our respective financial statements, which may adversely affect our business, financial condition and reputation. We may incur significant expenses and management time in such legal proceedings. Decision in any such proceedings adverse to our interests may have adverse effect on our business, future financial performance and results of operations.

Decision of such proceedings which are against the interests may affect our reputation and may have material and adverse effect on our business, results of operations and financial condition.

For detailed information please refer page 299 under Chapter titled **“Outstanding Litigation and Material developments”**.

10. Our trademark is registered in the name of Sheikh Naseem, one of the promoters, and our Company has obtained license to use the trademark through a license agreement. Failure to protect intellectual property may adversely affect our reputation, goodwill and business operations.

Our company is using a trademark registered in the name of Mr. Sheikh Naseem, one of the promoters of the Company. We have obtained license to use the trademark [bearing Certificate No. 1531125] from our promoter, Sheikh Naseem, vide license agreement dated September 22, 2023. For further details on trademark, please refer to section titled **“Intellectual Property Related Approvals - Government and Statutory Approvals”** on page 310.

Any disruption to the said arrangement may lead consumers to confuse them with our Company and if they experience any negative publicity, it could have an adverse effect on our business, results of operations and financial condition. This confusion might also lead to our Company losing business to such competitors and might adversely affect our goodwill.

Maintaining the reputation of our brands, corporate name, logo and the goodwill associated with these trademarks is critical to our success. Substantial erosion in the value of our brand names could have a material adverse effect on our business, financial condition, results of operations and prospects.

11. Our cost of production is exposed to fluctuations in the prices of raw material particularly Copper scrap, Brass scrap and our Company has not entered into any agreement with respect to long-term supply for raw materials required.

The major raw material used are copper scrap, brass scrap, aluminium scrap and raw material consumption contribution is 82.38%, 96.17% and 97.07% of revenue from operations for the financial year ended March 31, 2024, 2023 and 2022 respectively based on restated financial statements. The industry in which we operate is highly fluctuating specially the prices of copper, brass and aluminium. Further, factors affecting the price, directly or indirectly are beyond the control of our Company. We procure our raw material majorly from spot market and have not entered into any long-term supply agreements with our suppliers. We may have to face the risks associated with compensating us for or passing on such an increase in the cost of raw material consumed on account of such fluctuations in prices to our customers. If we pass on the increase in the cost of raw material consumed to our customers through a corresponding increase in the price of our products in order to maintain our historical margins, we may face the risk of our products becoming unaffordable for a particular segment of demography. Upward fluctuations in the prices of raw material may thereby, affect our margins directly or indirectly and have a direct bearing on our profitability, resulting in a material adverse effect on our business, financial condition and results of operations.

12. Any inability on our part to manufacture and sell quality products that we produce and satisfy our customer needs could adversely impact our business, results of operations and financial condition.

Quality control is a vital element for any industry whether primary, secondary, tertiary or quaternary. Our major customers are from the transformer industry, panel industry, isolator industry, sanitary fitting applications, valve industry and wire industry from whom we get repetitive

orders and they have set the minimum quality standard which has to be supplied in any case. Further, we being a manufacturer have to fulfill specific product demands of customer. Therefore, any deficiency in the standards of quality we provide may cause us loss of our customer and also cause damage of goodwill. Further any failure to meet customer specifications will result in unsatisfied customer. Any rapid change in our customers expectation on account of changes in technology or introduction of new product or any other reason and failure on our part to meet their expectation could adversely affect our business, results of operations and financial condition. Any failure on our part to successfully meet customer demand or preference may negatively affect our business, results of operation and financial condition. For further details of our revenue, see **“Our Business”** on beginning on page 138.

13. We generally do business with our customers on purchase order basis and do not enter into long-term contracts with most of them.

Our business is dependent on our continuing relationships with our customers. Our Company neither has any long-term contract with any of customers nor has any marketing tie up for our products. Further, our Company has not appointed any exclusive agents for handling its operations. Any change in the buying pattern of our end users or disassociation of major customers can adversely affect the business of our Company. The loss of or interruption of work by a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

14. Our Company is dependent on third party transportation providers for transportation of raw materials and finished goods. Accordingly, any increase in transportation costs or unavailability of transportation services for our products or transportation strikes may have an adverse effect on our business.

Our Company is engaged in manufacturing of copper, aluminium and brass products and our manufacturing facilities are situated at Reengus, Rajasthan. We procure raw materials from domestic suppliers. Also, our finished goods are sold and delivered to various locations across the country and also exported to international markets. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. Most of the raw material and finished products are transported to and from our manufacturing unit by third party transportation providers. Transportation strikes could have an adverse effect on our receipt of goods and our ability to deliver our products to our customers. Non-availability of ships, barges and trucks could also adversely affect receipt of goods and the delivery of our products. Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure, or other events could impair ability to procure raw materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

15. The industry segments in which we operate being fragmented, we face competition from other players, which may affect our business operations and financial conditions.

The market for our products is competitive on account of both the organized and unorganized players. Players in this industry generally compete with each other on key attributes such as technical competence, quality of products, various products line, customer base, pricing and timely delivery. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Moreover, the unorganized sector offers their products at highly competitive prices which may not be matched by us and consequently affect our volume of sales and growth prospects. Growing competition may result in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition.

16. Non-Compliance with and changes in safety, health and environmental laws and other applicable regulations may adversely affect our business, prospects, financial condition and results of operations.

Due to the nature of our business, we expect to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. Besides, we are also subject to environmental laws and regulations, which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our business. As of now, we have not received any notices regarding any non-compliance. However, there is no assurance that such non-compliance will not occur in the future, and we may be subject to regulatory actions and penalties, which could adversely affect our business operations and financial position. The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and management time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly the Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non-compliance, other liabilities and related litigation, could adversely affect our business, prospects, financial condition and results of operations.

17. There have been certain inadvertent inaccuracies, delay and non-compliances with respect to certain regulatory filings and corporate actions taken by our Company. Consequently, we may be subject to regulatory actions and penalties for any past or future non-compliance and our business and financial condition may be adversely affected.

Our Company has encountered certain inadvertent inaccuracies, delays, and non-compliances concerning regulatory filings and corporate actions in the past. As a result, we may face regulatory actions and penalties for any historical or future non-compliance, potentially adversely impacting our business and financial condition.

Our Company has defaulted in filing of the return of Provident Fund for the months inter alia May 2015, November 2015, October 2016, December 2016, May 2017, September 2017, October 2017, December 2019, October 2020, and May 2021. As of now, our Company has not received any show cause notices or penalties from regulatory authorities concerning these inaccuracies, delays, and non-compliances. However, there is no assurance that such discrepancies will not occur in the future, and we may be subject to regulatory actions and penalties, which could adversely affect our business operations and financial position.

Other non-compliance in late filing of Forms with ROC has been rectified these errors by filing the updated forms and payment of requisite additional fees. However, there is no assurance that such discrepancies will not occur in the future, and we may be subject to regulatory actions and penalties, which could adversely affect our business operations and financial position.

18. We are required to maintain certain licenses, approvals, registrations, consents and permits in the ordinary course of business. Failure to obtain the requisite approvals result in non-compliance and therefore, affect our business operations, financial condition, result of operations and prospects.

We require a number of licenses, approvals, registrations, consents and permits to operate our business in India and globally. As we expand our operations globally and enter new markets, we may not be familiar with local regulations and may need to incur additional costs to ensure regulatory compliance. In addition, we may need to apply for approvals, including the renewal of approvals which may expire, from time to time, as and when required in the ordinary course of business. On conversion of our company to Public Limited Company, the name has been changed

to Rajputana Industries Limited from erstwhile name Rajputana Industries Private Limited vide special resolution passed by our shareholders at Extraordinary General Meeting held on April 21, 2023. Consequent to this change, we have updated the same in various approvals, license and registrations taken by our company in the ordinary course of our business however in some approvals, licenses and registration, the updated name is still pending or in process.

In the event that we are unable to obtain such approvals and permits, our business, results of operations, cash flows and financial condition could be adversely affected. If we fail to obtain, maintain or renew such licenses, approvals, registrations, and permits in a timely manner, it may result in interruption of our business operations, which could have an adverse effect on our business, financial condition and results of operations. While we have obtained key approvals required for our business, we have also applied for, and are awaiting grant/ renewal of certain key approvals.

Furthermore, government approvals and licenses are subject to numerous conditions, including adherence to emission standards and regular monitoring and compliance requirements, some of which are onerous and require us to incur substantial expenditure. We may incur substantial costs, including clean up and/or remediation costs, fines and civil or criminal sanctions, as a result of violations of or liabilities under environmental or health and safety laws, which may have a material adverse effect on our business or financial condition. We cannot assure you that approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any failure to renew the approvals that have expired or apply for, obtain and validly maintain the required licenses, approvals, registrations or permits, or any suspension or revocation of any approvals, licenses, registrations and permits that have been or may be issued to us, may materially and adversely affect our operations. For further details, please see the section entitled “**Government and Statutory Approvals**” on page 307 for more details, including such approvals for which applications are pending before relevant authorities.

19. We have certain contingent liabilities that have not been provided for in our financial statements, which if they materialise, may adversely affect our financial condition, cash flows and results of operations.

We have certain contingent liabilities that have not been provided for in our financial statements.

Details of the contingent liabilities and capital commitments of our Company for the Financial Year ended on March 31, 2024, 2023 and 2022 derived from the Restated Financial Statements are set forth below:

(₹ in Lakhs)

S. No.	Particulars	March 31, 2024	March 31, 2023	March 31, 2022
Contingent liabilities not provided for				
1.	Indirect Tax Matters	-	-	-
2.	Bank Guarantees	25.00	25.00	128.00
	Total	25.00	25.00	128.00

Our contingent liabilities may become actual liabilities and if these liabilities materialize, it could have an adverse effect on our business, financial condition and results of operations. Furthermore, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the current year or in the future.

20. Our lenders have charge over our movable and immovable properties in respect of finance availed by us and the agreements governing our indebtedness contain conditions and restrictions on our operations, additional financing and capital structure.

We have secured our lenders by creating a charge over our movable and immovable properties in

respect of loans / facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were ₹ 3,568.47 Lakhs as on July 10, 2024. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations.

Under our financing arrangements, we are required to obtain the prior, written lender consent for, among other matters, changes in our capital structure, formulate a scheme of amalgamation or reconstruction and entering into any other borrowing arrangement. Further, we are required to maintain certain financial ratios. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain the consents necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that is not waived by our lenders or is not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. For further information, see the chapter titled “**Financial Indebtedness**” on page 294.

Though these covenants are restrictive to some extent for us, however it ensures financial discipline, which would help us in the long run to improve our financial performance.

21. Our Promoters and members of the Promoter Group have provided personal guarantees to certain loan facilities availed by us, which if revoked may require alternative guarantees, repayment of amounts due or termination of the facilities.

Our Promoters and members of the Promoter Group have provided personal guarantees in relation to certain loan facilities of Rs. 6,607.89 lakhs sanctioned to us as on July 10, 2024. In the event that any of these guarantees are revoked, the lenders for such facilities may require alternate guarantees, repayment of amounts outstanding under such facilities, or may even terminate such facilities. We may not be successful in procuring alternative guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which may not be available on acceptable terms or at all and any such failure to raise additional capital could affect our operations and our financial condition.

22. Our Company has obtained unsecured loans from Directors, Promoter Group/Promoter Group Companies and Other Companies which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows.

Our Company has availed unsecured loans from Directors, Promoter Group/Promoter Group Companies and other Companies aggregating to ₹ 705.57 Lakhs as of July 10, 2024, that are repayable on demand, and which may be recalled by such lenders at any time. Our Company has paid interest ranging from 7.50% p.a. to 13.00% p.a. on these loans. Details of unsecured loans from our lenders is given in the table below:

(₹ in lakhs)

S. No.	Category of borrowing	Sanctioned amount	Rate of Interest	Tenure of Loan (In Months)	Outstanding amount as on July 10, 2024
A	From Directors				
	Sheikh Naseem	55.00	7.50%	Repayable on Demand	18.10
	Shivani Sheikh	71.37	7.50%	Repayable on Demand	50.71
	Sudhir Garg	75.00	9.00%	Repayable on Demand	75.00
B	From Promoter Group / Promoter Group Companies				

S. No.	Category of borrowing	Sanctioned amount	Rate of Interest	Tenure of Loan (In Months)	Outstanding amount as on July 10, 2024
	Shree Khatu Shyam Ji Metal Industries Private Limited	112.97	13.00%	Repayable on Demand	112.97
C	From Other Companies				
	Shree Niketan Promoters Private Limited	57.12	7.50%	Repayable on Demand	57.12
	Tata Capital Limited	400.00	10.25%	48 months	391.67
	Total (A+B+C)	771.46			705.57

If such lender seeks repayment of any such unsecured loans, our Company will need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. As a result, any such demand may materially and adversely affect our business, cash flows, financial condition, and results of operations. For further information on unsecured loans relating to our business and operations, see *“Financial Indebtedness”* on page 294.

23. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.

Modernization and technology upgradation is essential to provide better services to customers. Although we strive to keep our technology in line with the latest standards, we may be required to implement new technology or upgrade the existing technology employed by us. Further, the costs in up grading our technology could be significant as compared to the one that our competitors might have in place in terms of costs, efficiency and timely delivery of the final products.

24. Our success will depend on our ability to attract and retain our key managerial personnel, design, technical and engineering team and other key personnel.

We are dependent on the services of our executive officers and other members of our senior management team. The loss of one or more of these key employees or any other member of our senior management team could have a material adverse effect on our business. We may not be able to retain or replace these key employees and may not have adequate succession plans in place. In particular, our Company is managed by our promoter, Mr. Sheikh Naseem and Mrs. Shivani Sheikh and various other key management personnel. Any situations impinging on their ability to function or their departure from our business may adversely affect our business performance.

We benefit from the cost advantages of having the entirety of our design and engineering team in India. However, the demand for specialist design engineers has increased in India, resulting in a shortage of, and increasing costs to hire, such specialists. We face challenges to recruit and retain a sufficient number of suitably skilled personnel, particularly as we implement our growth strategy. Generally, there is significant competition for management, engineering, technical and design and other skilled personnel in the businesses in which we operate, and it may be difficult to attract and retain the skilled personnel we need. In particular, we may be unable to compete with other companies for suitably skilled personnel to the extent they are able to provide more competitive compensation and benefits. Furthermore, we may not be able to redeploy and retrain our employees to keep pace with continuing changes, evolving standards and changing customer preferences. The loss of key personnel and our inability to recruit suitable replacements may have a material adverse effect on our business, financial condition and results of operations.

These key personnel possess technical and business capabilities that would be difficult to replace. However, the loss or diminution in the services of our senior management or other key team members or our failure to maintain the necessary management and other resources to operate and grow our business could have a material adverse effect on our business, results of operations, financial condition and prospects. In addition, as our business develops and expands, our future success will depend on our ability to attract and retain highly skilled and qualified personnel, which

cannot be guaranteed.

25. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees, expand our distribution network and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

26. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

27. *We have not entered into any formal arrangement for technical support service for maintenance and smooth functioning of our equipments and machineries, which may affect our performance.*

Our manufacturing processes involve daily use of technical equipment's and machineries. They require periodic maintenance checks and technical support in the event of technical breakdown or malfunctioning. Our Company has not entered into any formal technical support service agreements with a competent third-party vendor. However, Company has an in-house team for maintenance and advancement of machinery. Our failure to reduce the downtime in as such events occur may adversely affect our productivity, business and results of operations.

28. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation and goodwill of our Company. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

29. *The average cost of acquisition of Equity Shares by our Promoters could be lower than the floor price.*

Our Promoters' average cost of acquisition of Equity Shares in our Company may be lower than the

Floor Price of the Price Band as may be decided by the Company in consultation with the Book Running Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter titled “**Summary of Issue Document**” and “**Capital Structure**” beginning on pages 23 and 79 respectively.

30. We are subject to risks associated with expansion into new geographic regions.

Currently, we are mainly selling our products in the state of Rajasthan. Expansion into new geographic regions including different states in India, subjects us to various challenges, including those relating to our lack of familiarity with the culture, legal regulations and economic conditions of these new regions, language barriers, difficulties in staffing and managing such operations and the lack of brand recognition and reputation in such regions. The risks involved in entering new geographic markets and expanding operations, may be higher than expected, and we may face significant competition in such markets. By expanding into new geographical regions, we could be subject to additional risks associated with establishing and conducting operations, including, laws and regulations, uncertainties and customer’s preferences, political and economic stability.

By expanding into new geographical regions, we may be exposed to significant liability and could lose some or all of our investment in such regions, as a result of which our business, financial condition and results of operations could be adversely affected.

31. Within the parameters as mentioned in the chapter titled ‘Objects of the Issue’ beginning on page 95, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.

We intend to use Issue Proceeds towards meeting working capital requirements, installation of Solar Penal, general corporate purposes and to meet Issue expenses. We intend to deploy the Net Issue Proceeds in FY 2024-25. Such deployment is based on certain assumptions and strategy which our Company believes to implement in near future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “**Objects of the Issue**” beginning on page 95.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled “**Objects of the Issue**” beginning on page 95, the Management of the Company will have significant flexibility in applying the proceeds received by our Company from the Issue.

However, Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However, in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Issue without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this regard.

32. There is no monitoring agency appointed by our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.

As per SEBI (ICDR) Regulations, 2018 appointment of monitoring agency is required only for Issue size above ₹ 10,000 Lakhs. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our finances. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the Designated Stock Exchange and shall also simultaneously make the material deviations/ adverse comments of the audit committee public.

33. *Our Company may not completely utilise the Net Proceeds of the Issue for the objects stated in FY 2024-25.*

our Company proposes to deploy the entire Net Proceeds towards the objects as described above during FY 2024-25. However, if the Net Proceeds are not completely utilized for the objects stated in Red Herring Prospectus in FY 2024-25 due to factors such as (i) economic and business conditions; (ii) increased competition; (iii) market conditions outside the control of our Company and its management; and (iv) other commercial considerations such as availability of alternate financial resources, the same would be utilized (in part or full) in a subsequent period as may be determined by our Company in accordance with applicable law. For further detailson the use of the Issue Proceeds, please refer chapter titled “**Objects of the Issue**” beginning on page 95.

34. *We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our capital requirements through our bank finance, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further, we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer to the chapter titled “**Objects of the Issue**” beginning on page 95.

35. *Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

36. *Any negative publicity or defect in product quality may cause the Company substantial costs which in turn could adversely affect our goodwill and our sales could be diminished.*

Like any other business our business also relies on our product quality which enables us to gain customer trust. In this scenario it is very crucial for us to always maintain positive image of the Company. Any unfavourable publicity regarding our Company, brand, or facility we provide or any other unpredicted events could affect our reputation and our results from operations. Further,

defective products may result in a claim against us for damages. We currently carry no products liability insurance with respect to our products. Although we attempt to maintain quality standards, we cannot assure that all our products would be of uniform quality, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.

37. Properties, on which we have our registered office is not owned by us. Any termination or dispute in relation to this lease/ rental agreement may have an adverse effect on our business operations and results thereof.

The properties where our registered office is situated in Jaipur is not owned by our company and the same have been taken on lease from the promoter's entity of our Company, Shera Metals and Engineers with whom we have entered into a rent agreement. For details on properties taken on lease / rent by us please refer to the heading titled "**Our Business - Properties**" beginning on page 163.

The agreements are renewable on mutually agreed terms. The rent agreements have a clause for the renewal of the same for a further period as may be mutually agreed among the parties after the expiry of the current period. In the event of the said agreements are not being renewed or agreement is terminated by either of the parties or upon expiry of the said agreement or increase in rent or any non-compliance, we may have to either vacate the registered office and re-locate to another premises or agree to pay the extra amount for using the same prices. Further, increase in rent structure will lead to increase of our expenditure which in turn will lead to decrease of revenue and increase of operational cost.

38. Outbreaks of contagious diseases, such as the outbreak of COVID-19, may have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.

Our business had been affected due to COVID-19 pandemic, and we are unable to predict its near-term or long-term impact on our business. India experienced multiple waves of COVID-19 which had impacted global supply chains and resulted in shortages of materials and components used in the manufacturing operations and an inability to meet the manufacturing targets and this impact continues till date. The COVID-19 pandemic had resulted in restrictions on travel and transportation and prolonged closures of workplaces, business and schools, with employees being asked to work from home and citizens being advised to stay at home. Consequently, there was a significant disruption in attendance at the manufacturing facilities.

There is also no assurance that there will not be further mutations of COVID-19 resulting in new variants and additional economic downturns that materially adversely affect our business, financial condition, results of operations, cash flows and prospects.

There can also be no assurance that the policies and controls for outbreak prevention and disease recurrence or any stimulus packages introduced by the GoI will be successful in preventing disease outbreaks or recurrences or that any actual or suspected outbreak of COVID-19 or other contagious disease affecting India or elsewhere will not occur. There can also be no assurance that any future outbreak of contagious diseases will not have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.

39. In addition to standard remuneration or benefits and reimbursement of expenses, some of our Promoters, Directors and key managerial personnel are interested in our Company to the extent of their shareholding, dividend entitlement and lease rent received, in our Company.

Our Promoters, Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. Further, some of our Promoters, Directors and Key Managerial Personnel may also be interested to the extent of their shareholding, dividend entitlement and lease rental in our Company. For details on interest of our Promoters in lease rental, refer “**Risk Factor 37 - Properties, on which we have our registered office is not owned by us. Any termination or dispute in relation to this lease/ rental agreement may have an adverse effect on our business operations and results thereof**” and for other information, see “**Capital Structure**”, “**Our Management**” and “**Financial Statements as Restated**” on pages 52, 79, 177 and 210 respectively.

40. We may not have sufficient insurance coverage to cover all possible losses.

Our Company has obtained insurance coverage in respect of certain risks and the details of the same are as under:

Our operations carry inherent risks of personal injury and loss of life, damage to or destruction of property, plant and machinery and damage to the environment, and are subject to various risks such as fire, theft, flood, earthquakes and terrorism. Our insured assets primarily consist of property, plant & equipment, furniture, fixtures and fittings, inventory, etc. In the past three years, there has been no instances of under insurance i.e., where our insurance cover did not adequately cover the insured value required for our operations. However, there can be no assurance that our current and future insurance will adequately cover all losses or liabilities that may arise from our operations, including, but not limited to, when the loss suffered is not easily quantifiable. While we have not had any such instance in the past three years, there can be no assurance that in the future our losses would not significantly exceed our insurance coverage or may not be recoverable through insurance and consequently our business, financial condition and results of operations could be materially and adversely affected.

41. Our business is subject to strikes, work stoppages and/or increased wage demands, as well as

other disputes without employees.

We cannot guarantee that our employees will not join labour unions in the future and as a result we may experience disruptions in our operations due to disputes or other problems with our workforce. Efforts by our employees to modify compensation and other terms of employment may also divert management's attention and increase operating expenses. The occurrence of such events could materially adversely affect our business, financial condition and results of operations.

42. Our ability to pay dividends in the future may depend upon our future revenues, profits, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see "***Dividend Policy***" on page 209.

43. Our operations may be adversely affected in case of industrial accidents at any of our manufacturing facilities.

Usage of machinery, handling of materials by labour during manufacturing process or otherwise, lifting of materials by humans, etc. may result in accidents, which could cause injury to our labour, employees, other persons on the site and could also damage our properties thereby affecting our operations. The occurrence of accidents could hamper our manufacturing process and consequently affect our profitability.

44. Our Promoters will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

After completion of the Issue, our Promoters will collectively own [●] % of the Equity Shares. As a result, our Promoters will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

45. Industry information included in this Red Herring Prospectus has been derived from publicly available industry reports and/or websites. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.

We have relied on the information from various publicly available industry reports and/or websites for purposes of inclusion of such information in this Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although the data may

be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere.

Issue Specific Risks

- 46. *Subsequent to the listing of the Equity Shares, we may be subject to surveillance measures, such as the Additional Surveillance Measures and the Graded Surveillance Measures by the Stock Exchanges in order to enhance the integrity of the market and safeguard the interest of investors.***

Subsequent to the listing of the Equity Shares, we may be subject to Additional Surveillance Measures (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchange. These measures are in place to enhance the integrity of the market and safeguard the interest of investors. The criteria for shortlisting any security trading on the Stock Exchanges for ASM is based on objective criteria, which includes market based parameters such as high low price variation, concentration of client accounts, close to close price variation, market capitalization, average daily trading volume and its change, and average delivery percentage, among others. Securities are subject to GSM when its price is not commensurate with the financial health and fundamentals of the issuer. Specific parameters for GSM include net worth, net fixed assets, price to earning ratio, market capitalization and price to book value, among others.

Factors within and beyond our control may lead to our securities being subject to GSM or ASM. In the event our Equity Shares are subject to such surveillance measures implemented by the Stock Exchange, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

- 47. *There are restrictions on daily / weekly / monthly movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.***

Once listed, we would be subject to circuit breakers imposed by designated stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

- 48. *The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.***

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

49. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- Volatility in the Indian and global capital market;
- Company's results of operations and financial performance;
- Performance of Company's competitors;
- Changes in our estimates of performance or recommendations by financial analysts;
- Significant developments in India's economic and fiscal policies; and
- Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

50. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares has been determined by Book Built Method. This price is based on numerous factors (For further information, please refer chapter titled "**Basis for Issue Price**" beginning on page 107 and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

51. *You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase*

in the Issue until the Issue receives appropriate trading permissions.

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Red Herring Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

52. QIB and Non-Institutional investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting the Bid.

Pursuant to SEBI ICDR Regulations, QIBs and Non-Institutional investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting the Bid. Retail Individual Investors can revise their Bid during the Bid Period and withdraw their Bids until Bid Closing date. While our Company is required to complete Allotment pursuant to Issue within four working days from the Bid Closing date, events affecting the Bidders decision to invest in Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, result of operations or financial condition may arise between the date of submission of the Bid and allotment. Our Company may complete the allotment of Equity shares even if such events occur, and such events limit the Bidders ability to sell the Equity Shares allotted pursuant to the Issue or cause the trading price of Equity Shares to decline on listing.

53. Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISKS FACTORS

Industry Related Risks

54. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

55. A slowdown in economic growth in India could have an adverse effect on our business, results of operations, financial condition and cash flows.

Our performance and growth are, and will be, dependent to a large extent on the health of the Indian economy and consumption spending by households. Economic growth in India is affected by

various factors including domestic consumption and savings, rate of inflation in India, balance of trade movements, and global economic uncertainty. Most of our assets and employees are located in India, and we intend to continue to develop and expand in India.

Inflation, measures to combat inflation and public speculation about possible governmental actions to combat inflation have also contributed significantly to economic uncertainty in India and heightened volatility in the Indian capital markets. Periods of higher inflation may also slow the growth rate of the Indian economy and increase some of our costs and expenses. To the extent that the demand for our products decreases or costs and expenses increase, and we are not able to pass those increases in costs and expenses on to our customers, our operating margins and operating income may be adversely affected, which could have a material adverse effect on our business, financial condition and results of operations.

Other Risks

56. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.

The regulatory and policy environment in India is evolving and subject to change. Such changes in applicable law and policy in India, including the instances described below, may adversely affect our business, financial condition, results of operation, performance and prospects in India, to the extent that we are not able to suitably respond to and comply with such changes.

For instance, in November 2016, the Government of India demonetized certain – high value denominations of currency. Trading and retail businesses in India were impacted for a limited period of time on account of such demonetization. Such businesses have subsequently needed to introduce additional point of sale instruments to improve their collection process.

The Government of India implemented a comprehensive national goods and service tax (“GST”) regime that combines taxes and levies by the central and state governments into a unified rate structure from July 01, 2017, which we believe will result in fundamental changes. However, given its recent introduction, there is no established practice regarding the implementation of, and compliance with, GST. The implementation of the new GST regime has increased the operational and compliance burden for Indian companies and has also led to various uncertainties. Any future increases and amendments to the GST regime may further affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. Further, as GST is implemented, there can be no assurance that we will not be required to comply with additional procedures and/or obtain additional approvals and licenses from the government and other regulatory bodies or that they will not impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of GST may have a material adverse effect on our business, financial condition and results of operations.

Further, the General Anti Avoidance Rules came into effect on April 1, 2017. The effect of the application of these provisions to our business in India is at present uncertain. Furthermore, the Finance Act, 2019 instituted a number of amendments to the existing direct and indirect tax regime which includes the withdrawal of long-term capital gains exemptions on equity shares, long term capital gains applicability in the hands of Foreign Institutional Investors and applicability of dividend distribution tax for certain transactions with shareholders, among others.

57. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and de-regulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

58. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which our company operates contained in the Red Herring Prospectus.*

While facts and other statistics in this Red Herring Prospectus relating to India, the Indian economy and the industry in which our company operates has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled **“Our Industry”** beginning on page 120. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

59. *Financial instability in Indian financial markets could adversely affect our Company’s results of operations and financial condition.*

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

60. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.*

The Indian securities markets are smaller than securities markets in more developed economies and the regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the more developed economies. Indian stock exchanges have in the past experienced substantial fluctuations in the

prices of listed securities. Further, the Indian stock exchanges have experienced volatility in the recent times. The Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time-to-time restricted securities from trading and limited price movements. A closure of, or trading stoppage on the EMERGE Platform of National Stock Exchange of India Limited could adversely affect the trading price of the Equity Shares.

61. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

62. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

63. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy; disrupt the transportation of goods and supplies, and costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

64. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates

and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

65. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

The Pre-IPO Proceeds shall lead to corresponding reduction in utilization from General Corporate Purposes proceeds.

- 4) In the event of under-subscription in the Employee Reservation Portion (if any), the unsubscribed portion will be available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of Rs. 200,000, subject to the maximum value of Allotment made to such Eligible Employee not exceeding Rs. 500,000. The unsubscribed portion, if any, in the Employee Reservation Portion (after allocation up to Rs. 500,000), shall be added to the Net Issue. The Employee Reservation Portion shall not exceed 5% of our post-Issue paid-up Equity Share capital. For further details, see “**Issue Structure**” beginning on page 334.*
- 5) Eligible Shera Energy Limited Shareholders Bidding in the Shera Energy Limited Shareholders Reservation Portion can also Bid in the Employee Reservation Portion if such eligible shareholders are the covered in eligible employee of issuer company. Further eligible retail shareholders can also bid in the RIB Portion, and such Bids will not be treated as multiple Bids. Further, any unsubscribed portion remaining in the Shera Energy Limited Shareholders Reservation Portion shall be added back to the Net Issue. In case of under-subscription in the Net Issue, spill-over to the extent of such under-subscription shall be permitted from the Shera Energy Limited Shareholders Reservation Portion, subject to applicable law.*
- 6) The SEBI ICDR Regulations permit the issue of securities to the public through the Book Building Process, which states that, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non Institutional Bidders and not less than 35% of the Net Issue shall be available for allocation on a proportionate basis to Retail Individual Bidders and not more than 50% of the Net Issue shall be allotted on a proportionate basis to QIBs, subject to valid Bids being received at or above the Issue Price. Accordingly, we have allocated the Net Issue i.e., not less than 35% of the Net Issue shall be available for allocation to Retail Individual Bidders and not less than 15% of the Net Issue shall be available for allocation to Non institutional bidders. For further details, see “**Issue Procedure**” beginning on page 338.*
- 7) Subject to valid bids being received at or above the Issue Price, under-subscription, if any, in any category except the QIB portion, would be allowed to be met with spill over from any other category or combination of categories at the discretion of our company, in consultation with the BRLM and the Designated Stock Exchange subject to applicable law. In the event of oversubscription, allotment shall be made on a proportionate basis, subject to valid Bids received at or above the Issue Price.*
- 8) Our company, in consultation with the BRLM, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. One third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid bids being received from domestic mutual funds at or above the price at which Equity Shares are allocated to the Anchor Investors in the issue. In the event of under subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares will be added to the Net QIB Portion. For further details, see “**Issue Procedure**” beginning on Page 338.*

For further details please refer to section titled “**Issue Information**” beginning on page 325.

DETAILS OF THE MARKET MAKING ARRANGEMENT

Our Company and the Book Running Lead Manager have entered into a Market Making agreement dated **July 18, 2024** with the following Market Maker, duly registered with National Stock Exchange of India Limited to fulfil the obligations of Market Making:

Holani Consultants Private Limited

401 – 405 & 416 – 418 4th Floor,
Soni Paris Point, Jai Singh Highway,
Bani Park, Jaipur – 302016, Rajasthan

Telephone: +91 – 141 – 2203996

E-mail ID: broking@holaniconsultants.co.in

Website: www.holaniconsultants.co.in

Contact Person: Suraj Joshi

SEBI Registration No.: INZ000299835

Market Maker Registration No.: (SME segment of NSE): 90225

Holani Consultants Private Limited, registered with EMERGE Platform of National Stock Exchange of India Limited (“**NSE EMERGE**”), will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations, 2018.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, 2018, as amended from time to time and the circulars issued by NSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2 – way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The Spread (difference between the sell and buy quote) shall not be more than 10% or as specified by the Stock Exchange. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The Prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of EMERGE Platform of NSE and SEBI from time to time.
3. The minimum depth of the quote shall be ₹ 1,00,000/-. However, the investors with holdings of value less than ₹ 1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of ₹ [●]/- per share the minimum lot size is [●] Equity Shares thus minimum depth of the quote shall be ₹ [●]/- until the same, would be revised by EMERGE Platform of NSE.
4. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the [●] Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% Equity Shares would not be taken in to consideration of computing the threshold of 25% of issue size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2–way quotes.
5. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, EMERGE Platform of NSE may intimate the same to SEBI after due verification.
6. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.

7. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Holani Consultants Private Limited is acting as the sole Market Maker.
8. On the first day of the listing, there will be pre – opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. The securities of the company will be placed in SPOS and would remain in Trade for Trade settlement for 10 days from the date of listing of Equity share on the Stock Exchange.
9. The shares of the Company will be traded in continuous trading session from the time and day the company gets listed on EMERGE Platform of NSE and market maker will remain present as per the guidelines mentioned under NSE and SEBI circulars.
10. Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to ₹ 250 crores, the applicable price bands for the first day shall be:
 - In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The following spread will be applicable on the SME Exchange Platform.

S. No.	Market Price Slab (in ₹)	Proposed Spread (in % to Sale Price)
1	Up to 50	9
2	50 to 75	8
3	75 to 100	6
4	Above 100	5

11. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force – majeure will be applicable for non – controllable reasons. The decision of the Exchange for deciding controllable and non – controllable reasons would be final.
12. The Market Maker(s) shall have the right to terminate said arrangement by giving one – month notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above – mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular

point of time. The Market Making Agreement is available for inspection at our Corporate Office from 11.00 a.m. to 5.00 p.m. on working days.

13. EMERGE Platform of NSE will have all margins which are applicable on the NSE EMERGE viz., Mark – to – Market, Value – At – Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. EMERGE Platform of NSE can impose any other margins as deemed necessary from time-to-time.
14. EMERGE Platform of NSE will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non – compliances. Penalties/ fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/ fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker(s) in case he is not present in the market (offering two – way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities/ trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

15. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory o 5% of the Issue Size)
Up to ₹ 20 Crore	25%	24%
₹ 20 crores to ₹ 50 crores	20%	19%
₹ 50 to ₹ 80 crores	15%	14%
Above ₹ 80 crores	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI/ EMERGE Platform of NSE from time to time.

All the above – mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

Justification of existing working Gap for the last three fiscal years

The working capital gap of our company was in negative for the fiscal year 2022 due to shortage of working capital in the company as short term liabilities were higher in comparison to short term current assets. The working capital gap was funded from the trade payable. Our company improved the same by availing fresh long-term borrowings in the company to the tune of Rs. 1500 Lakhs in the fiscal year 2022-2023 and repaid the trade payables.

Due to the impact of COVID-19, the company faced challenges with low profitability during the financial year ending on March 31, 2022. Despite the lower profit margins, the company's long term liabilities persisted, requiring continued repayment throughout the year.

As the company was operating on low profit margins, it affected the company's cash flows and made it difficult for them to repay the long-term liabilities through internal accruals. Thus, to repay their term liabilities commitments and avoid potential penalties from banks due to defaults, the company utilized its funds received from sale of products to repay bank borrowings rather to pay to the creditors timely. This had a negative effect on the working capital cycle of the company which resulted in negative working capital during FY 2022.

With the introduction of fresh long term funding in the company to fund the gap and availment of fresh short term borrowings from banks, the business of our company increased in the fiscal years 2022-2023 and 2023-2024. Our company was generating 90.61% of its total revenue from its holding company and promoter group company till March 31, 2023. With the intend to promote the business and availability of fresh funds in the company, our company also started making sales to outside parties in the stub period which lead to increase in the working capital gap of the company.

Basis of estimation of working capital requirement

On the basis of existing and estimated working capital requirement of our Company and assumptions for such working capital requirements, our Board pursuant to its resolution dated **July 19, 2024** has approved the projected working capital requirements for FY 2024-25 and the proposed funding of such working capital requirements as set forth below:

Justification of working capital gap for the fiscal year 2025

Our company has estimated working capital gap of Rs. 5,143 lakhs in the fiscal year ending on March 31, 2025 leading to increase in the working capital gap by 140.21% in the year ending March 31, 2025.

The reasons for such increase in the working capital projections for the subsequent fiscal year are listed below.

1. Increase in the Capacity of the Issuer Company:

During the fiscal year ending on 31st March 2024, the company has started utilizing its existing capacities by making more production. This is evident from the table below.

(in MTs)

Particulars	For the Financial year ended on March 31		
	2024	2023	2022
Total installed capacity	9,860.00	9,860.00	9,860.00

Particulars	For the Financial year ended on March 31		
	2024	2023	2022
Utilized capacity	6,593.88	5,093.54	4,802.49
Percentage Utilized	66.88%	51.66%	48.71%

The company has utilized its existing capacities more effectively in FY 2024, with utilization increasing from 51.66% in FY 2023 to 66.88% in FY 2024 and expected to reach 70% in FY 2025. This expansion requires higher holdings of costly raw materials such as copper and aluminium, priced at approximately Rs. 8,50,000 and Rs. 2,50,000 per ton respectively. Consequently, additional working capital is required to fund increased inventories of raw materials and work in progress. Further the Company's management estimates around 70% capacity utilization in the FY 2024-25. Therefore, in order to support the enhanced working, the Issuer Company has projected raw materials and work in progress inventory of Rs. 8,910.00 Lakhs in FY 2024-25 as against the inventories of raw material and work in progress of Rs. 6,503.73 Lakhs in FY 2022-23 and Rs. 8,198.71 Lakhs in FY 2023-24.

2. Increase in Inventory Levels:

The Issuer Company has increased its overall Inventory levels from Rs. 6,995.65 Lakhs in 2023 to Rs. 8,298.31 Lakhs in 2024 and the same has been projected to be increase to Rs. 9,570 Lakhs in 2025 as mentioned in the above table. The Company has increased its capacity for which additional inventories are required. Further With a view to enhancing the product portfolio, the Issuer Company is entering into the business of manufacturing of cables which shall be primarily used in the construction industry, mainly residential and submersible cables for motors. The Project shall be operational by the end of September 2024 with an annual production capacity of 13000 Kw based on the plant and machinery shortlisted by the management of the company for acquiring for this project.

For the commencement of production in this plant the company requires additional inventories of raw material and WIP, which increases the working capital requirement of the Company.

3. Increase in the sales to outside customers:

The company was up to March 31, 2023 was generating its 89.16% revenue from holding company and group company, therefore level of investment in the sundry debtors was minimal. With the shift in business model and sales to outside parties in the fiscal year 2023-2024, the company has reduced its sales to the holding and group companies to 51.75%. Further the Company has estimated to reduce the same to 40% in the fiscal year 2024-25 for which the investment in the sundry debtors will increase in accordance with acceptable credit terms in the market. The company has followed the policy of granting a credit period of 8 to 15 days to its customers. This has lead to increase in investment in receivable of the company which in turn lead to increase in working capital gap.

4. Reduction in the Trade Payable Holding Period:

Company's trade payables predominantly comprise of payables towards purchase of raw materials, work in process materials and finished goods. The trade payable days were approximately 95 days, 79 days, 85 days and 83 days of purchases for FY2020-21, 2021-22, 2022-23 and 2023-24 respectively. The days payable outstanding has been estimated at 70 days in FY 2024-25. The Issuer Company has proposed to utilize a part of the fresh issue proceeds towards working capital requirements which will lead to payment to creditors and slight reduction in the outstanding days payable. Hence, trade payables days are estimated at slightly lower levels which will enable our Company to get better terms from our vendors.

(3) Finished goods holding period are calculated from closing stock of finished goods divided by cost of sales.

(4) Trade receivables holding period are calculated from revenue from operations divided by trade receivables.

(5) Trade payables holding period are calculated from purchase divided by trade payables.

Justifications for Holding Period levels

Justifications for Holding Period level mentioned in the table above are provided below:

Particulars	Justification for Holding Levels
Inventories	<p>Raw material: Our Company procures raw material which is essential for manufacturing the product. In FY 2021-22, 2022-2023 and 2023-2024 our Company had maintained raw material inventory levels for 5 days, 7 days and 11 days respectively.</p> <p>In the current financial year, the Company maintained the holding period to 11 days. Our Company procures raw materials from different regions of India. Thus, to ensure smooth functioning of production process, avoid delays and maintain sufficient lead time for receiving fresh supplies our Company plans to maintain the holding levels to 9 days each for the FY 2024-25.</p> <p>Work in Progress: For FY 2021-22, 2022-2023 and 2023-2024 work in progress inventory level has been maintained at 65 day, 80 days and 77 days respectively of cost of production. This is the average time for the work in progress as required as company on account of the various processes undertaken to arrive at the finished products. We have projected a similar timeline for conversion of goods into final products as the entire process is streamlined. Thus, our work in progress holding levels is estimated at existing levels of 73 days of cost of production for FY 2024-25.</p> <p>Our Company, is focused on expanding its customer base, converting these customers into sales and thus create a new market for the products manufactured by the issuer. Since our production methodology is time intensive, we have longer work in progress cycles holding days. It is thus justified to hold 73 days of cost of production for FY 2024-25 for work in progress.</p> <p>Finished Goods: In the FY 2021-22, 2022-2023 and 2023-2024, our Company maintained finished goods inventory levels for 4 days, 7 days and 3 days respectively. All the products manufactured by our Company are based on orders places by the customers and the finished goods are dispatched as and when they are packed. Since we do not belong to the retail sector, there is no requirement to maintain large stock and thus, finished goods inventory levels are low. The historical data for the company</p>

Particulars	Justification for Holding Levels
	depicts a holding period of over 3 days. The company is confident of fast rotation of finished goods and hence holding period of 4 days is justified Thus, we estimate finished goods inventory days at similar levels to 4 days in FY 2024-25.
Trade Receivables	<p>The historical holding days of trade receivables (calculated as Average trade receivables divided by revenue from operations over 365 days) has been 8 days in Fiscal 2024, 1 days in 2023 and 1 days in Fiscal 2022. The issuer wants to expand its customer base. We expect to realize our receivables in the same manner as done previously despite the expected shift in our strategy of sales to grow our operations.</p> <p>Our management believes that the existing credit period for the new customers is not reasonable for our business operations and consistent with our credit policy. The credit terms of our company and prevalent trend in industry the holding level for debtors anticipated at 15 days of total revenue from operations during Fiscal 25 is justified.</p>
Trade Payables	Company's trade payables predominantly comprise of payables towards purchase of raw materials, work in process materials and finished goods. The trade payable days were approximately 79 days, 85 days and 83 days of purchases for FY 2021-22, 2022-23 and 2023-2024 respectively. The days payable outstanding has been estimated at 70 days in FY 2024-25. Our Company has proposed to utilize a part of the fresh issue proceeds towards working capital requirements which will lead to payment to creditors and slight reduction in the outstanding days payable. Hence, trade payables days are estimated at slightly lower levels which will enable our Company to get better terms from our vendors.

Our Company proposes to utilize Rs. 1,400.00 Lakhs of the Net Proceeds in the Financial Year 2024-25 towards working capital requirements. The balance portion of our working capital requirement will be fulfilled from existing bank borrowings and internal accruals / net-worth.

2. Purchase for 1000 KW On Grid Solar Power Generating System.

Our Company proposes to utilise an estimated amount of up to Rs. 450.00 lakhs from the Net Proceeds towards purchase for 1000 KW On Grid Solar Power Generating System. The issuer seeks to overcome the rising cost of energy bills by switching to commercial solar power, as its tariff rates are significantly cost-effective compared to traditional electricity. Unlike, conventional energy, solar system generates power that is 100 percent renewable, clean, and safe for the environment. Solar energy systems only need a little upkeep There is no wear and tear because the system doesn't have moving parts. As a result, the issuer will spend very little on maintenance or upkeep and repairs after installing the solar system. With, renewable energy from commercial solar power, the issuer won't face power interruption. The commercial solar power system is independent of the changing weather. The issuer intends saving each day by utilizing solar power while protecting itself from rising energy expenses also.

A detailed breakup of estimated cost which are proposed to be funded from the Net Issue Proceeds is set forth below:

S. No.	Particulars	Number of Quantity	Quotation Amount (Amount in Lakhs)	Quotation Details
1.	1000 KW On Grid Solar Power Generating System. (Mono Perc Solar Module -545 Wp)	1 Nos	450.00	Quotation Dated January 18, 2024, from Insolation Energy Ltd.
Total			450.00	

No second-hand or used equipment is proposed to be purchased out of the Net Proceeds.

3. General Corporate Purposes

Further we confirm that the loans availed by us from our Promoters, Directors and any other body corporates shall continue as per their schedule till the completion of the Objects of the Issue.

BASIS FOR ISSUE PRICE

The Issue Price will be determined by our Company in consultation with the Book Running Lead Manager on the basis of assessment of market demand for the Equity Shares offered in the Issue through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹ 10/- each and the Issue Price is [●] times the face value at the lower end of the Price Band and [●] times the face value at the higher end of the Price Band.

The financial data presented in this section are based on our Company's Restated Financial Statements. Investors should also refer to the sections titled "**Risk Factors**", "**Our Business**", "**Financial Statements as Restated**" and "**Management's Discussion and Analysis of Financial Position and Results of Operations**" on pages 31, 138, 210 and 274 respectively, to get a more informed view before making the investment decision.

QUALITATIVE FACTORS

Some of the qualitative factors which form the basis for computing the Issue Price are:

- Experienced senior management team and qualified workforce
- Long standing relationships with existing clientele
- Focus on Quality
- Established Manufacturing facility
- Innovative Ideas
- Industry Knowledge and Expertise

For further details, see "**Our Business – Our Competitive Strength**" on page 142.

QUANTITATIVE FACTORS

Some of the information presented in this section relating to our Company is derived from the Restated Financial Information. For details, see the chapter titled "**Financial Statements as Restated**" beginning on page 210.

Some of the quantitative factors which may form the basis for calculating the Issue Price are as follows:

I. Basic and Diluted Earnings per share ("EPS") as per the Restated Financial Information.

Financial Year / Period	Basic EPS (₹)	Diluted EPS (₹)	Weights
March 31, 2024	3.34	3.34	3
March 31, 2023	2.19	2.19	2
March 31, 2022	1.87	1.87	1
Weighted Average EPS		2.74	

Notes:

1. *Basic and diluted earnings/ (loss) per equity share: Basic and diluted earnings/ (loss) per equity share are computed in accordance with Indian Accounting Standard 33 notified under the Companies (Indian Accounting Standards) Rules of 2015 (as amended).*
2. *Basic Earnings per share = Net profit after tax excluding exceptional items before other comprehensive income attributable to equity shareholders for the year/Weighted average number of equity shares outstanding during the year.*
3. *Diluted Earnings per share = Net profit after tax excluding exceptional items before other comprehensive income attributable to equity shareholders for the year / Weighted average number of diluted equity shares outstanding during the year.*

4. The weighted average basic and diluted EPS is a product of basic and diluted EPS and respective assigned weight, dividing the resultant by total aggregate weight. i.e. (EPS x Weight) for each year/Total of weights.
5. Weighted Average Number of Equity Shares is the number of equity shares outstanding at the beginning of the year adjusted by the number of equity shares issued during the year multiplied by the time weighting factor.
6. The figures disclosed above are based on the Restated Financial Statements of our Company.

II. Price/Earning (“P/E”) ratio in relation to Price Band of ₹ [●]/- to ₹ [●]/- per Equity Share:

Particulars	P/E at Floor Price (Number of times)	P/E at Cap Price (Number of times)
P/E based on Basic & Diluted EPS for FY 2023-24	[●]	[●]
P/E based on weighted average Basic & Diluted EPS	[●]	[●]

Industry Peer Group P/E ratio

Based on the peer group, relevant information (excluding our Company) is given below in this section:

Particulars	P/E Ratio
Highest	62.14
Lowest	40.20
Industry Composite	51.17

Notes:

- (1) The industry high and low has been considered from the industry peer set provided later in this chapter. The Industry Composite has been calculated as the arithmetic average P/E of the industry peer set disclosed in this section. For further details, see “Comparison of Accounting Ratios with listed industry peers” on page 109.
- (2) The industry P/E ratio mentioned above is as computed based on closing price the closing market price of equity shares on Stock exchange (National Stock Exchange of India Limited) as on July 11, 2024 divided by diluted EPS for the financial year ended March 31, 2024.

III. Return on Net Worth (“RoNW”)

Financial Year / Period	RoNW (%)	Weight
March 31, 2024	15.74%	3
March 31, 2023	11.29%	2
March 31, 2022	15.40%	1
Weighted Average		14.20%

Notes:

- (1) Return on Net Worth (%) = Net Profit/(Loss) after tax before other comprehensive income (as restated) divided by net worth at the end of the year.
- (2) Net worth has been computed as a sum of paid-up share capital and other equity excluding capital reserve on amalgamation.
- (3) Weighted average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the year adjusted by the number of Equity Shares issued during the period multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.
- (4) The Weighted Average Return on Net Worth is a product of Return on Net Worth and respective assigned weight, dividing the resultant by total aggregate weight.

IV. Net Asset Value per Equity Share (Face Value of ₹ 10/- each)

Net Asset Value per Equity Share	NAV derived from Restated Financial Statement (₹)
Net Asset Value per Equity Share as on March 31, 2024	21.25
Net Asset Value per Equity Share after the Issue – At Cap Price	[●]
Net Asset Value per Equity Share after the Issue – At Floor Price	[●]
Issue Price per Equity Share	[●]

Notes:

- (1) Net Asset Value per Equity Share = Net worth at the end of the respective year by the weighted average number of equity shares outstanding as at the end of respective year.
- (2) Net worth has been computed as a sum of paid-up share capital and other equity.
- (3) Issue Price per Equity Share will be determined on conclusion of the Book Building Process.

V. Comparison of Accounting Ratios with Listed Industry Peers

Following is the comparison with our peer companies listed in India:

Name of the Company	Face value (₹ per share)	Total Revenue from Operations for financial year 2024 (₹ in Lakhs)	EPS for financial year 2024 (₹)		NAV per equity share	P/E (Based on Diluted EPS)**	RONW (%)
			Basic	Diluted

ANNEXURE A

STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND THE SHAREHOLDERS OF THE COMPANY, ITS MATERIAL SUBSIDIARIES UNDER THE DIRECT AND INDIRECT TAX LAWS IN INDIA.

I. SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY UNDER DIRECT TAXATION

Outlined below are the special tax benefits available to Rajputana Industries Limited (the "Company"), its Shareholders under the Income-tax Act, 1961 (the "Act") as amended by the Finance Act, 2023 applicable for the Financial Year 2023-24 relevant to the Assessment Year 2024-25.

- **Lower corporate tax rate under section 115BAA**

Section 115BAA has been inserted in the Act w.e.f. FY 2019-20. It gives an option to domestic company to be governed by this section from a particular assessment year. If a company opts for section 115BAA of the Act, the company can pay corporate tax at a reduced rate of 25.168% (22% plus surcharge of 10% and education cess of 4%). However once opted for reduced rate of taxation under the said section, it cannot be subsequently withdrawn.

Section 115BAA further provides that domestic companies availing the option will not be required to pay Minimum Alternate Tax (MAT) on their 'book profits' under section 115JB of the Act. However, such a company will no longer be eligible to avail any specified exemptions / incentives under the Act and will also need to comply with the other conditions specified in section 115BAA. Also, if a company opts for section 115BAA, the tax credit (under section 115JAA), if any, which it is entitled to on account of MAT paid in earlier years, will no longer be available.

Further, it shall not be allowed to claim set-off of any brought forward losses arising to it on account of additional depreciation and other specified incentives.

The Company has already evaluated and opted for the lower corporate tax rate of 25.168% (prescribed under section 115BAA of the Act) with effect from AY 2020-21.

Special direct tax benefits available to the Shareholders

GLOBAL ECONOMIC OVERVIEW

GLOBAL PROSPECTS

Contributions to global growth

The global economy remains in a precarious state amid the protracted effects of the overlapping negative shocks of the pandemic, the Russian Federation’s invasion of Ukraine, and the sharp tightening of monetary policy to contain high inflation. The resilience that global economic activity exhibited earlier this year is expected to fade. Growth in several major economies was stronger than envisaged at the beginning of the year, with faster-than-expected economic reopening in China and resilient consumption in the United States. Nonetheless, for 2023 as a whole, global activity is projected to slow, with a pronounced deceleration in advanced economies and a sizable pickup in China.

Inflation pressures persist, and the drag on growth from the ongoing monetary tightening to restore price stability is expected to peak in 2023 in many major economies. Recent banking sector stress will further tighten credit conditions. This will result in a substantial growth deceleration in the second half of this year. This slowdown will compound a period of already-subdued growth—over the first half of the 2020s (2020-2024), growth in EMDEs is expected to average just 3.4 percent, one of the weakest half-decades of the past 30 years. This slowdown reflects both cyclical dynamics and the current trend of declining global potential output growth.

Growth in EMDEs

Global financial conditions have tightened as a result of policy rate hikes and, to a lesser extent, recent bouts of financial instability. Many banks experienced substantial unrealized losses due to the sharp rise in policy interest rates. Concerns about the viability of balance sheets of some banks led to depositor flight and market volatility in the United States and Europe earlier in the year, which were stemmed by a swift and extensive policy response. Financial markets remain highly sensitive to evolving expectations

Contributions to potential growth

about the future path of interest rates of major central banks. Spillovers from banking turmoil in advanced economies to EMDEs have so far been limited. However, countries with more pronounced macroeconomic policy vulnerabilities, as reflected by lower credit ratings, have experienced slower growth and greater financial stress, including large currency depreciations and a sharp widening of sovereign spreads. Projections for 2023 growth in these economies have fallen by more than half over the past year.

Inflation pressures persist. Although global headline inflation has been decelerating as a result of base effects, abating supply chain pressures, and falling commodity prices, core inflation in many countries remains elevated, and inflation is above target in almost all inflation-targeting economies. Inflation is expected to continue to be above its pre-pandemic level beyond 2024 (figure 1.1.E). That said, inflation expectations in most inflation targeting countries have so far not undergone a major shift and appear to remain anchored.

EMDE growth in 2023, by credit rating

Energy prices have eased considerably since their peak in 2022 on account of weaker global growth prospects and a warmer-than-expected Northern winter, which reduced natural gas and electricity consumption. Metal prices increased in early 2023, reflecting signs of a stronger-than anticipated recovery in China, but subsequently retraced those gains. Agricultural prices have been easing on the back of good production prospects for most crops.

In all, global growth is forecast to slow from 3.1 percent in 2022 to 2.1 percent in 2023, before edging up to 2.4 percent in 2024. Relative to the January projections, this is 0.4 percentage point stronger in 2023 and 0.3 percentage point weaker in 2024. Greater-than-expected resilience of major economies at the end of 2022 and early in 2023 led to the overall upgrade to growth in 2023.

GLOBAL RISK AND POLICY CHALLENGES

Global inflation is projected to gradually edge down as growth decelerates, labor demand in many economies softens, and commodity prices remain stable. The slow pace of improvement means that core inflation is expected to remain above central bank targets in many countries throughout 2024.

Risks to the outlook remain tilted to the downside. Recent advanced-economy bank turmoil highlights the possibility of more disorderly failures, which could lead to systemic banking crises and protracted economic downturns, with spillovers to sovereigns and across borders. These failures could be triggered by mounting concerns about balance sheet quality, continued losses in the heavily leveraged commercial real estate sector, or by the ongoing decline in house prices in many countries.

Global growth under different scenarios

In a scenario where banking stress results in a severe credit crunch and broader financial stress in advanced economies, global growth in 2024 would only be 1.3 percent, about half the pace in the baseline forecast. In another scenario where

financial stress propagates globally to a far greater degree, the world economy would fall into recession in 2024, as global growth of only 0.3 percent would imply a contraction in global per capita GDP.

Global potential growth under reform scenarios

Many of the current challenges reflect underlying longer-run trends. Potential growth in EMDEs has been on a decades-long declining path because of slowing growth rates of labor force, investment, and productivity. The slowdown in these fundamental factors has been exacerbated by the overlapping shocks of the pandemic, Russia's invasion of Ukraine, and the sharp tightening of global monetary policy in response to high inflation. Reversing the decline in potential growth will require decisive structural reforms. These include measures to improve investment conditions, develop human capital and infrastructure, increase participation in the formal labor force, foster productivity growth in services, and promote international trade. In particular, fostering investment in green energy and climate resilience can ensure that growth is both robust and sustainable.

GLOBAL TRADE

Global goods trade growth slowed in the first half of 2023 in tandem with weakening global industrial production. Services trade, by contrast, continued to strengthen following the easing of pandemic-induced mobility restrictions. International tourist arrivals are expected to approach 95 percent of 2019 levels in 2023, an increase from 63 percent in 2022 (UNWTO 2023). Pressures on global supply chains have abated as goods demand has weakened and global shipping conditions have improved. The global supply chain pressures index and suppliers' delivery times reached their lowest levels in almost four years in the first half of 2023 and are expected to remain low.

During the pandemic, trade growth was supported by a shift in the composition of demand toward tradable goods and away from services, which are less trade-intensive. The gradual rotation of demand back to its pre-pandemic composition is now slowing trade growth- as is the fact that the recovery in China is expected to be predominantly driven by services, which will limit positive spillovers to its trading partners through demand for goods and commodities. The growing number of restrictive trade measures reflects a rising degree of geopolitical tensions and attempts by some major economies to follow more inward-looking policies. In the longer term, this will likely reshape global supply chains and increase trade costs (EBRD 2023; Góes and Bekkers 2022).

Together, these factors are expected to further reduce the responsiveness of global trade to changes in output—responsiveness that had already declined in the 2010s relative to previous decades (figure 1.3.C; Kose and Ohnsorge 2023a). Against this backdrop, global trade growth is forecast to slow from 6 percent in 2022 to 1.7 percent in 2023. As global consumption returns to its pre-pandemic mix between goods and services, trade is expected to recover to 2.8 percent in 2024, only slightly stronger than GDP growth. The trade outlook is subject to various downside risks, including weaker-than-expected global demand, tighter global financial conditions,

worsening trade tensions between major economies, mounting geopolitical uncertainty, and a further rise in protectionist measures (Aiyar et al. 2023; Metivier et al. 2023).

GLOBAL INFLATION

Inflation remains above target in almost all inflation-targeting economies. Median headline global inflation stood at 7.2 percent year-on-year in April, down from a peak of 9.4 percent in July 2022. This deceleration largely reflects favorable base effects from commodity prices falling below their 2022 peaks, along with abating supply chain pressures. Moderating energy prices help explain global inflation

being somewhat softer in the first quarter of 2023 than previously anticipated. However, recent core inflation measures suggest the disinflation that started last year has made only halting progress. Across EMDEs, three-month median core inflation has decelerated somewhat in recent months, while it has picked up in advanced economies. Amid these developments, global inflation is envisaged to remain further above its 2015-19 average than was expected in January, and for a longer period.

With supply chain pressures easing and energy prices

declining, excess demand appears to be a key driver of continuing high inflation in advanced economies, though lingering impairments to supply capacity may also still play a role (Bernanke and Blanchard 2023). In Europe, the role of energy prices is particularly important—the pass-through of energy costs into broader prices may be adding to inflation persistence, which could be further exacerbated by the sunset of fiscal programs that have attenuated price spikes for end-users (Pill 2023). The absence of economic slack may also be increasing the ability of firms and workers to exercise pricing power, such that inflation has become more responsive to economic activity (Borio et al. 2023; Gagnon and Sarsenba yev 2022)

GLOBAL FINANCIAL DEVELOPMENTS

Advanced-economy banks started the year with unrealized losses on bond portfolios, which increased as interest rates rose. This, combined with shortcomings in risk management, contributed to the failure of several regional banks in the United States. In Europe, Credit Suisse came under intense market pressure in March and was subject to an emergency takeover. The initial emergence of banking stress drove a surge in market volatility, including the sharpest five-day drop in two-year U.S. yields in more than two decades and a large decline in bank equity prices. To bolster market confidence and limit contagion to the broader financial system, authorities have responded with emergency liquidity facilities. The U.S. authorities also introduced an expanded deposit guarantee for the banks that failed in March. Central banks have nonetheless reaffirmed intentions to maintain, or increase, the tightness of monetary policy until inflation shows a clear trend toward target. Even with continued signs of banking stress, broader risk appetite in advanced-economy financial markets has been notably resilient. High-yield corporate risk spreads have mostly stayed below their post-2010 average, despite bank lending standards reaching their most restrictive levels since the global financial crisis.

Spillovers from advanced-economy banking stress have so far been limited in most EMDEs, but have exhibited a similar divergence. Market perceptions of the creditworthiness of investment grade EMDEs (as measured by credit-default swap premia) were little affected in March, after the first bank failures in advanced economies; in contrast, credit default swap spreads for non-investment grade sovereign borrowers widened notably.

RECENT DEVELOPMENTS AND OUTLOOK

Advanced-economy growth is projected to slow to an annual average of 0.7 percent in 2023. This largely reflects the continued effect of considerable central bank policy rate hikes since early 2022. More restrictive credit conditions due to banking sector stress in advanced economies should slow domestic demand further in 2023. Past increases in energy prices and the expected softening in labor markets are also projected to weigh on activity. Growth is expected to accelerate modestly to 1.2 percent in 2024 due to a pickup in the euro area.

Growth in EMDEs is projected to edge up to 4 percent in 2023, which almost entirely reflects the rebound in China. Excluding China, EMDE growth is set to decline to 2.9 percent this year, from 4.1 percent last year, due to the drag from high inflation and the associated monetary tightening—both domestically and via monetary policy spillovers from advanced economies—as well as from slowing external demand. From a regional perspective, growth is set to slow in all regions except EAP and ECA (box 1.1). Growth in EMDEs excluding China is expected to pick up modestly to 3.4 percent in 2024, as

the effects of monetary tightening diminish and several larger EMDEs emerge from domestic strains, including natural disasters, power shortages, and political turbulence.

INDIAN ECONOMIC OVERVIEW

INTRODUCTION

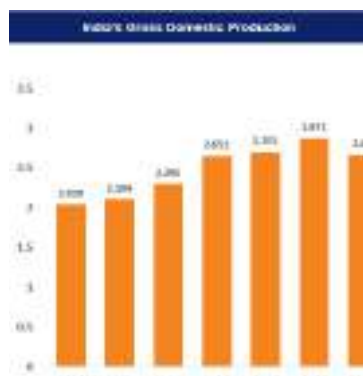

Strong economic growth in the first quarter of FY 2022-23 helped India overcome the UK to become the fifth-largest economy after it recovered from repeated waves of COVID-19 pandemic shock. Real GDP in the first quarter of 2022–23 is currently about 4% higher than its corresponding 2019-20, indicating a strong start for India's recovery from the pandemic. Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022–2023. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers, and with the revival in monsoon and the Kharif sowing, agriculture is also picking up momentum. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand over the period of April-September 2022. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

MARKET SIZE

India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 232.15 trillion (US\$ 3.12 trillion) in FY22. With more than 100 unicorns valued at US\$ 332.7 billion, India has the third-largest unicorn base in the world. The government is also focusing on renewable sources to generate energy and is planning to achieve 40% of its energy from non-fossil sources by 2030.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030. India's current account deficit (CAD), primarily driven by an increase in the trade deficit, stood at 2.1% of GDP in the first quarter of FY 2022-23.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise

exports may waver as several of India's trade partners witness an economic slowdown. According to Mr. Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

RECENT DEVELOPMENTS

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritise lowering inequality while also putting growth-oriented policies into place to boost the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- As of September 21, 2022, India's foreign exchange reserves stood at US\$ 524,520 million.
- The private equity-venture capital (PE-VC) sector investments stood at US\$ 2 billion in September 2022.
- Merchandise exports in September 2022 stood at US\$ 32.62 billion.
- PMI Services remained comfortably in the expansionary zone at 56.7 during April-September 2022
- In September 2022, the gross Goods and Services Tax (GST) revenue collection stood at Rs. 147,686 crore (US\$ 17.92 billion).
- Between April 2000-June 2022, cumulative FDI equity inflows to India stood at US\$ 604,996 million.
- In August 2022, the overall IIP (Index of Industrial Production) stood at 131.3. The Indices of Industrial Production for the mining, manufacturing and electricity sectors stood at 99.6, 131.0 and 191.3, respectively, in August 2022.
- According to data released by the Ministry of Statistics & Programme Implementation (MOSPI), India's Consumer Price Index (CPI) based retail inflation reached 7.41% in September 2022.
- In FY 2022-23, (until October 28, 2022), Foreign Portfolio Investment (FPI) outflows stood at Rs. 58,762 crore (US\$ 7.13 billion).
- The wheat procurement in Rabi 2021-22 and the anticipated paddy purchase in Kharif 2021-22 would include 1208 lakh (120.8 million) metric tonnes of wheat and paddy from 163 lakh (16.7 million) farmers, as well as a direct payment of MSP value of Rs. 2.37 lakh crore (US\$ 31.74 billion) to their accounts.

GOVERNMENT INITIATIVES

Over the years, the Indian government has introduced many initiatives to strengthen the nation's economy. The Indian government has been effective in developing policies and programmes that are not only beneficial for citizens to improve their financial stability but also for the overall growth of the economy. Over recent decades, India's rapid economic growth has led to a substantial increase in its demand for exports. Besides this, a number of the government's flagship programmes, including Make in India, Start-up India, Digital India, the Smart City Mission, and the Atal Mission for Rejuvenation and Urban Transformation, are aimed at creating immense opportunities in India. In this regard, some of the initiatives taken by the government to improve the economic condition of the country are mentioned below:

- Home & Cooperation Minister Mr. Amit Shah, laid the foundation stone and performed Bhoomi Pujan of Shri Tanot Mandir Complex Project under Border Tourism Development Programme in Jaisalmer in September 2022.
- In August 2022, Mr. Narendra Singh Tomar, Minister of Agriculture and Farmers Welfare inaugurated four new facilities at the Central Arid Zone Research Institute (CAZRI), which has been rendering excellent services for more than 60 years under the Indian Council of Agricultural Research (ICAR).
- In August 2022, a Special Food Processing Fund of Rs. 2,000 crore (US\$ 242.72 million) was set up

- with National Bank for Agriculture and Rural Development (NABARD) to provide affordable credit for investments in setting up Mega Food Parks (MFP) as well as processing units in the MFPs.
- In July 2022, Deendayal Port Authority (DPA) announced plans to develop two Mega Cargo Handling Terminals on a Build-Operate-Transfer (BOT) basis under Public-Private Partnership (PPP) Mode at an estimated cost of Rs. 5,963 crore (US\$ 747.64 million).
 - In July 2022, the Union Cabinet chaired by the Prime Minister Mr. Narendra Modi, approved the signing of the Memorandum of Understanding (MoU) between India & Maldives. This MoU will provide a platform to tap the benefits of information technology for court digitization and can be a potential growth area for the IT companies and start-ups in both the countries.
 - India and Namibia entered into a Memorandum of Understanding (MoU) on wildlife conservation and sustainable biodiversity utilization on July 20, 2022, for establishing the cheetah into the historical range in India.
 - In July 2022, the Reserve Bank of India (RBI) approved international trade settlements in Indian rupees (INR) in order to promote the growth of global trade with emphasis on exports from India and to support the increasing interest of the global trading community.
 - In June 2022, Prime Minister Mr. Narendra Modi inaugurated and laid the foundation stone of development projects worth Rs. 21,000 crore (US\$ 2.63 billion) at Gujarat Gaurav Abhiyan at Vadodara.
 - Mr. Rajnath Singh, Minister of Defence, launched 75 newly-developed Artificial Intelligence (AI) products/technologies during the first-ever 'AI in Defence' (AIDef) symposium and exhibition organized by the Ministry of Defence in New Delhi on 11 July 2022.
 - In June 2022:
 - Prime Minister Mr. Narendra Modi, laid the foundation stone of 1,406 projects worth more than Rs. 80,000 crore (US\$ 10.01 billion) at the ground breaking ceremony of the UP Investors Summit in Lucknow.
 - The Projects encompass diverse sectors like Agriculture and Allied industries, IT and Electronics, MSME, Manufacturing, Renewable Energy, Pharma, Tourism, Defence & Aerospace, Handloom & Textiles.
 - The Indian Institute of Spices Research (IISR) under the Indian Council for Agricultural Research (ICAR) inked a Memorandum of Understanding (MoU) with Lysterra LLC, a Russia-based company for the commercialization of biocapsule, an encapsulation technology for bio-fertilization on 30 June, 2022.
 - As of April 2022, India signed 13 Free Trade Agreements (FTAs) with its trading partners including major trade agreements like the India-UAE Comprehensive Partnership Agreement (CEPA) and the India-Australia Economic Cooperation and Trade Agreement (IndAus ECTA).
 - The Union Budget of 2022-23 was presented on February 1, 2022, by the Minister for Finance & Corporate Affairs, Ms. Nirmala Sitharaman. The budget had four priorities PM GatiShakti, Inclusive Development, Productivity Enhancement and Investment, and Financing of Investments. In the Union Budget 2022-23, effective capital expenditure is expected to increase by 27% at Rs. 10.68 lakh crore (US\$ 142.93 billion) to boost the economy. This will be 4.1% of the total Gross Domestic Production (GDP).
 - Under PM GatiShakti Master Plan, the National Highway Network will develop 25,000 km of new highways network, which will be worth Rs. 20,000 crore (US\$ 2.67 billion). In 2022-23. Increased government expenditure is expected to attract private investments, with a production-linked incentive scheme providing excellent opportunities. Consistently proactive, graded, and measured policy support is anticipated to boost the Indian economy.
 - In February 2022, Minister for Finance and Corporate Affairs Ms. Nirmala Sitharaman said that productivity linked incentive (PLI) schemes would be extended to 14 sectors to achieve the mission of AtmaNirbhar Bharat and create 60 lakh jobs with an additional production capacity of Rs. 30 lakh crore (US\$ 401.49 billion) in the next five years.
 - In the Union Budget of 2022-23, the government announced funding for the production linked incentive (PLI) scheme for domestic solar cells and module manufacturing of Rs. 24,000 crore (US\$ 3.21 billion).

- In the Union Budget of 2022-23, the government announced a production linked incentive (PLI) scheme for Bulk Drugs which was an investment of Rs. 2500 crore (US\$ 334.60 million).
- In the Union Budget of 2022, Minister for Finance & Corporate Affairs Ms. Nirmala Sitharaman announced that a scheme for design-led manufacturing in 5G would be launched as part of the PLI scheme.
- In September 2021, Union Cabinet approved major reforms in the telecom sector, which are expected to boost employment, growth, competition, and consumer interests. Key reforms include rationalization of adjusted gross revenue, rationalization of bank guarantees (BGs), and encouragement of spectrum sharing.
- In the Union Budget of 2022-23, the government has allocated Rs. 44,720 crore (US\$ 5.98 billion) to Bharat Sanchar Nigam Limited (BSNL) for capital investments in the 4G spectrum.
- Minister for Finance & Corporate Affairs Ms. Nirmala Sitharaman allocated Rs. 650 crore (US\$ 86.69 million) for the Deep Ocean mission that seeks to explore vast marine living and non-living resources. Department of Space (DoS) has got Rs. 13,700 crore (US\$ 1.83 billion) in 2022-23 for several key space missions like Gaganyaan, Chandrayaan-3, and Aditya L-1 (sun).
- In May 2021, the government approved the production linked incentive (PLI) scheme for manufacturing advanced chemistry cell (ACC) batteries at an estimated outlay of Rs. 18,100 crore (US\$ 2.44 billion); this move is expected to attract domestic and foreign investments worth Rs. 45,000 crore (US\$ 6.07 billion).
- Minister for Finance & Corporate Affairs Ms Nirmala Sitharaman announced in the Union Budget of 2022-23 that the Reserve Bank of India (RBI) would issue Digital Rupee using blockchain and other technologies.
- In the Union Budget of 2022-23, Railway got an investment of Rs. 2.38 lakh crore (US\$ 31.88 billion) and over 400 new high-speed trains were announced. The concept of "One Station, One Product" was also introduced.
- To boost competitiveness, Budget 2022-23 has announced reforming the 16-year-old Special Economic Zone (SEZ) act.
- In June 2021, the RBI (Reserve Bank of India) announced that the investment limit for FPI (foreign portfolio investors) in the State Development Loans (SDLs) and government securities (G-secs) would persist unaffected at 2% and 6%, respectively, in FY22.
- In November 2020, the Government of India announced Rs. 2.65 lakh crore (US\$ 36 billion) stimulus package to generate job opportunities and provide liquidity support to various sectors such as tourism, aviation, construction, and housing. Also, India's cabinet approved the production-linked incentives (PLI) scheme to provide ~Rs. 2 trillion (US\$ 27 billion) over five years to create jobs and boost production in the country.
- Numerous foreign companies are setting up their facilities in India on account of various Government initiatives like Make in India and Digital India. Prime Minister of India Mr. Narendra Modi launched the Make in India initiative with an aim to boost the country's manufacturing sector and increase the purchasing power of an average Indian consumer, which would further drive demand and spur development, thus benefiting investors. The Government of India, under its Make in India initiative, is trying to boost the contribution made by the manufacturing sector with an aim to take it to 25% of the GDP from the current 17%. Besides, the government has also come up with the Digital India initiative, which focuses on three core components: the creation of digital infrastructure, delivering services digitally, and increasing digital literacy.
- On January 29, 2022, the National Asset Reconstruction Company Ltd (NARCL) will acquire bad loans worth up to Rs. 50,000 crore (US\$ 6.69 billion) about 15 accounts by March 31, 2022. India Debt Resolution Co. Ltd (IDRCL) will control the resolution process. This will clean up India's financial system and help fuel liquidity and boost the Indian economy.
- National Bank for Financing Infrastructure and Development (NaBFID) is a bank that will provide non-recourse infrastructure financing and is expected to support projects from the first quarter of FY2022-23; it is expected to raise Rs. 4 lakh crore (US\$ 53.58 billion) in the next three years.
- By November 1, 2021, India and the United Kingdom hope to begin negotiations on a free trade agreement. The proposed FTA between these two countries is likely to unlock business

opportunities and generate jobs. Both sides have renewed their commitment to boost trade in a manner that benefits all.

- In August 2021, Prime Minister Mr. Narendra Modi announced an initiative to start a national mission to reach the US\$ 400 billion merchandise export target by FY22.
- In August 2021, Prime Minister Mr. Narendra Modi launched a digital payment solution, e-RUPI, a contactless and cashless instrument for digital payments.
- In April 2021, Dr. Ahmed Abdul Rahman AlBanna, Ambassador of the UAE to India and Founding Patron of IFIICC, stated that trilateral trade between India, the UAE and Israel is expected to reach US\$ 110 billion by 2030.
- India is expected to attract investment of around US\$ 100 billion in developing the oil and gas infrastructure during 2019-23.
- The Government of India is expected to increase public health spending to 2.5% of the GDP by 2025.

ROAD AHEAD

In the second quarter of FY 2022-23, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2022. India's comparatively strong position in the external sector reflects the country's generally positive outlook for economic growth and rising employment rates. India ranked fifth in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in FY 2022–23 (until August 2022), stood 46.8% higher than the same period last year. The ratio of revenue expenditure to capital outlay decreased from 6.4 in the previous year to 4.5 in the current year, signalling a clear change in favour of higher-quality spending. Stronger revenue generation as a result of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

Despite the continued global slowdown, India's exports climbed at the second highest rate this quarter. With a reduction in port congestion, supply networks are being restored. The CPI-C and WPI inflation reduction from April 2022 already reflects the impact. In August 2022, CPI-C inflation was 7.0%, down from 7.8% in April 2022. Similarly, WPI inflation has decreased from 15.4% in April 2022 to 12.4% in August 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

NON-FERROUS METALS INDUSTRY

GLOBAL SCENARIO – COPPER

The world Copper Mine production from April, 2022 to March, 2023 was about 22,052 thousand metric tonnes (TMT). The share of India in the world production was 24.77 TMT i.e. 0.11% during April, 2022 to March, 2023.

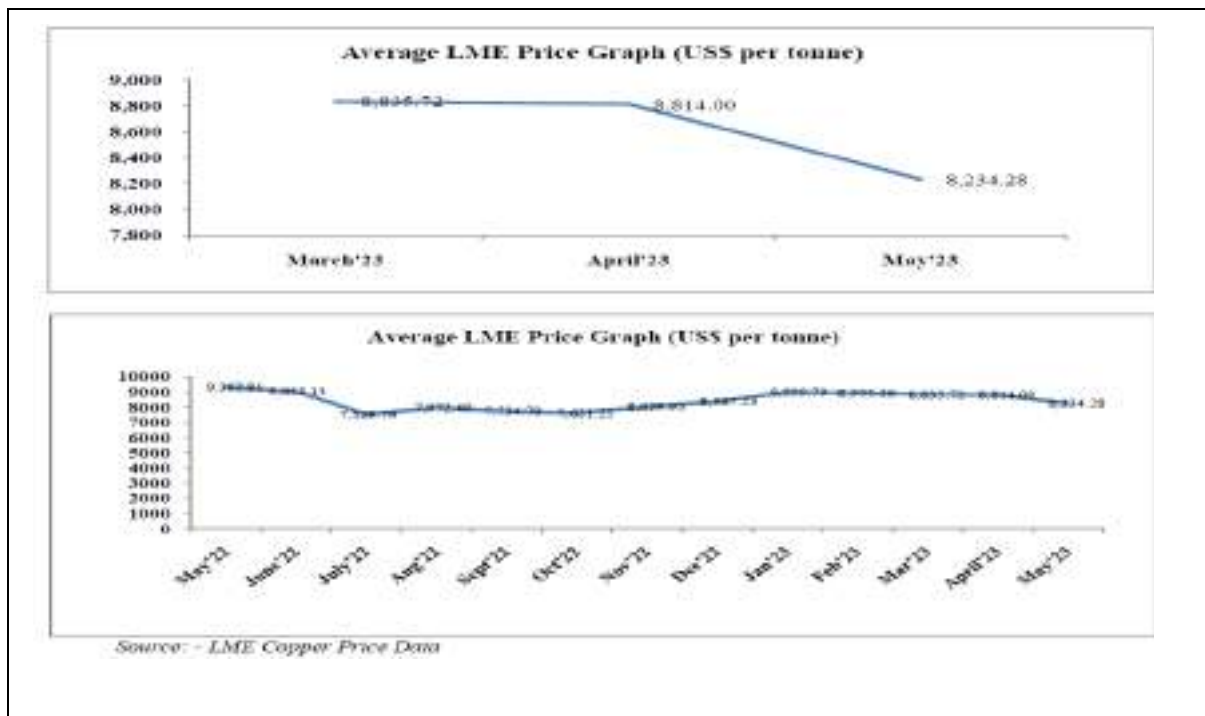

The world Refined Copper Production from April, 2022 to March, 2023 was about 26,108 TMT against world consumption of 26,239 TMT. As per International Copper Study Group (ICSG) forecast dated 28.04.2023 for the Calendar Year 2023, world Refined Copper production and consumption are projected as 26,419 & 26,431 TMT respectively. The Projected world Refined Copper production & consumption from April, 2022 to March, 2023 shall be 25,810 & 26,162 TMT respectively. By comparing the figures of world Refined Copper production and consumption (Forecast) vs. actual from April, 2022

to March, 2023, it is coming around 98.86% and 99.71%. The share of India in the world production was 0.25% during April, 2022 to March, 2023.

The average LME price in May, 2023 was US\$ 8,234.28 per tonne compared to average LME of US\$ 9,362.81 per tonne in May, 2022, thereby registering a decrease by 12.05%. The average LME price during the year 2022-23 was US\$ 8,551.00 per tonne, and cumulative average LME price for 2023-24 (April-May) was US\$ 8,524.14 per tonne.

DOMESTIC SCENARIO - COPPER

- The size of Indian copper industry (consumption of refined copper per annum) is around 6.6 lakh tonnes, which as percentage of world copper market is only three percent.
- Sterlite Industries, Hindalco Industries and Hindustan Copper Ltd. are major producers of refined copper in India.
- Production in India has declined significantly due to the permanent closure of Vedanta's smelter/refinery plant of Tamil Nadu in May, 2018.

The production of copper cathode in the organized sector by the public sector unit viz. Hindustan Copper Ltd. (HCL), and private sector units viz. Hindalco Industries Ltd. (HINDALCO, Unit Birla Copper) and Sesa Sterlite Ltd. (SSL) in the country, during FY 2022-23 and the month of May, 2023 is as follows:

Capacity and Production during FY 2022-23 is as follows:

Factors influencing Copper Markets:

- Copper prices in India are fixed on the basis of the rates that rule on LME and Rupee & US Dollar exchange rate.
- Economic growth of the major consuming countries such as China, USA, Japan, Germany, India etc.
- Growth and development in the Infrastructure, Real-estate, Telecom and Electrical Industry, Renewal Energy and Electrical Vehicle Sector.
- Surplus/Deficit in copper market.

GLOBAL SCENARIO - ALUMINIUM

The world production of Primary Aluminium Metal during 2022-23 (April-March) was about 69.49 million tonnes against world consumption of 68.25 million tonnes, resulting in a market surplus of 1.24 million tonnes. It is estimated that during April-June, 2023, the world consumption of Primary Aluminium Metal would be 17.27 million tonnes against world production of around 17.69 million tonnes, implying a surplus of 0.42 million tonnes. The share of India in the world primary Aluminium production was around 5.8% during 2022-23 (April-March).

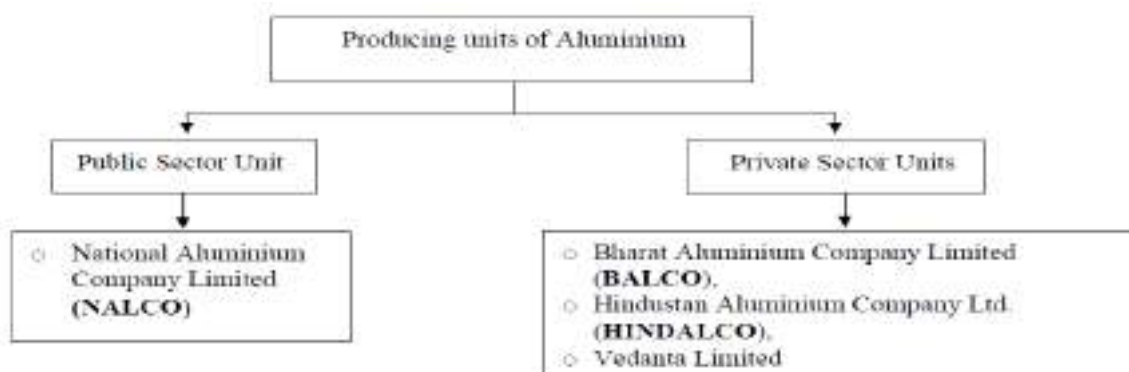

The average London Metal Exchange (LME) price for May, 2023 was US\$ 2,268 per tonne as against US\$ 2,826 per tonne in May, 2022, thereby registering a decline of 19.8%. The average LME price during the year 2022-23 was US\$ 2,498 per tonne, and cumulative average LME price for 2023-24 (April-May) was US\$ 2,305 per tonne.

GLOBAL AND DOMESTIC SCENARIO - BRASS

What is Brass – Definition

Brass is the generic term for a range of **copper-zinc alloys**. Brass can be alloyed with zinc in different proportions, which results in a material of varying mechanical, corrosion and thermal properties. Increased amounts of zinc provide the material with improved strength and ductility.

(Source: <https://material-properties.org/what-is-brass-definition/>)

How Is the Production and Distribution of Brass in INDIA Estimated?

The estimated annual production of Brass in India is close to 250,000 MT.

This includes production via primary metal and recycling. In India, Jamnagar in Gujarat, Moradabad, and Jagadhiri in UP are large production centres of Brass.

Jamnagar consists of around 5000 large and small brass units involved in the brass industry.

There are foundries, manufacturing units, and units that make specialized brass products expected worldwide.

It involves taking equal and opposite positions in two different markets to reduce or limit risks associated with the price change.

It is a two-step process where a gain or loss in the physical position due to changes in price will be offset by changes in the value on the derivatives platform, thereby reducing or limiting risks associated with unpredictable price changes.

What Are the Factors That Impact the Prices of Brass?

- Brass prices rely either on the international standard of the primary metal copper and Zinc or the supply and demand of brass scrap and Brass.
- Economic events, such as the national industrial growth, global financial crisis, recession, and inflation, influence metal prices.
- Trade policies set by the government (execution or suspension of taxes, penalties, and quotas) affect supply as they regulate (restrict or encourage) material flow.
- Geopolitical events concerning governments, economic paradigms, and armed conflict can cause significant changes.

OUR BUSINESS

Some of the information in the following discussion, including information with respect to our plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read “Forward-Looking Statements” on page 21 for a discussion of the risks and uncertainties related to those statements. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Also read “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 31 and 274 for a discussion of certain factors that may affect our business, financial condition or results of operations. Our fiscal year ends on March 31 of each year, and references to a particular fiscal year are to the twelve months ended March 31 of that year.

We have, in this Red Herring Prospectus, included various operational and financial performance indicators, some of which may not be derived from our Restated Financial Statements and may not have been subjected to an audit or review by our Statutory Auditor. The manner in which such operational and financial performance indicators are calculated and presented, and the assumptions and estimates used in such calculation, may vary from that used by other companies in India and other jurisdictions. Investors are accordingly cautioned against placing undue reliance on such information in making an investment decision and should consult their own advisors and evaluate such information in the context of the Restated Financial Statements and other information relating to our business and operations included in this Red Herring Prospectus.

Unless otherwise indicated or the context otherwise requires, the financial information for FY 2023-24, FY 2022-23 and FY 2021-22 included herein is derived from the Restated Financial Statements, included in this Red Herring Prospectus. Unless otherwise indicated or the context otherwise requires, in this section, references to “we” or “us” mean Rajputana Industries Limited, and to “Company” or “our Company” mean “Rajputana Industries Limited”.

OVERVIEW

Our Company was originally incorporated as “Rajputana Industries Private Limited” at Jaipur as a private limited company under the Companies Act, 1956, pursuant to a certificate of incorporation dated June 13, 2011, issued by the RoC, Rajasthan. Subsequently, our Company was converted into a public limited company under the Companies Act, 2013, pursuant to the approval accorded by our Shareholders at their extra-ordinary general meeting held on April 21, 2023. Consequently, the name of our Company was changed to “Rajputana Industries Limited” and a fresh certificate of incorporation consequent upon conversion from a private limited company to a public limited company was issued to our Company by the RoC, Rajasthan on May 04, 2023, and Corporate Identification Number is U31909RJ2011PLC035485. The registered office of our company is situated at F-269-B, Road No. 13, VKIA, Jaipur Rajasthan 302013 India.

Our Company is primarily engaged in the business of manufacturing of diverse range of non-ferrous metal products from primarily Copper, Aluminium, Brass and various alloys from recycling of scrap metal. We procure scrap metal from open markets and convert them into billets made of metals like aluminium, copper or brass etc. through recycling in our inhouse manufacturing unit situated at SP-3, SKS Industrial Area, Reengus Extension, Sikar, Rajasthan.

Once these billets are manufactured from recycled scrap metal, we either sell them to different manufacturing companies or we use them to produce products like Copper rods, Aluminium rods, Copper mother tube, brass wires, super enameled copper conductor and many more products. These wires, tubes, bars, billets and rods are manufactured in various shapes and sizes as per the requirement of the customers and / or demand in the market.

Over the past couple of years, our company has outgrown itself into a distinguished large-scale organization specializing in wires, tubes, bus, bars and rods of various shapes, sizes and in various non-ferrous metals having plentiful applications.

With a view to enhancing the product portfolio, our Company is entering into the business of manufacturing of cables which shall be primarily used in the construction industry, mainly residential and submersible cables for motors. The proposed cable plant shall be installed in the existing manufacturing facility of the company situated at SP-3, RIICO Industrial Area, Reengus, Sikar by utilizing the surplus area in the manufacturing facility.

The total cost of the project is Rs. 5.88 Cr comprising of investment in building shed amounting to Rs. 4.08 Cr, 1.58 Cr in the Plant & Machinery and Rs. 0.30 Cr in other misc. preoperative expenses. The entire capex cost of Rs. 5.88 Cr shall be funded through mix of fresh bank borrowings and Internal accruals.

The construction of the building shed is underway and as of now we have spent Rs. ₹ 366.46 Lakhs towards the same. The same is duly certified by M/s. Swarnkar & Co., Chartered Accountants. Further, no orders for the plant and machinery for the cable project have been placed by us as on date.

The Project shall be operational by the end of September 2024 with an annual production capacity of 13,000 Kw based on the plant and machinery shortlisted by the management of the company for acquiring for this project.

Key industries wherein our products are widely used for several purposes are as follows:

S. No	Industry	Use Cases
1	Electrical and Electronics Industry	Used for electrical connectors, terminals, circuitry, and components due to better electrical conductivity with strength and corrosion resistance.
2	Automotive Industry	Utilized in manufacturing components like connectors, terminals, harnesses, sensors, and electrical terminations, leveraging the combination of strength, corrosion resistance, and thermal conductivity.
3	Plumbing and Sanitary Industry	Commonly used for fittings, valves, faucets, pipe connectors, and other plumbing components, offering corrosion resistance, durability, and ease of fabrication
4	Construction and Architecture Industry	Applications include decorative trims, handrails, hardware, and fasteners, leveraging aesthetic appeal, strength, corrosion resistance, and ease of fabrication.
5	Industrial Manufacturing Equipment	Used in components such as fasteners, bearings, gears, and connectors, providing strength, corrosion resistance, and machinability in heavy-duty applications
6	HVAC and Refrigeration Industry	Widely applied in heating, ventilation, air conditioning (HVAC), and refrigeration for producing copper tubes and pipes in systems like air conditioning, heat exchangers, and refrigeration units, owing to copper's excellent thermal conductivity and corrosion resistance
7	Renewable Energy Industry	Crucial in the solar power industry for applications like solar panels, photovoltaic systems, and solar power generation equipment, given copper's essential role in efficient energy conversion with its high electrical conductivity.

Our experience of more than a decade has enabled us to build an effective business model that gives us control over our processes from raw material procurement, manufacturing, and marketing to sales through our network. Our business model allows us to monitor and control the quality of our products on the supply side and provides us the ability to respond quickly to our customers' needs and

preferences on the demand side. Our company adheres to some of industry's best quality product accreditations. Our Company has obtained following certifications / recognition:

1. ISO 9001:2015 in recognition of organization's Quality Management System.
2. ISO 45001:2018 in recognition of Occupational Health and Safety Management System.
3. ISO 14001:2015 in recognition of Environmental Management System.

Our Company is managed by our promoters and directors, Mrs. Shivani Sheikh and Mr. Sheikh Naseem.

Shivani Sheikh is the Promoter, Chairman and Managing Director of our Company. She holds a Bachelor's of Engineering (Hons.), in Electrical, degree from Ravishankar Shukla University, Raipur (M.P.). She has over 26 years of experience in the manufacturing of non-ferrous metal, majorly with products manufactured from aluminium, brass, copper and alloyed products by virtue of her stint as whole-time director of Shera Energy Limited since 2009. Earlier she was running her partnership firm naming M/s. Shivani Electricals since 1998 which was into the manufacturing of transformers for electrical industry before joining Shera Energy Limited. She oversees the financial planning of our Company, Shera Energy Limited, Shera Metal Private Limited, and Isha Infrapower Private Limited and hedging strategic management. She is actively engaged in the operations of the business.

Sheikh Naseem Sheikh Naseem is the Promoter and Director of our Company. He is a merit holder in Bachelors of Engineering (Hons.), in Electrical, from Pt. Ravishankar Shukla University, Raipur (M.P.). He has over 26 years of experience in the metal industry and electrical industry. He started his career by incorporating a partnership firm in the name of "Shivani Electricals" in the year 1998 to manufacture transformers, thereafter in year 2002 he ventured into metal sector by incorporating another firm in the name of Shera Metals & Engineers for manufacturing electrical wire. In the year 2009, he along with Mrs. Shivani Sheikh incorporated Shera Energy Limited which is into manufacturing of wire rods made of copper and aluminium, Billets of Copper and aluminium, enamel wire for winding purposes, manufactures of brass products of various shapes and sizes.

The annual installed capacity of all the products as on March 31, 2022 is 9,860 MT. We have well-equipped manufacturing facilities with the latest technology plant and machinery for manufacturing and quality control lab with in-house testing equipments to test the quality of our products. Our finished products undergo a strict quality check to ensure that they are of required quality as per the standards set. Our in-house testing team regulates and monitors the quality, safety and packaging of the products.

Rajputana Industries Private Limited was acquired by Shera Energy Limited on August 30, 2017. Shera Energy Limited, was originally incorporated at Jaipur as a private limited company namely, "Shera Energy Private Limited" on December 08, 2009. Pursuant to a Slump Sale agreement dated December 31, 2009, the entire business activities and movable assets of "Shera Metals and Engineers", proprietorship firm of one of our individual Promoter Mr. Sheikh Naseem, was acquired as a going concern.

Shera Energy Limited is carrying on the business of manufacturing winding wires and strips made of non-ferrous metals primarily Copper and Aluminum. The annual installed capacity of all the products of Shera Energy Limited in FY 2021-2022, is 15,600 MT.

This acquisition was strategically made to take the advantage of the forward integration as our company was involved in the process of manufacturing of billets of several metals like copper, aluminum, brass etc made out of scrap metals, which were used as a raw material in the operations of Shera Energy Limited in order to produce the winding wires and strips.

The revenue of the company in last three years based on restated financial statements is as under:

OUR COMPETITIVE STRENGTH

Experienced senior management team and qualified workforce

Our senior management team, composed of Promoters with engineering qualifications, holds extensive experience in various aspects of the engineering sector, spanning business development, operations, administration, marketing, and human resource management. They contribute to successfully managing our operations and fostering growth. Founder Promoters and Directors Sheikh Naseem and Shivani Sheikh bring over 26 years of experience, particularly in the metal industry, guiding the company's expansion beyond winding wires. Our workforce, equipped with entrepreneurial vision and technical capabilities, plays a crucial role in our business and operations. The team includes engineers and skilled workers, continuously enhancing their expertise through in-house training to adapt to evolving manufacturing technologies and processes. The management's trust in the workforce has been pivotal in establishing a strong market presence, with streamlined processes, improved product quality, and heightened profitability providing a competitive advantage.

Long standing relationships with existing clientele

We prioritize establishing enduring client relationships, consistently meeting their needs with sought-after products. Our top ten customers contributed significant percentages to our total revenue over recent fiscal years. The average duration of our relationships with the top five customer groups spans more than a decade, reflecting our commitment to quality and robust designing and tooling capabilities. Our expertise in automated production, emphasis on research and development, and technologically advanced, quality-consistent, timely, and cost-competitive manufacturing processes have garnered repeat orders. Our customer-centric approach, transparent dealings, and long-term relationships enable us to comprehend and fulfill diverse customer requirements, including new product development. These enduring connections serve as an endorsement of our operational and managerial capabilities, facilitating new business opportunities within the industry.

Focus on Quality

Our company prioritizes qualitative manufacturing, following industry standards throughout production. Stringent quality checks at various stages swiftly address any defects. An in-house laboratory conducts necessary tests to ensure consistent quality. This commitment leads to repeat orders, affirming our capability to meet buyer standards and strengthening our market presence.

Established Manufacturing facility

Our registered office and manufacturing facilities are situated in prominent industrial areas in Jaipur and Reengus. Our unit is fully equipped for end-to-end manufacturing. With extensive experience in precision engineering, strategically located production site, and advanced, cost-effective manufacturing processes, we meet our customer requirements. Our comprehensive service includes product design, development, material sourcing, testing, and measurement—all under one roof for customers. This integrated approach not only enhances quality control but also offers cost advantages over competitors who rely on job work. Our engineering expertise and technology-driven processes enable timely, cost-effective delivery without compromising quality, aligning with customer designs and specifications.

Innovative Ideas

Leveraging our engineering expertise, we actively pursue innovation. The company consistently works on expanding and diversifying our product range, introducing new business ideas that incorporate technology and utilize our installed plant and machinery. Our Company recently commenced manufacturing special grade brass rods through Cold Extrusion process suitable to make bullet shells for defense applications. This product has been recently developed by the company and expanded our product range.

Industry Knowledge and Expertise

A deep understanding of the metal industry, including market trends, consumer preferences, and regulatory landscape, provides a competitive advantage. Staying informed about industry developments allows our company to adapt quickly, identify emerging opportunities, and make informed strategic decisions.

OUR BUSINESS STRATEGIES

Our focus is on using core strengths to expand operations in existing and new markets. Our company, engineered with technology and supported by an efficient team, swiftly positioned itself as a brand in the Indian market. The goal is to sustain product delivery quality, leveraging strengths and implementing strategic growth initiatives as follows:

Expanding our customer base

Our strategy for expanding the customer base involves meeting the growing demand of existing customers by extending the distribution reach of our products. This expansion into additional regions aims to tap into a larger market. With a manufacturing presence in domestic and international markets, we seek to capitalize on the anticipated growth in demand for winding wires, creating opportunities to grow our current market share. Aligning with market trends, we are diversifying into various sizes and products, aiming to continually develop new offerings to meet evolving customer demands. This customer base expansion will be driven by our commitment to maintaining quality, timely delivery, competitive pricing, and product reliability. Building on profitable relationships with key customer groups, we are focused on further expanding our customer base both domestically and internationally, with a strategic shift in the product mix aimed at increasing sales of finished products.

Increasing operational efficiencies to enhance returns

Our strategy involves offering quality products at attractive prices to maintain and expand customer relationships. To achieve this, we focus on improving cost efficiency through various manufacturing, sourcing, and cost reduction strategies. This includes ongoing efforts in efficiency enhancement, manpower optimization, and cost reduction, reinforcing our commitment to strong product quality.

Invest in infrastructure and technology

Our company invests in achieving higher excellence levels in our products to meet diverse client specifications. We have upgraded machinery and equipment with modern technology and aim to continue upgrading and modernizing our infrastructure and technology to sustain growth in the future.

Product Enhancement and Quality Focus

Our primary focus is on enhancing our existing product base and maintaining high-quality, safety-compliant offerings. This strategy aims to secure customer retention and drive repeat orders. We prioritize close interactions with customers to strengthen relationships, comprehend market perceptions, and meet the evolving demand for our products.

Customer Engagement for Brand Growth

This strategy emphasizes fostering close relationships with customers to better understand market dynamics and ensure sustained business growth. Our commitment to quality standards is a key aspect, securing repeat orders and enhancing our brand value over time.

OUR PRODUCTS

Our product portfolio includes rods, billets, strips, wires and tubes made of Copper, Aluminium and Brass. A brief of the same is given below:

1. Brass Rods

Brass wire rods are composed primarily of copper and zinc, with small amounts of other alloying elements added to achieve desired properties. The copper content provides excellent electrical conductivity, while zinc enhances the alloy's strength and corrosion resistance. Brass wire rods are typically manufactured through a process of continuous casting and rolling, resulting in long, cylindrical rods with a smooth surface finish. They are used as raw material to produce solid rods & wires of different shapes and sizes to suit different applications.

Brass Wire Rods are commonly used in the production of bars, rods, and wires, which require a smaller cross-sectional area.

Range & Specification

Range

ROUND ROD: 10 mm to 100 mm

SQUARE ROD: 5 mm to 100 mm

HEX ROD: 10 mm to 100 mm

Specifications

Standards EN, ASTM, DIN

Shapes Round, Hex, Square in length and coils

Rajputana Industries manufactures Brass Wires Rods using raw material sourced from manufacturers. Brass wire rods possess versatile properties, finding applications in various Indian industries such as:

- **Electrical and Electronics Industry:** Brass wire rods used for electrical connectors, terminals, circuitry, and components due to better electrical conductivity with strength and corrosion resistance.
- **Automotive Industry:** Utilized in manufacturing components like connectors, terminals, harnesses, sensors, and electrical terminations, leveraging the combination of strength, corrosion resistance, and thermal conductivity.
- **Plumbing and Sanitary Industry:** Commonly used for fittings, valves, faucets, pipe connectors, and other plumbing components, offering corrosion resistance, durability, and ease of fabrication.
- **Construction and Architecture Industry:** Applications include decorative trims, handrails, hardware, and fasteners, leveraging aesthetic appeal, strength, corrosion resistance, and ease of fabrication.
- **Industrial Equipment Manufacturing:** Used in components such as fasteners, bearings, gears, and connectors, providing strength, corrosion resistance, and machinability in heavy-duty applications.
- **Crafts and Jewellery Industry:** Popular for malleability and aesthetic appeal in crafting decorative items, sculptures, intricate jewellery designs, and artistic creations.

2. Raw material for Bullet Shell:

We have recently commenced manufacturing special grade brass rods through Cold Extrusion process suitable to make bullet shells for defence applications. The Product is likely to be used for all OEM and Brass Sheet going to be replaced with Brass rods for Bullet shell manufacturing in gradual manner. The special grade brass rod is used in the manufacturing of bullet shells having various applications in the defence sector.

Range & Specification

Range

ROUND ROD: 9.5 to 25 MM

Specifications

Standards	EN, ASTM, DIN
Shapes	Round in Coil Shape

3. Copper Rods

Copper has been the first choice for decades in applications where high electrical conductivity, high-thermal connectivity & corrosion resistance is required. There are various applications where copper wire rod is used like bus bars, electrical applications, general household purpose, connectors and gaskets and general engineering purposes.

Rajputana Industries copper wire Rods has a wide range of applications including critical sectors like aerospace, aviation, defence, transportation, electricity distribution, packaging, etc. and in sunrise sectors such as electric vehicles, renewable energy and more.

Here are key industries where copper rods find significant applications:

- **Electrical and Electronics Industry:** Extensively used for electrical wiring, power cables, transformers, motors, generators, switches, connectors, and printed circuit boards (PCBs) due to copper's high conductivity and reliability.
- **Construction and Infrastructure Industry:** Utilized in electrical installations for wiring in residential, commercial, and industrial buildings. Also used in power distribution systems, lighting fixtures, and communication networks in the construction and infrastructure sector.

- **Automotive Industry:** Widely used in India's automotive industry for manufacturing wiring harnesses, connectors, switches, sensors, and other electrical components, ensuring reliable and efficient electrical connectivity.
- **HVAC and Refrigeration Industry:** Widely applied in heating, ventilation, air conditioning (HVAC), and refrigeration for producing copper tubes and pipes in systems like air conditioning, heat exchangers, and refrigeration units, owing to copper's excellent thermal conductivity and corrosion resistance.
- **Plumbing and Sanitary Industry:** Utilized in the plumbing and sanitary industry for producing copper pipes, tubes, and fittings due to copper's corrosion resistance and antimicrobial properties, making it suitable for water supply systems and sanitary applications.
- **Renewable Energy Industry:** Crucial in the solar power industry for applications like solar panels, photovoltaic systems, and solar power generation equipment, given copper's essential role in efficient energy conversion with its high electrical conductivity.
- **Manufacturing and Industrial Equipment:** Used in various manufacturing and industrial equipment applications, including machinery, equipment, appliances, and manufacturing processes that require electrical conductivity, heat dissipation, or corrosion resistance.

4. Aluminium rods

Aluminium wire rods are cylindrical rods composed primarily of high-quality aluminium alloy. These wire rods undergo a rigorous manufacturing process that includes melting, casting, and rolling to achieve the desired properties.

Aluminium wire rods are known for their exceptional scientific characteristics, making them widely used in various industries. Rajputana Industries manufactures Aluminium wire Rods has a wide range of applications.

Range & Specification

Range

ROUND ROD: 10 mm to 25 mm

Some of the key industries where aluminium wire rods are used include:

- **Electrical Industry:** Aluminium wire rods are extensively used in the electrical industry for applications such as electrical wiring, power transmission lines, electrical motors, transformers, and various electrical components. Aluminium's good electrical conductivity and lightweight nature make it an ideal choice for efficient power distribution.
- **Construction and Infrastructure Industry:** Aluminium wire rods are widely used in the construction and infrastructure industry in India. They are utilized for applications such as architectural framework, window frames, roofing, curtain walls, and structural components. Aluminium's lightweight nature, corrosion resistance, and ease of fabrication make it a popular choice in the construction sector.

- **Automotive and Transportation Industry:** Aluminium wire rods find applications in the automotive and transportation industry for various purposes. They are used in the manufacturing of electrical components, wiring harnesses, busbars, heat exchangers, and lightweight structural parts. Aluminium's low density and good thermal conductivity contribute to weight reduction and improved fuel efficiency in vehicles.
- **Aerospace Industry:** Aluminium wire rods play a significant role in the aerospace industry in India. They are used in the manufacturing of aircraft components, including structural parts, frames, panels, and wiring systems. Aluminium's lightweight nature, high strength-to-weight ratio, and corrosion resistance are critical factors in the aerospace sector.
- **Consumer Goods and Appliances Industry:** Aluminium wire rods are utilized in the production of various consumer goods and appliances. They are used in the manufacturing of kitchen utensils, cookware, household items, and appliances such as refrigerators, air conditioners, and fans. Aluminium's thermal conductivity and corrosion resistance make it suitable for heat transfer and durability in these applications.
- **Renewable Energy Industry:** Aluminium wire rods find applications in the renewable energy industry, particularly in solar power systems. They are used in the manufacturing of solar panels, mounting structures, and electrical components for efficient power generation and transmission.

5. Copper Billets

Copper is an excellent conductor of heat and electricity. It is also very malleable and ductile which helps us to make customized copper billets. Copper Billets are used as raw materials or feedstock in extrusion, forging, rolling and other metal-processing operations. Billets have limited use before they have been formed into more functional shapes and sizes. They must undergo a series of manufacturing processes before they can be used for various purposes.

Rajputana Industries produces Copper Billets using optimum quality raw material. Copper billets find applications in a wide range of industries due to their unique properties and versatility.

Range & Specification

Range

ROUND Billets: 70 mm to 200 mm

Specifications

Standards EN, ASTM, DIN

Some of the key industries where copper billets are used include:

- **Electrical and Electronics Industry:** Copper billets are extensively used in the electrical and electronics industry for various applications. They are utilized in the production of electrical connectors, busbars, and electrical components. Copper's excellent electrical conductivity and reliability make it an essential material in power transmission, electrical equipment and electronic devices.
- **Plumbing and Construction Industry:** Copper billets are widely used in the plumbing and construction industry for applications such as pipes, fittings, valves, and fixtures. Copper's corrosion resistance and antimicrobial properties make it ideal for plumbing systems, ensuring clean and safe

water supply. Copper billets are also utilized in architectural applications, roofing, and structural components due to their strength and durability.

- **Automotive and Transportation Industry:** Copper billets find applications in the automotive and transportation industry for various purposes. They are used in the manufacturing of radiators, heat exchangers, brake components, and electrical wiring systems. Copper's excellent thermal conductivity, corrosion resistance, and electrical properties contribute to the efficiency and reliability of automotive systems.
- **HVAC and Refrigeration Industry:** Copper billets are widely used in the heating, ventilation, air conditioning (HVAC), and refrigeration industry. They are utilized in the production of copper tubes and pipes for air conditioning systems, heat exchangers, refrigeration units, and other cooling applications. Copper's high thermal conductivity and corrosion resistance make it an ideal choice for efficient heat transfer and durability in HVAC and refrigeration systems.
- **Manufacturing and Engineering Industry:** Copper billets find applications in various manufacturing and engineering processes. They are used in the production of machinery, equipment, tools, and components that require excellent electrical conductivity, heat dissipation, or corrosion resistance. Copper billets can be shaped, machined, and fabricated to create custom parts and components for diverse industrial applications.
- **Renewable Energy Industry:** With the increasing focus on renewable energy sources, copper billets play a crucial role in the renewable energy industry. They are used in the manufacturing of solar panels components, wind turbines, and other renewable energy systems. Copper's high electrical conductivity and durability make it essential for efficient energy generation and transmission in renewable energy applications.

6. **Brass Billets**

Brass Billets are metal casts in a cylindrical shape. It is an alloy of copper and zinc, in proportions that can be varied to achieve varying mechanical and electrical properties. Brass Billets are commonly used in the production of bars, rods, and tubes, which require a smaller cross-sectional area.

Rajputana Industries produces Brass Billets using optimum quality raw material. Brass billets find applications in a wide range of industries due to their unique properties and

versatility.

Range & Specification

Range

ROUND ROD: 70 mm to 200 mm

Specifications

Standards EN, ASTM, DIN

Some of the key industries where brass billets are used include:

- **Plumbing and Construction Industry:** Brass billets are widely used in the plumbing and construction industry for various applications. They are utilized in the production of fittings, valves, faucets, pipes, and other plumbing components. Brass's excellent corrosion resistance, durability, and ease of fabrication make it a preferred material in plumbing systems.

- **Electrical and Electronics Industry:** Brass billets find applications in the electrical and electronics industry for various purposes. They are used in the manufacturing of electrical connectors, terminals, switches, and other electrical components. Brass's moderate electrical conductivity, corrosion resistance, and machinability make it suitable for electrical applications.
- **Automotive Industry:** Brass billets are utilized in the automotive industry for various components and parts. They are used in the production of automotive fittings, connectors, radiator cores, and other applications that require good corrosion resistance and ease of fabrication. Brass's aesthetic appeal and durability make it valuable in automotive design.
- **Marine Industry:** Brass billets find applications in the marine industry due to their excellent corrosion resistance in saltwater environments. They are used in the production of marine fittings, valves, propellers, and other components that are exposed to seawater. Brass's corrosion resistance and durability make it suitable for marine applications.
- **Furniture and Decorative Industry:** Brass billets are widely used in the furniture and decorative industry for their aesthetic appeal. They are utilized in the production of decorative hardware, handles, knobs, and architectural accents. Brass's golden appearance, durability, and ease of shaping contribute to its popularity in the furniture and decorative sector.
- **Musical Instruments:** Brass billets find applications in the manufacturing of musical instruments, particularly brass instruments such as trumpets, trombones, and saxophones. Brass's unique acoustic properties, including its resonance and malleability, make it a preferred material for instrument construction.
- **General Manufacturing Industry:** Brass billets are used in various general manufacturing applications where corrosion resistance, strength, and formability are required. They find use in industries such as aerospace, machinery, hardware, and precision engineering.

7. Brass wire

Brass wire is a type of wire made from an alloy composed primarily of copper and zinc. The specific proportions of copper and zinc can vary, resulting in different brass compositions with varying properties. Rajputana Industries produces a range of Brass wires which are consumed by a variety of customers.

Range & Specification

Range

DIAMETER: 2 mm to 20 mm

Specifications

Standard Grades 60/40, 70/30, 72/28, 80/20, 63/37

Shapes Round

Some of the key industries where brass wire is used include:

- **Electrical and Electronics Industry:** Brass wire is extensively used in the electrical and electronics industry for various applications. It is utilized in the manufacturing of electrical connectors, terminals, switches, transformers, and other electrical components. Brass wire's good electrical conductivity, corrosion resistance, and ease of fabrication make it ideal for electrical applications.

- **Jewellery and Accessories Industry:** Brass wire is commonly used in the jewellery and accessories industry. It is used to create wire-wrapped jewellery, intricate wirework designs, findings, and decorative elements. Brass wire's aesthetic appeal, malleability, and affordability make it a popular choice among jewellery makers.
- **Automotive and Aerospace Industry:** Brass wire finds applications in the automotive and aerospace sectors. It is used in electrical wiring harnesses, connectors, sensors, and other components that require both electrical conductivity and corrosion resistance. Brass wire's strength, durability, and resistance to high temperatures make it suitable for demanding automotive and aerospace applications.
- **Craft and Artistic Projects:** Brass wire is widely used in craft and artistic projects, including sculpture, model making, and wire art. Its malleability and ability to hold shapes make it ideal for creating intricate designs and structural elements.
- **Plumbing and Hardware Industry:** Brass wire is utilized in the plumbing and hardware industry for various applications. It is used in plumbing fittings, valves, fasteners, decorative hardware, and architectural accents. Brass wire's corrosion resistance, durability, and attractive appearance make it a preferred choice in plumbing and hardware applications.
- **Musical Instruments:** Brass wire finds applications in the manufacturing of musical instruments. It is used in brass instruments such as trumpets, trombones, and saxophones for valves, slides, and decorative elements. Brass wire's acoustic properties, including its resonance and malleability, contribute to the quality and performance of musical instruments.
- **Screen Printing Industry:** Brass wire mesh screens are used in the screen-printing industry. They serve as a stencil to transfer ink onto various surfaces, including textiles, ceramics, and electronics.

8. Copper Mother Tube

A copper mother tube, also known as a copper hollow billet, is a tubular structure made of pure copper that serves as a primary source material for various downstream copper products. It is produced through the extrusion process, where hot copper is forced through a die to form a continuous cylindrical shape.

Copper mother tubes are typically large in diameter and have a consistent wall thickness. They are used as a starting material for further processing and fabrication into various copper-based products such as pipes, tubes, hollow busbars, and other components. The extrusion process allows for the production of long lengths of copper mother tubes, which can be cut and further processed into desired sizes and shapes.

Rajputana Industries produces copper mother tubes and have retained a broad spectrum of customer base consuming them.

Range & Specification

Range

OUTER DIAMETER (OD): 45 mm to 120 mm

WALL THICKNESS: 5 mm to 15 mm

Specifications

Standards EN, ASTM, DIN

Grade ETP, DHP

Some of the key industries where copper mother tubes are used include:

- **Electrical and Electronics Industry:** Copper mother tubes are extensively used in the electrical and electronics industry for various applications. They are utilized in the production of electrical conductors, hollow busbars, transformers, switchgear, and other electrical components. The high electrical conductivity and excellent thermal properties of copper make it an ideal choice for efficient electrical transmission and heat dissipation.
- **Plumbing and HVAC Industry:** Copper mother tubes are widely used in the plumbing and HVAC (Heating, Ventilation, and Air Conditioning) industry. They are utilized in the manufacturing of copper pipes, tubes, and fittings for water supply systems, heating systems, and air conditioning systems. Copper's corrosion resistance, durability, and compatibility with various plumbing and HVAC applications make it a preferred material in these industries.
- **Automotive Industry:** Copper mother tubes find applications in the automotive industry for various components and systems. They are used in the manufacturing of radiators, heat exchangers, air conditioning systems, and other cooling and thermal management components. Copper's excellent thermal conductivity and corrosion resistance make it suitable for efficient heat transfer and durability in automotive applications.
- **Industrial and Manufacturing Sector:** Copper mother tubes are utilized in various industrial and manufacturing applications. They are used in equipment and machinery where efficient electrical conductivity, thermal management, and corrosion resistance are required. Examples include industrial machinery, heat exchangers, chemical processing equipment, and industrial heating systems.
- **Renewable Energy Industry:** Copper mother tubes are important in the renewable energy sector, particularly in solar power generation. They are used in the manufacturing of solar thermal collectors, photovoltaic panels, and other renewable energy systems. Copper's high thermal conductivity and electrical conductivity make it suitable for efficient energy conversion and transmission in these applications.
- **Construction and Architecture:** Copper mother tubes are used in the construction and architectural industry for various applications. They find use in structural components, decorative elements, roofing systems, and plumbing systems. Copper's aesthetic appeal, durability, and resistance to corrosion make it a preferred choice for architectural designs.

9. Super enamelled aluminium conductor

Super enamelled aluminium conductor, also known as enamelled aluminium wire or magnet wire, is a type of electrical conductor that consists of a solid aluminium core coated with a thin layer of enamel insulation. The enamel coating is applied through an enamelling process, which involves the application of a special varnish or polymer onto the aluminium wire. This insulation layer provides electrical insulation and protection to the conductor. Rajputana uses the EC Grade Aluminium conductor and Varnish material procured from manufacturers. Super enamelled aluminium conductors find applications in various industries due to their unique properties and advantages.

Range & Specification

Temper Soft

Enamel Type Terebec / Isomelt

Some of the key industries where super enamelled aluminium conductors are used include:

- **Electrical and Electronics:** Super enamelled aluminium conductors are extensively used in the electrical and electronics industry. They are employed in the manufacturing of motors, transformers, generators, solenoids, inductors, and other electromagnetic devices. The lightweight and cost-effective nature of super enamelled aluminium conductors make them suitable for a wide range of electrical applications.
- **Automotive:** Super enamelled aluminium conductors are utilized in the automotive industry for various applications. They are employed in electric and hybrid vehicles for motor windings, ignition systems, lighting systems, and other electrical components. The lightweight nature of aluminium conductors contributes to improved fuel efficiency in vehicles.
- **Renewable Energy:** Super enamelled aluminium conductors are used in the renewable energy sector, particularly in wind turbines. They are employed in the generators and motors of wind turbines and solar inverters for efficient power generation and distribution. Aluminium conductors offer lightweight solutions for renewable energy applications.
- **Aerospace and Aviation:** Super enamelled aluminium conductors find applications in the aerospace and aviation industry. They are used in aircraft electrical systems, including motors, generators, and wiring harnesses. The lightweight nature of aluminium conductors helps reduce the overall weight of aircraft, contributing to fuel efficiency and improved performance.
- **Industrial Automation:** Super enamelled aluminium conductors are utilized in industrial automation systems and machinery. They find applications in various equipment, including control panels, motors, and sensors. The lightweight and efficient electrical performance of aluminium conductors make them suitable for industrial automation applications.
- **Consumer Electronics:** Super enamelled aluminium conductors are used in consumer electronic devices such as appliances, televisions, computers, and audio systems. They are employed in motors, transformers, and other electrical components in these devices.
- **Lighting Industry:** Super enamelled aluminium conductors find applications in the lighting industry for fluorescent lamps, LED lighting, and other lighting fixtures. They are used in ballasts, transformers, and other electrical components.

10. Super enamelled copper conductor

Super enamelled copper conductor, also known as enamelled copper wire or magnet wire, is a type of electrical conductor that consists of a solid copper core coated with a thin layer of enamel insulation. Similar to super enamelled aluminium conductors, the enamel coating is applied through an enamelling process, where a special varnish or polymer is applied onto the copper wire. This insulation layer provides electrical insulation and protection to the conductor.

Super enamelled copper conductors find applications in various industries due to their excellent electrical conductivity, thermal properties, and durability.

Some of the **key industries** where super enamelled copper conductors are used include:

- **Electrical and Electronics:** Super enamelled copper conductors are extensively used in the electrical and electronics industry. They are employed in the manufacturing of motors, transformers, generators, solenoids, inductors, and other electromagnetic devices. The superior electrical conductivity and heat dissipation properties of copper conductors make them ideal for efficient power transmission and electromagnetic performance.
- **Automotive:** Super enamelled copper conductors are widely used in the automotive industry. They are employed in various applications such as electric motors, ignition systems, wiring harnesses, and electrical components in vehicles. Copper conductors offer high conductivity, heat resistance, and reliability, making them suitable for demanding automotive electrical systems.
- **Renewable Energy:** Super enamelled copper conductors are used in the renewable energy sector, including wind power and solar power systems. They are employed in the generators, transformers, and power distribution systems of wind turbines and solar inverters. Copper conductors provide efficient power transmission, durability, and reliability in renewable energy applications.
- **Aerospace and Aviation:** Super enamelled copper conductors find applications in the aerospace and aviation industry. They are used in aircraft electrical systems, including motors, generators, wiring, and electrical connections. The high conductivity of copper conductors contribute to their usage in aircraft electrical applications.
- **Industrial Automation:** Super enamelled copper conductors are utilized in industrial automation systems and machinery. They find applications in control panels, motors, sensors, and other

electrical equipment. Copper conductors offer efficient power transmission, high conductivity, and durability in industrial automation applications.

- **Power Generation and Transmission:** Super enamelled copper conductors are used in power generation and transmission systems. They are employed in generators, transformers, and power distribution networks for efficient and reliable power transmission. Copper conductors offer low resistance and high current-carrying capacity, reducing energy losses during power transmission.
- **Consumer Electronics:** Super enamelled copper conductors are used in consumer electronic devices such as appliances, televisions, computers, and audio systems. They are employed in motors, transformers, and other electrical components in these devices.
- **Telecommunications:** Super enamelled copper conductors find applications in telecommunications equipment and systems. They are used in communication cables, connectors, and other components that require reliable and efficient electrical connections.

11. Aluminium busbars

Aluminium busbars are flat or rectangular-shaped conductors made from high-quality aluminium alloys. They offer several scientific advantages, including high electrical conductivity, lightweight design, corrosion resistance, thermal conductivity, flexibility, and cost-effectiveness. These characteristics make aluminium busbars suitable for a wide range of applications in following industries. Aluminium busbars are widely used in various industries for their unique

properties and advantages.

Range & Specification

Thickness: 1.5 mm to 20 mm

Specifications

Standards EN, ASTM, DIN

Shapes Rectangle, Square, Round Rods

Temper Soft, Half Hard, Full Hard

Corner Radius Sharp Edge, Full Round, Slightly Round

Some of the key industries where aluminium busbars find applications include:

- **Electrical Power Distribution:** Aluminium busbars are extensively used in electrical power distribution systems, including substations, switchyards, and distribution panels. They serve as the main conductors for carrying electrical current from the power source to various distribution points. Aluminium busbars provide efficient and reliable power transmission due to their high electrical conductivity and thermal performance.
- **Renewable Energy:** The renewable energy industry, including solar power and wind power, utilizes aluminium busbars in power generation and distribution systems. They are used in solar inverters, wind turbine systems, and solar panels to connect and transmit electrical energy. Aluminium busbars offer lightweight and cost-effective solutions for efficient power distribution in renewable energy applications.

- **Electrical Equipment Manufacturing:** Aluminium busbars are an integral part of electrical equipment manufacturing. They are used in various equipment such as transformers, switchgear, circuit breakers, motor control centres, and control panels. Aluminium busbars provide reliable and efficient electrical connections within this equipment, ensuring optimal performance and safety.
- **Automotive and Transportation:** Aluminium busbars find applications in the automotive and transportation industries. They are used in electric and hybrid vehicles for power distribution and energy management systems. Aluminium busbars enable efficient and compact electrical connections in vehicle batteries, power electronics, and electric drivetrains.
- **Industrial Automation:** Aluminium busbars are utilized in industrial automation systems and machinery. They are employed in control cabinets, motor control centers, and power distribution units to facilitate the efficient flow of electricity. Aluminium busbars offer easy installation, flexibility, and reliable electrical connections in industrial automation applications.
- **Data Centres:** Aluminium busbars are employed in data centres to provide reliable and efficient power distribution to server racks and equipment. They help manage the high power demands of data centres, ensuring stable and secure operations.
- **Construction and Infrastructure:** Aluminium busbars are used in the construction and infrastructure sectors for electrical wiring, lighting systems, and power distribution in buildings, offices, commercial complexes, and public infrastructure. They provide a cost-effective and efficient solution for electrical installations.

12. Copper busbars

Copper busbars are solid, rectangular-shaped conductors made from high-purity copper. They are in demand because of superior conductivity and properties like free bend-ability and crack resistance. This makes it first choice for most of the electrical products. Rajputana Copper Bus Bars /Flats are made from Registrar Cathode of Grade "A" Type.

Copper busbars find applications in various industries due to their unique properties and advantages.

Some of the key industries where copper busbars are used include:

- **Electrical Power Distribution:** Copper busbars are extensively used in electrical power distribution systems, including substations, switchyards, and distribution panels. They serve as the main conductors for transmitting electrical power from the source to various distribution points. Copper

busbars offer high electrical conductivity and low resistance, ensuring efficient power transmission and minimizing energy losses.

- **Electrical Equipment Manufacturing:** Copper busbars are an integral component in the manufacturing of various electrical equipment. They are used in transformers, switchgear, circuit breakers, motor control centers, control panels, and other electrical devices. Copper busbars provide reliable and efficient electrical connections within the equipment, ensuring optimal performance and safety.
- **Renewable Energy:** The renewable energy sector, including solar power and wind power, utilizes copper busbars in power generation and distribution systems. Copper busbars are used in solar inverters, wind turbine systems, and solar panels for efficient power transmission and energy management. Copper's high electrical conductivity and durability make it suitable for handling the high-power demands of renewable energy systems.
- **Industrial Automation:** Copper busbars are employed in industrial automation systems and machinery. They are used in control cabinets, motor control centers, power distribution units, and other electrical infrastructure. Copper busbars provide reliable power distribution and efficient electrical connections, facilitating the smooth operation of industrial automation equipment.
- **Automotive and Transportation:** Copper busbars find applications in the automotive and transportation industries. They are used in electric and hybrid vehicles for power distribution, battery management systems, and electric drivetrains. Copper busbars enable efficient power transfer, manage high current loads, and ensure the reliable operation of electrical systems in vehicles.
- **Construction and Infrastructure:** Copper busbars are utilized in the construction and infrastructure sectors for electrical wiring, lighting systems, and power distribution in buildings, offices, commercial complexes, and public infrastructure. Copper busbars offer low resistance, efficient power transmission, and durability, making them suitable for demanding electrical applications.
- **Data Centres:** Copper busbars are used in data centres for power distribution to server racks and equipment. They provide reliable and efficient power transmission, ensuring stable and uninterrupted operations in data centre facilities.
- **Manufacturing and Industrial Sector:** Copper busbars are employed in various manufacturing and industrial applications where high-current power distribution is required. They find use in equipment such as industrial machinery, manufacturing processes, welding systems, and industrial control panels.

RAW MATERIALS

The raw material used in the manufacture of products are procured from suppliers available either locally or from suppliers available in different regions of India and outside India. Our Company procures raw materials from vendors selected after analysis of quotation received from every vendor for each raw material & by-products used in our manufacturing process. Also, our Company believes in selecting vendors who are highly established in market since years because they have experience in manufacturing such material. Additionally, the quality of the raw material is also verified before making the order of the material to make sure that the superior quality of material should be used in manufacturing of our product. Some of the major raw materials used are given as under:

MANUFACTURING PROCESS

BRASS ALUMINIUM AND COPPER RODS, BUSBARS WIRES AND TUBES

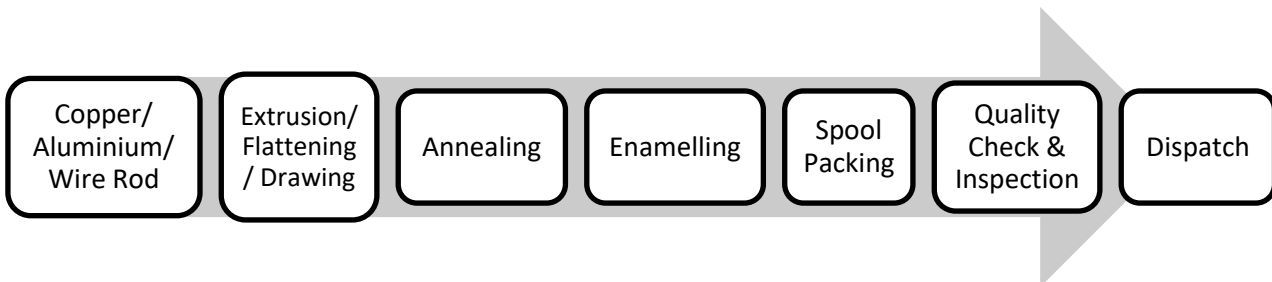

Rods, busbars, wires and tubes of copper / brass / aluminium are made out of scraps, cathode and ingots of copper, zinc and aluminium. Scrap is first segregated and then graded as per the alloying requirements of the customers. These segregated lots are subjected to melting and casting to billets/ingots. Thereafter, rods, busbars, wires and tubes are extruded from billets for further processes of drawing, surface treatment and annealing.

Copper tubes find their end applications in isolators, panels and in manufacturing of arc and induction furnaces. Copper Rods have varied applications in the electrical industry as earthing rods, contact terminals and current transfer applications. Copper Wires produced by us have applications in copper riveting and electrical industries.

Brass tubes find their end applications in heat exchangers and mechanical components. Brass Rods have varied applications in the machinery, hardware and sanitary fitting industries. Brass Wires find their applications in the CNC wire cut machines suitable to make sophisticated and precise components for the manufacturing industry. These wires also have an ornamental use in the zari industry as well. Our brass wires are also used in the riveting and ball pen industries.

Our company out of the production process stated above, have outsourced segregation, sorting, alloy furnace melting and casting to billets/ingot process and remaining process are carried on in the manufacturing facility of the company.

COPPER ALUMINIUM WINDING WIRES AND STRIPS

Winding wire is made from copper/aluminium rods, through the process of drawing which is followed by annealing and final insulation coating, which is either enamel or paper taping. These wires find their applications in high voltage windings in transformers, motors, inverters and stabilizers.

Winding strip is made from copper/aluminium rods which initially undergo inspection and testing. Thereafter, Copper rod goes through a process of cold extrusion for making rectangular copper strips. These strips then undergo two different processes of enamel coating and paper taping which then is finally wound on round spools to be delivered to customers. These strips are mainly used in making low voltage coils for distribution transformers, inverters and stabilizers.

DETAILS OF OUR BUSINESS LOCATIONS

We currently operate from the following offices and manufacturing units across India:

Registered Office / Corporate Office: F-269 (B), Road No. 13, VKIA, Jaipur

Manufacturing Unit: SP-3, RIICO Industrial Area, Reengus, Sikar

For further details regarding ownership and lease of the above locations, please refer to **“Our Business – Properties”** on page 163.

PLANT AND MACHINERY

Our manufacturing units have modern and latest technology machines for production and testing. We have constantly invested and upgraded our equipment which has aided us in providing best quality output for our clients.

UTILITIES AND INFRASTRUCTURE FACILITIES

INFRASTRUCTURE FACILITIES

Our registered corporate office and manufacturing unit are well equipped for our business operations to function smoothly.

POWER

Our Company requires power for the requirement of the office for lighting, systems, equipments and machines for running etc. Adequate power is available which is met through the electric supply by respective area electricity Board and our Company installed a transformer of capacity 5000 KVA and one DG set of 1000 KVA and UPS of 120 KVA for power backup.

WATER

Water is required for domestic as well as industrial purposes and adequate water sources are available at the existing premises.

ENVIRONMENT SOCIAL AND CORPORATE GOVERNANCE INITIATIVES

Our Company is exempted from the provisions of section 135 of the Companies Act, 2013, till March 31, 2023, in respect of Corporate Social Responsibility. Although we are subject to extensive, evolving and increasingly stringent occupational safety, health and environmental laws and regulations governing our operations. Our safety, health and environmental practices are robust and are continuously updated to adapt to the safety, health and environmental practices, rules, and regulations of the geography we operate in. We conduct external tests of our safety mechanisms every year to comply with the requirements of the Health & Safety Management System and Environmental Management System.

SALES AND MARKETING SETUP

Our company has implemented a robust and strategic marketing approach that has propelled its success in the non-ferrous metal manufacturing industry. With a deep understanding of the industries it serves, including electrical and electronics, automotive, renewable energy, industrial automation, power generation, telecommunications, and consumer electronics, the company has developed a tailored marketing strategy to effectively reach and engage its target industries and customers.

At the core of our marketing strategy is a diverse product portfolio that encompasses wires, tubes, billets, and busbars made from copper, aluminum, and brass. These high-quality products are manufactured using advanced technologies and adhere to stringent quality standards, positioning the company as a trusted and reliable provider in the market. In FY 2024, we have started a process to establish a new cable plant in our existing premises wherein we will manufacture new products like Submersible Cables and Cables suitable for housing wires etc. The establishment of this cable plant will help us to tap into new market segments of builders in construction line, the submersible motor pump manufactures and thus increase our clientele.

Furthermore, the company emphasizes exceptional customer service and the provision of customized solutions to meet specific industry requirements by providing a higher credit period to our customers to make attractive propositions to them and convert a potential sale into an actual sale. By building strong and lasting relationships with customers, it fosters loyalty and becomes the go-to choice for non-ferrous metal products. Further we provide additional service to our customer wherein we will purchase the scrap material of customers which is produced during the production process and use this scrap to produce the finished product for the designated customer. This enhances the benefit for both the purchaser and the supplier as the margin money of scrap traders is eliminated and the cost of production of the finished products also decreases.

The company also places a strong emphasis on continuous innovation and research and development. By staying ahead of industry trends and anticipating customer needs, it consistently introduces new products and solutions that align with emerging market demands.

In summary, the company has crafted a comprehensive marketing strategy that encompasses industry expertise, a diverse product portfolio, effective communication channels, and a focus on customer satisfaction. By leveraging its strengths and maintaining a customer-centric approach, the company has positioned itself as a trusted partner in the non-ferrous metal manufacturing industry, serving a wide range of industries with quality products and tailored solutions.

COMPETITION

The industry in which we operate is unorganized and fragmented, with many small and medium-sized companies. The non-ferrous metal industry is global, and as a result, we face competition from various domestic and international players. We compete with other traders based on service quality, price, and reliability. We believe that the scale and scope of our operations allow us to meet our customers' requirements better than the smaller traders. However, due to the fragmented nature of the industry, our company lacks access to authentic data on the total industry size and our market share compared to competitors.

In our industry, we consider quality, technical ability, performance record, sustainable relationships with existing clients and vendors, the use of technologically upgraded plant and machinery, timely delivery, and reliability as the principal elements of competition. We strive to establish ourselves as a knowledge-based production unit with industry expertise, enabling us to provide our clients with quality products. However, it is essential to note that price often becomes the deciding factor in most cases.

COLLABORATION

There is no collaboration as on the date of filing of this Red Herring Prospectus.

MAJOR CUSTOMERS AND SUPPLIERS

We majorly procure our raw materials and sell our products to various organizations / wholesalers. The following is the breakup of top five and top ten customers and suppliers of our Company for the fiscal year ended on March 31, 2024 are as below:

(Amount in Lakhs)

Particulars	Customers		Suppliers	
	Amount	Percentage	Amount	Percentage
Top 5	20,787.30	63.67%	19,987.59	65.66%
Top 10	24,011.78	73.54%	24,195.17	79.49%

HUMAN RESOURCES

We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. Our company looks for specific skill sets, interests and background that would be an asset for our business.

As on July 10, 2024, we had 98 full time employees which include Accounts & Finance, Compliance, Maintenance, Marketing & Logistics, Production & Operations, Quality, Top Level Management and Permanent Labour. We seek to maintain a culture of innovation by empowering our employees at all levels of our organization. Our success depends upon our ability to attract, develop, motivate and retain highly skilled and multi-dimensional team members. Our people management strategy is based on four key components: recruiting, training and development, compensation and retention.

Function	Number of Employees on Company Payroll
Top Level Management	5
Accounts & Finance	3
Administration	9
Human Resource	1
Legal & Compliance	1
Logistics	3
Production & Operations	72
Sales and Marketing	4
Grand Total	98

Further, we have not experienced any strikes, work stoppages, labor disputes or actions by or with our employees, and we have cordial relationship with our employees.

The Company does not employ contractual employees instead, the company regularly outsources certain production processes to contractors and pays them on the basis of actual production rather than on fixed or day basis. This helps the company to control the costs and focus on getting more production with greater efficiency.

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies that are available in the public domain. The regulations and policies set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For details of such approvals, please see the section titled “Government and other Approvals” on page 307.

A. STATUTORY AND COMMERCIAL LAWS

The Companies Act, 2013 & Companies Act, 1956

The Companies Act, 2013, has replaced the Companies Act, 1956, in a phased manner. The Companies Act, 2013 received the assent of the President of India on August 29, 2013. At present, almost all the provisions of this law have been made effective except a few to which extent the Companies Act, 1956, is still applicable. The Ministry of Corporate Affairs has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013. The Companies Act primarily regulates the formation, financing, functioning, and winding up of companies. The Companies Act, 2013 prescribes regulatory mechanisms regarding all relevant aspects including organizational, financial and managerial aspects of companies.

Indian Contract Act, 1872

The Indian Contract Act, 1872 (“**Contract Act**”) codifies the way in which a contract is entered, executed, and implemented and the implications of a breach of a contract. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced, as amended from time to time. It determines the circumstances in which a promise made by the parties to a contract shall be legally binding on them. Each contract creates some rights and duties upon the contracting parties. The Contract Act deals with the enforcement of these rights and duties upon the parties. The Contract Act also lays down provisions of indemnity, guarantee, bailment, and agency. Provisions relating to the sale of goods and partnerships which were originally in the Act are now the subject matter of separate enactments viz., the Sale of Goods Act, 1930 and the Indian Partnership Act 1932. The objective of the Contract Act is to ensure that the rights and obligations arising out of a contract are honored and that legal remedies are made available to those who are affected.

Competition Act, 2002

The Competition Act, 2002 (“**Competition Act**”) prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates “combinations” in India. The Competition Act also established the Competition Commission of India (“**CCI**”) as the authority under the Competition Act. The provisions of the Competition Act relating to combinations were notified recently on 4th March, 2011 and came into effect on 1st June, 2011. Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act. A combination is defined under Section 5 of the Competition Act as an acquisition, merger, or amalgamation of enterprise(s) that meets certain asset or turnover thresholds. There are also different thresholds for those categorized as individuals and groups. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India. Effective from June 01, 2011, all combinations have to be notified to the CCI within thirty (30) days of the execution of any agreement or other document for any acquisition of assets, shares, voting rights, or control of an enterprise under Section 5(a) and Section 5(b) of the Competition Act (including any binding document conveying an agreement

or decision to acquire control, shares, voting rights or assets of an enterprise); or the board of directors of a company (or an equivalent authority in case of other entities) approving a proposal for a merger or amalgamation under Section 5(c) of the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

Consumer Protection Act, 2019

The Consumer Protection Act, 2019 ("**Consumer Act**"), has repealed Consumer Protection Act, 1986 and provides for the protection of interest of the consumers and the settlement of disputes raised by the consumers. The provisions of the Consumer Protection Act, 2019 have been made effective vide notification no. F. No. J-9/1/2020-CPU dated July 23, 2020 and notification no. F. No. J-9/1/2020-CPU dated July 15, 2020 as issued by the Central Government. The Consumer Act sets out a mechanism for consumers to file complaints against, inter alia, service providers in cases of deficiencies in services, unfair or restrictive trade practices and excessive pricing. A three-tier consumer grievance redressal mechanism has been implemented pursuant to the Consumer Act, at the national, state and district levels. Further, the Consumer Act established a Central Consumer Protection Authority to promote, enforce and protect the rights of consumers. If the allegations specified in a complaint about the services provided are proved, the service provider can be directed to inter alia remove the deficiencies in the services in question, return to the complainant the charges paid by the complainant and pay compensation, including punitive damages, for any loss or injury suffered by the consumer. Noncompliance with the orders of the authorities may attract criminal penalties in the form of fines and/or imprisonment.

Legal Metrology Act, 2009

The Legal Metrology Act, 2009 ("**LM Act**") seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods that are sold or distributed by weight, measure, or number. The LM Act and rules framed thereunder regulate, inter alia, the labeling and packaging of commodities, verification of weights and measures used, and lists penalties for offences and compounding of offenses under it. The Controller of the Legal Metrology Department is the competent authority to grant the license under the LM Act. Any manufacturer dealing with instruments for weights and measuring of goods must procure a license from the state department under the LM Act.

The Legal Metrology (Packaged Commodities) Rules, 2011 ("**Packaged Commodities Rules**") were framed under Section 52(2) (j) and (q) of the LM Act and lay down specific provisions applicable to packages intended for retail sale, wholesale and for export and import. A "pre-packaged commodity" means a commodity which without the purchaser being present is placed in a package of a pre-determined quantity. The key provisions of the Packaged Commodities Rules provide that it is illegal to manufacture, pack, sell, import, distribute, deliver, offer, expose or possess for sale any pre-packaged commodity unless the package is in such standard quantities or number and bears thereon such declarations and particulars as prescribed. Further, all pre-packaged commodities must conform to the declarations provided thereon as per the requirement of Section 18(1) of the LM Act and no pre-packaged commodity shall be packed with error in net quantity beyond the limit prescribed in the first schedule of the Packaged Commodity Rules. The Packaged Commodity Rules were amended in the year 2017 to increase protection granted to consumers. Some recent additions include increased visibility of retail price, removal of dual maximum retail price and bringing e-commerce within the ambit of these rules.

The Sale of Goods Act, 1930

The Sale of Goods Act, 1930 ("**Sale of Goods Act**") governs contracts relating to the sale of goods. The contracts for the sale of goods are subject to the general principles of the law relating to contracts i.e. the Contract Act. A contract for the sale of goods has, however, certain peculiar features such as transfer of ownership of the goods, delivery of goods, rights, and duties of the buyer and seller, remedies for

breach of contract, conditions, and warranties implied under a contract for sale of goods, etc. which are the subject matter of the provision of the Sale of Goods Act.

B. LEGISLATIONS RELATING TO LABOUR AND EMPLOYMENT

Employees State Insurance Act, 1948

Employees State Insurance Act, 1948 (“ESI Act”) as amended, provides for certain benefits to employees in case of sickness, maternity, and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers.

Employees Provident Fund and Miscellaneous Provisions Act, 1952, and the schemes formulated there under

This Employees Provident Fund and Miscellaneous Provisions Act, 1952 (“EPF Act”) provides for the institution of provident funds, family pension funds, and deposit-linked insurance funds for the employees in factories and other establishments. Accordingly, the following schemes are formulated for the benefit of such employees:

- (i) **The Employees Provident Fund Scheme, 1952:** As per this scheme, a provident fund is constituted and both the employees and employer contribute to the fund at the rate of 12% (or 10% in certain cases) of the basic wages, dearness allowance and retaining allowance, if any, payable to employees per month.
- (ii) **The Employees’ Pension Scheme, 1995:** The employees’ pension scheme is a pension scheme for survivors, old aged and disabled persons. This scheme derives its financial resources by partial diversion from the provident fund contribution, the rate is 8.33%. Thus, a part of the contribution representing 8.33% of the employee’s pay shall be remitted by the employer to the employee’s pension fund within fifteen (15) days of the close of every month by a separate bank draft or cheque on account of the employees’ pension fund contribution in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.
- (iii) **The Employees Deposit Linked Insurance Scheme, 1976:** As per this scheme, the contribution by the employer shall be remitted by him together with administrative charges at such rate as the Central Government may fix from time to time under Section 6C (4) of the EPF Act, to the insurance fund within fifteen (15) days of the close of every month by a separate bank draft or cheque or by remittance in cash in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”) provides for the protection of women at the workplace and the prevention of sexual harassment at the workplace. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviors namely, physical contact and advances a demand or request for sexual favors or making sexually colored remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of a sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an internal complaints committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the internal complaints committee i.e., a written complaint is to be made within a period of three (3) months from the date of the last incident. If the establishment has less than ten (10) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be

received by the local complaints committee. The penalty for non-compliance with any provision of the SHWW Act shall be punishable with a fine extending to Rs. 50,000/- (Rupees Fifty Thousand Only).

The Factories Act, 1948

The Factories Act, 1948 (“**Factories Act**”) consolidates the law relating to labour in factories. The main objective of the Factories Act is to regulate the working conditions in factories, to regulate health, safety welfare, and annual leave, and to enact special provisions with respect of young persons, women, and children who work in factories. Any factory that fulfills the criteria given in the Factories Act is required to obtain registration under the Factories Act. Under the Factories Act, the State Government of Rajasthan has made rules namely **Rajasthan Factories Rules, 1951**, mandating approval for proposed factories and requiring licensing and registration of factories.

The Payment of Wages Act, 1936

The Payment of Wages Act applies to the persons employed in the factories and to persons employed in industrial or other establishments, either directly or indirectly through a sub-contractor, where the monthly wages payable to such persons is less than ₹ 24,000/-. The Act confers on the person(s) responsible for payment of wages certain obligations with respect to the maintenance of registers and the display in such factory/establishment, of the abstracts of this Act and Rules made there under.

In order to rationalize and reform all labour laws in India, the Government of India has notified four labour codes that are yet to come into force as of the date of this Red Herring Prospectus, which are as follows:

(i) The Code on Social Security, 2020*

The Code on Social Security, 2020 has been passed by both houses of parliament and has received the assent of the President on September 28, 2020. However, the Code on Social Security will be in force from such date the Central Government by notification may appoint and is yet to be notified. The said code will subsume various social security, retirement and employee benefits laws like the ESI Act, EPF Act, Maternity Benefit Act, Payment of Gratuity Act, etc.

(ii) The Code on Wages, 2019*

The Ministry of Law and Justice, Government of India enacted the Code on Wages, 2019 (“**Wage Code**”) on August 8, 2019, which seeks to amend and consolidate the laws relating to wages and bonus and matters connected therewith or incidental thereto. The Wage Code will be in force from such date the Central Government by notification may appoint and is yet to be notified. The Wage Code subsumes the provisions of the Payment of Wages Act, of 1936, the Minimum Wages Act, of 1948, the Payment of Bonus Act, of 1965 and the Equal Remuneration Act, of 1976.

(iii) Industrial Relations Code, 2020*

The Industrial Relations Code, 2020 received the assent of the President of India on September 28, 2020, and it proposes to subsume three existing legislations, namely, the Industrial Disputes Act, 1947, the Trade Unions Act, 1926, and the Industrial Employment (Standing Orders) Act, 1946. The provisions of this code will be brought into force on a date to be notified by the appropriate government.

(iv) Occupational Safety, Health and Working Conditions Code, 2020*

The Ministry of Law and Justice, Government of India has published the Occupational Safety, Health and Working Conditions Code, 2020 (“**OSH Code**”) on 29th September 2020 and the same will be in force from such date the Central Government by notification may appoint. However, the same has not been notified yet, the OSH Code aims to consolidate and amend the laws regulating the occupational safety, health, and working conditions of the persons employed in an establishment and for matters connected therewith or incidental thereto. The OSH Code has subsumed several key pieces of legislation on the working conditions of labour and consolidated them into one

comprehensive act, including, inter alia, the Contract Labour (Regulation and Abolition) Act, 1970, the Factories Act, 1948, etc.

** These codes shall become effective on the day that the Government shall notify for this purpose.*

Shops and Establishment Laws

The shops and establishment laws govern a company in the states where it has offices/godowns/shops. It regulates the conditions of work and employment in shops and commercial establishments and generally prescribes obligations in respect of registration, opening and closing hours, daily and weekly working hours, health and safety measures, and wages for overtime work. The state laws relevant to the Company are the Shops and Commercial Establishments laws as applicable in the state of Rajasthan.

The Payment of Bonus Act, 1965

The Payment of Bonus Act, 1965, as amended (“**PoB Act**”) provides for payment of minimum bonuses to factories, and every other establishment in which 20 or more persons are employed and requires maintenance of certain books and registers and filing of monthly returns showing computation of allocable surplus, set on and set off of allocable surplus and bonus due. The minimum bonus to be paid to each employee is 8.33% of the annual salary or wage or ₹100, whichever is higher.

Maternity Benefit Act, 1961

The Maternity Benefit Act, 1961 (“**Maternity Act**”) provides for leave and the right to payment of maternity benefits to women employees in case of confinement or miscarriage, etc. The Maternity Act is applicable to every establishment being a factory, mine, or plantation inter alia to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a State, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months; provided that the State Government may, with the approval of the Central Government, after giving at least two months’ notice shall apply any of the provisions of the Maternity Act to any specific establishments or class of establishments, industrial, commercial, agricultural or otherwise. The Maternity Benefit (Amendment) Act, 2017 amended the Maternity Act to provide for the increase of paid maternity leave from 12 to 26 weeks unless the mother has two or more surviving children and introduced a mandatory provision for creche facilities for employers with more than 50 employees.

The Minimum Wages Act, 1948

The Minimum Wages Act, 1948, as amended (“**Minimum Wages Act**”) provides a framework for State Governments to stipulate the minimum wage applicable to a particular industry. The minimum wage may consist of a basic rate of wages and a special allowance, or a basic rate of wages and the cash value of concessions in respect of supplies of essential commodities, or an all-inclusive rate allowing for the basic rate, the cost of living allowance and the cash value of the concessions, if any. Workmen are to be paid for overtime at overtime rates stipulated by the appropriate government.

C. ENVIRONMENTAL LAWS

Environment Protection Act, 1986

The purpose of the Environment Protection Act, 1986 (“**EPA**”) is to act as an umbrella legislation providing a framework for Central Government to co-ordinate of environment protection activities of various central and state authorities. The said Act prohibits a person carrying on business, operations, process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed by the Government in this regard.

Water (Prevention and Control of Pollution) Act, 1974

The Water (Prevention & Control of Pollution) Act, 1974 (“**Water Act**”) provides for the prevention and control of water pollution and the maintaining or restoring of wholesomeness of water, for the

establishment, with a view to carrying out the purposes aforesaid, of pollution control boards for the prevention and control of water pollution, for conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith. Under the provisions of Water Act, an entrepreneur running or establishing any industry or process, and discharging effluent/emitting pollutants into any water resources or on land/air and polluting thereby the environmental water/air is required to obtain consent.

Air (Prevention and Control of Pollution) Act, 1981

The Air (Prevention & Control of Pollution) Act, 1981 (“**Air Act**”) provides for the prevention, control, and abatement of air pollution, for the establishment, with a view to carrying out the aforesaid purposes, of Boards, for conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith. Under the provisions of the Air Act, an entrepreneur running or establishing any industry or process, and discharging effluent/emitting pollutants into the air and polluting the environmental air is required to obtain consent.

D. TAX LAWS

The Income Tax Act, 1961

The Income Tax Act, 1961 (“**Tax Act**”) deals with the taxation of individuals, corporate, partnership firms, and others. As per the provisions of the Tax Act, the rates at which they are required to pay tax are calculated on the income declared by them or assessed by the authorities, after availing the deductions and concessions accorded under the Act. The maintenance of books of accounts and relevant supporting documents and registers are mandatory under the Tax Act. Filing of returns of income is compulsory for all assesses. The maintenance of books of accounts and relevant supporting documents and registers are mandatory under the Tax Act.

The Central Goods and Services Tax Act, 2017

The Central Goods and Services Tax Act, 2017 (“**GST Act**”) levies indirect tax throughout India to replace many taxes levied by the Central and State Governments. The GST Act was applicable from July 1, 2017, and combined the Central Excise Duty, Commercial Tax, Value Added Tax (VAT), Food Tax, Central Sales Tax (CST), Introit, Octroi, Entertainment Tax, Entry Tax, Purchase Tax, Luxury Tax, Advertisement Tax, Service Tax, Customs Duty, Surcharges. GST is levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India has adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state are levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that state. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax; therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produced.

The Customs Act, 1962 and Customs Tariff Act, 1975.

The stipulations prescribed by the Customs Act of 1962 and its corresponding regulations are enforceable during the importation of goods into India from foreign territories, as well as during the exportation of goods from India to foreign destinations. Additionally, the Customs Tariff Act of 1975 establishes the applicable rates for the imposition of customs duties as per the provisions outlined in the Customs Act of 1962.

E. INTELLECTUAL PROPERTY LAWS

The Trade Marks Act, 1999

The Trade Marks Act, 1999 (“**TM Act**”) provides for the process for making an application and obtaining registration of trademarks in India. The purpose of the TM Act is to grant exclusive rights to marks such as a brand, label, and to obtain relief in case of infringement for commercial purposes as a trade

description. The TM Act prohibits the registration of deceptively similar trademarks and provides for penalties for infringement, falsifying, and falsely applying trademarks.

F. FOREIGN INVESTMENT REGULATIONS

Foreign Investment Regulations

In terms of the Consolidated FDI Policy, 2020, issued by the Department for Promotion of Industry and Internal Trade (formerly, Department of Industrial Policy and Promotion), 100% foreign investment is permitted under automatic route in the manufacturing sector.

Foreign Trade (Development and Regulation) Act, 1992, and the Foreign Trade Policy of India, 2023

The Foreign Trade (Development and Regulation) Act, 1992 (“FTA”) seeks to increase foreign trade by regulating imports and exports to and from India. It authorizes the Government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The government has also been given wide power to prohibit, restrict, and regulate exports and imports in general as well as in specified cases of foreign trade. The Foreign Trade Policy of India, 2023 is notified by Central Government, in the exercise of powers conferred under Section 5 of the FTA, as amended. In accordance with Policy 2023, an entity is required to mandatorily apply for the Importer-Exporter Code (“IEC”) for undertaking import/export activities. An importer-exporter code number allotted to an applicant is valid for all its branches, divisions, units, and factories. Failure to obtain the IEC number shall attract a penalty under the FTA. Further, in accordance with Chapter 5 of Policy 2023, the EPCG Scheme allows the import of capital goods (except those specified in the negative list in Appendix 5 F) for preproduction, production, and post-production at zero customs duty.

Foreign Exchange Management Act, 1999, and rules and regulations framed thereunder

Foreign investment in India is governed primarily by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”) which relates to regulation primarily by the RBI and the rules, regulations, and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India. As laid down by the FEMA Regulations (as defined hereunder), no prior consents and approvals are required from the RBI, for foreign direct investment (“FDI”) under the ‘automatic route’ within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in the exercise of its power under the FEMA, has notified the Foreign Exchange Management (Non-debt Instruments) Rules, 2019 vide notification F.No. 1/14/EM/2015 dated October 17, 2019 (“FEMA Regulations”) which governs transfer by or issue security to a person resident outside India. FEMA Regulations repealed the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2017, and Foreign Exchange Management (Acquisition and Transfer of Immovable Property in India) Regulations, 2018.

Foreign Direct Investment Policy, 2020

With the intent and objective of the Government of India to attract and promote foreign direct investment in order to supplement domestic capital, technology, and skills, for accelerated economic growth. The Government of India has put in place a policy framework on Foreign Direct Investment, which is transparent, predictable, and easily comprehensible. This framework is embodied in the Circular on Consolidated FDI Policy, which may be updated every year, to capture and keep pace with the regulatory changes, effected in the interregnum. The Department of Industrial Policy and Promotion (DIPP), Ministry of Commerce & Industry, Government of India makes policy pronouncements on FDI through press notes/press releases which are notified by the RBI as amendments to the Foreign Exchange Management (Transfer or Issue of Security by Persons Resident Outside India) Regulations, 2000. These notifications take effect from the date of issue of press notes/ press releases unless specified otherwise therein. In case of any conflict, the relevant FEMA Notification will prevail. The procedural instructions are issued by the RBI vide A.P. (DIR Series) Circulars. The regulatory framework, over a period of time, thus, consists of Acts, Regulations, Press Notes, Press Releases, Clarifications, etc

Export Promotion Capital Goods Scheme

The Export Promotion Capital Goods Scheme (“**EPCG Scheme**”) has been introduced to facilitate the import of capital goods for producing quality goods and services to enhance India’s export competitiveness. EPCG Scheme covers manufacturer exporters with or without supporting manufacturer(s), merchant exporters tied to supporting manufacturer(s), and service providers. The EPCG Scheme also covers a service provider who is designated/certified as a Common Service Provider by the Directorate General of Foreign Trade (“**DGFT**”).

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("ICAI"), as amended from time to time (the "Guidance Note").

The Restated Financial Information have been prepared to contain information/disclosures and incorporating adjustments set out below in accordance with the ICDR Regulations:

Adjustments to the profits or losses of the earlier years for the changes in accounting policies if any to reflect what the profits or losses of those years would have been if a uniform accounting policy was followed in each of these years and of material errors, if any;

Adjustments for reclassification/regroupings of the corresponding items of income, expenses, assets and liabilities retrospectively in the year ended March 31, 2024, March 31, 2023 and March 31, 2022, in order to bring them in line with the groupings as per the Restated Financial Information of the company for the year ended March 31, 2024 and the requirements of the SEBI Regulations, if any; and

The resultant impact of tax due to the aforesaid adjustments, if any.

The company follows historical cost convention and accrual method of accounting in the preparation of the financial statements, except otherwise stated.

The Restated Financial Information are presented in Indian Rupees (INR) except otherwise stated.

These Restated financial statements of the Company are prepared in accordance with Indian Accounting Standard ("Ind AS") notified under the Companies Act, 2013 ("the Act").

1.3.1 Basis of Preparation and Presentation

The Financial Statements have been prepared on the historical cost basis except for following assets and liabilities which have been measured at fair value amount:

- (a) Certain Financial Assets and Liabilities (including derivative instruments if any), and
- (b) Defined Benefit Plans – Plan Assets

The financial statements of the Company have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013.

These financial statements are the Company's first Ind AS financial statements.

The Company's Financial Statements are presented in Indian Rupees, which is also its functional currency

1.3.2 Fair Value Measurement

Some of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

of fair values. This includes a financial reporting team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

The financial reporting team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as pricing services, is used to measure fair values, then the financial reporting team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

1.3.3 Current and Non-Current Classification

The Company presents assets and liabilities in the Balance Sheet based on Current /Non- Current classification.

An asset is treated as Current when it is –

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

1.3.4 Property, Plant and Equipment

(a) Tangible Assets

Property, Plant and Equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Property, Plant and Equipment which are significant to the total cost of that item of Property, Plant and Equipment and having different useful life are accounted separately.

Other Indirect Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre-operative expenses and disclosed under Capital Work-in-Progress.

Depreciation

Free hold land is not depreciated. Leasehold land and the improvement costs are amortized over the period of the lease. Depreciation on Property, Plant and Equipment is provided using Straight Line Method (SLM). Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Derecognition

Gains or losses arising from derecognition of a Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

(b) Capital Work-in-Progress and Capital Advances

Cost of Property, Plant and Equipment not ready for intended use, as on the balance sheet date, is shown as a "Capital Work-in-Progress". The Capital Work-in-Progress is stated at cost. Any expenditure in relation to survey and investigation of the properties is carried as Capital Work-in-Progress. Such expenditure is either capitalized as cost of the projects on completion of construction project or the same is expensed in the period in which it is decided to abandon such project. Any advance given towards acquisition of Property, Plants and Equipment outstanding at each balance sheet date is disclosed as "Other Non-Current Assets".

(c) Intangible Assets

Intangible Assets are stated at cost of acquisition net of recoverable taxes, trade discount and rebates less accumulated amortisation/depletion and impairment losses, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the Intangible Assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Amortization

The amortization expenses on Intangible assets with the finite lives are recognized in the Statement of Profit and Loss. The amortization period and the amortization method for an intangible asset with finite useful life is reviewed at each financial year end and adjusted prospectively, if appropriate.

Derecognition

Gains or losses arising from derecognition of an Intangible Asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

1.3.5 Impairment of Non-Financial Assets – Property, Plant and Equipment and Intangible Assets

The Company assesses at each reporting date as to whether there is any indication that any Property, Plant and Equipment and Intangible Assets or group of Assets, called Cash Generating Units (CGU) may be impaired. If any such indication exists, the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

There are no losses from impairment of assets to be recognized in the financial statements.

1.3.6 Lease

(a) The Company as a Lessee

The Company, as a lessee, recognises a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset.

The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any, and adjusted for any remeasurement of the lease liability. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

(b) The Company as a Lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

1.3.7 Investment Properties

Items of investment properties are measured at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for its intended use. Investment properties are depreciated on straight line method on pro-rata basis at the rates specified therein. Subsequent expenditure including cost of major overhaul and inspection is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

1.3.8 Inventories

Items of inventories under raw material, Work in Progress and consumables are measured at cost and Finished good and other items are valued at cost and net realizable value w.e. less after providing for obsolescence, if any. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads net of recoverable taxes incurred in bringing them to their respective present location and condition.

1.3.9 Borrowing Costs

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

1.3.10 Employee Benefits

(A) Short-Term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

(B) Post-Employment Benefits

(i) Defined Contribution Plans

The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to a reduction in future payment or a cash refund.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

(ii) Defined Benefit Plans

(a) Gratuity Scheme: The Company pays gratuity to the employees who have completed five years of service with the Company at the time of resignation/superannuation. The gratuity is paid @ 15 days basic salary and dearness allowances for every completed year of service as per the Payment of Gratuity Act, 1972. The liability in respect of gratuity and other post-employment benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Remeasurement gains and losses arising from adjustments and changes in actuarial assumptions are recognised in the period in which they occur in Other Comprehensive Income.

(iii) Other Long - Term Employee Benefits

Entitlement to annual leave is recognized when they accrue to employees.

1.3.11 Revenue Recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services.

The Company has generally typically controls the goods or services before transferring them to the customer.

Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue from rendering of services is recognised on when the services are rendered and related cost are incurred over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Revenue is measured at the amount of consideration which the Company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognised when it becomes unconditional.

Export Incentives

Export incentive revenues are recognized when the right to receive the credit is established and there is no significant uncertainty regarding the ultimate collection.

Interest Income

Interest Income from a Financial Assets is recognised using effective interest rate method.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

Dividend Income

Dividend Income is recognised when the Company's right to receive the amount has been established.

Provision for Price Variation

In accordance with the prevailing international market practice, the purchase and sale of copper products are accounted for on provisional invoice basis pending final invoice in terms of purchase contract/ order pending on the price of LME.

Company is following practice of recognizing the difference of the value of provisional invoice and final invoice of its customers whose final invoice could not be raised in the current financial year by way of price variation claims which is included in the turnover of the company.

Surplus / (Loss) on disposal of Property, Plants and Equipment / Investments

Surplus or loss on disposal of property, plants and equipment or investment is recorded on transfers of title from the Company, and is determined as the difference between the sales price and carrying value of the property, plants and equipment or investments and other incidental expenses.

Rental Income

Rental income arising from operating lease on investments properties is accounted for on a straight - line basis over the lease term except the case where the incremental lease reflects inflationary effect and rental income is accounted in such case by actual rent for the period.

Insurance Claim

Claim receivable on account of insurance is accounted for to the extent the Company is reasonably certain of their ultimate collections.

Other Income

Revenue from other income is recognized when the payment of that related income is received or credited.

1.3.12 Foreign Currency Transactions and Translation

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets which are capitalised as cost of assets.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in Other Comprehensive Income or Statement of Profit and Loss are also recognised in Other Comprehensive Income or Statement of Profit and Loss, respectively).

1.3.13 Government Grants and Subsidies

Grants in the nature of subsidies which are non-refundable are recognized as income where there is reasonable assurance that the Company will comply with all the necessary conditions attached to them. Income from grants is recognized on a systematic basis over periods in which the related costs that are intended to be compensated by such grants are recognized.

Refundable government grants are accounted in accordance with the recognition and measurement principle of Ind AS 109, "Financial Instruments". It is recognized as income when there is a reasonable assurance that the Company will comply with all necessary conditions attached to the grants. Income from such benefit is recognized on a systematic basis over the period of the grants during which the Company recognizes interest expense corresponding to such grants.

1.3.14 Financial Instruments – Financial Assets

(A) Initial Recognition and Measurement

All Financial Assets are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of Financial Assets, which are not at Fair Value Through Profit or Loss, are adjusted to the fair value on initial recognition. Purchase and sale of Financial Assets are recognised using trade date accounting.

(B) Subsequent Measurement

a) Financial Assets measured at Amortised Cost (AC)

A Financial Asset is measured at Amortised Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise to cash flows on specified dates that represent solely payments of principal and interest on the principal amount outstanding.

b) Financial Assets measured at Fair Value Through Other Comprehensive Income (FVTOCI)

A Financial Asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets and the contractual terms of the Financial Asset give rise on specified dates to cash flows that represents solely payments of principal and interest on the principal amount outstanding.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

Further, the Company, through an irrevocable election at initial recognition, has measured certain investments in equity instruments at FVTOCI. The Company has made such election on an instrument-by-instrument basis. These equity instruments are neither held for trading nor are contingent consideration recognized under a business combination. Pursuant to such irrevocable election, subsequent changes in the fair value of such equity instruments are recognized in OCI. However, the Company recognizes dividend income from such instruments in the Statement of Profit and Loss.

c) Financial Assets measured at Fair Value Through Profit or Loss (FVTPL)

A Financial Asset which is not classified in any of the above categories is measured at FVTPL. Financial assets are reclassified subsequent to their recognition, if the Company changes its business model for managing those financial assets. Changes in business model are made and applied prospectively from the reclassification date which is the first day of immediately next reporting period following the changes in business model in accordance with principles laid down under Ind AS 109 – Financial Instruments.

(C) Investments

Investments are classified in to Current or Non-Current Investments. Investments that are readily realizable and intended to be held for not more than a year from the date of acquisition are classified as Current Investments. All other Investments are classified as Non - Current Investments. However, that part of Non - Current Investments which are expected to be realized within twelve months from the Balance Sheet date is also presented under "Current Investments" under "Current portion of Non-Current Investments" in consonance with Current/Non-Current classification of Schedule - III of the Act.

All the equity investment which covered under the scope of Ind AS 109, "Financial Instruments" is measured at the fair value. Investment in Mutual Fund is measured at fair value through profit and loss (FVTPL). Trading Instruments are measured at fair value through profit and loss (FVTPL).

(D) Investment in Subsidiaries, Associates and Joint Ventures

The Company has accounted for its investments in Subsidiaries, associates and joint venture at cost less impairment loss (if any).

(E) Impairment of Financial Assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of Financial Assets other than those measured at Fair Value Through Profit and Loss (FVTPL).

1.3.15 Financial Instruments – Financial Liabilities

(A) Initial Recognition and Measurement

All Financial Liabilities are recognised at fair value and in case of borrowings, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

(B) Subsequent Measurement

Financial Liabilities are carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

1.3.16 Derivative Financial Instruments and Hedge Accounting

The Company enters into derivative contracts in the nature of forward currency contracts with external parties to hedge its foreign currency risks relating to foreign currency denominated financial assets measured at amortised cost.

The Company formally establishes a hedge relationship between such forward currency contracts ('hedging instrument') and recognised financial assets ('hedged item') through a formal documentation at the inception of the hedge relationship in line with the Company's Risk Management objective and strategy.

The hedge relationship so designated is accounted for in accordance with the accounting principles prescribed for a cash flow hedge under Ind AS 109, 'Financial Instruments'.

Recognition and measurement of cash flow hedge:

The Company strictly uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. As per Ind AS 109 - Financial Instruments, foreign currency forward contracts are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised in hedge reserve (under reserves and surplus) through other comprehensive income and the ineffective portion is recognised immediately in the statement of profit and loss.

The accumulated gains / losses on the derivatives accounted in hedge reserve are transferred to the statement of profit and loss in the same period in which gains / losses on the underlying item hedged are recognised in the statement of profit and loss.

Derecognition:

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. When hedge accounting is discontinued for a cash flow hedge, the net gain or loss will remain in hedge reserve and be reclassified to the statement of profit and loss in the same period or periods during which the formerly hedged transaction is reported in the statement of profit and loss. If a hedged transaction is no longer expected to occur, the net cumulative gains / losses recognised in hedge reserve is transferred to the statement of profit and loss.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

Fair Value Hedge:

The Company designates derivative contracts or non-derivative Financial Assets/Liabilities as hedging instruments to mitigate the risk of change in fair value of hedged item due to movement in interest rates, foreign exchange rates and commodity prices.

Changes in the fair value of hedging instruments and hedged items that are designated and qualify as fair value hedges are recorded in the Statement of Profit and Loss. If the hedging relationship no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to Statement of Profit and Loss over the period of maturity.

1.3.17 Derecognition of Financial Instruments

The Company derecognises a Financial Asset when the contractual rights to the cash flows from the Financial Asset expire or it transfers the Financial Asset and the transfer qualifies for derecognition under Ind AS 109. A Financial liability (or a part of a financial liability) is derecognised from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

1.3.18 Financial Instruments – Offsetting

Financial Assets and Financial Liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Company has a legally enforceable right to set off the amount and it intends, either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

1.3.19 Taxes on Income

The tax expenses for the period comprises of current tax and deferred income tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the Other Comprehensive Income. In which case, the tax is also recognised in Other Comprehensive Income.

(a) Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the Income Tax authorities, based on tax rates and laws that are enacted at the Balance sheet date.

(b) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax losses can be utilised. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

(Financial Statements as at 31st March 2024)

Presentation

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

1.3.20 Segment Reporting

Segments are identified having regard to the dominant source and nature of risks and returns and the internal organization and management structure. The company primarily operates in non-ferrous metal segment of business hence looking to the nature of business segment reporting is not applicable to company

1.3.21 Research and Development

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss as and when incurred.

Development costs are capitalised as an intangible asset if it can be demonstrated that the project is expected to generate future economic benefits, it is probable that those future economic benefits will flow to the entity and the costs of the asset can be measured reliably, else it is charged to the Statement of Profit and Loss.

1.3.22 Earnings per Share

Basic earnings per share is calculated by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year adjusted for bonus element in equity share. Diluted earnings per share adjusts the figures used in determination of basic earnings per share to take into account the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as at the beginning of the period unless issued at a later date.

1.3.23 Provisions, Contingent Liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

Disclosure of contingent liability is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources embodying economic benefits will be required to settle or a reliable estimate of amount cannot be made.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)
(Financial Statements as at 31st March 2024)

1.3.24 Events after Reporting Date

Where events occurring after the Balance Sheet date provide evidence of condition that existed at the end of reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

1.3.25 Non – Current Assets Held For Sales

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and sale is considered highly probable.

A sale is considered as highly probable when decision has been made to sell, assets are available for immediate sale in its present condition, assets are being actively marketed and sale has been agreed or is expected to be concluded within 12 months of the date of classification.

Non-current assets held for sale are neither depreciated nor amortised.

Assets and liabilities classified as held for sale are measured at the lower of their carrying amount and fair value less cost of sale and are presented separately in the Balance Sheet.

1.3.26 Cash Flows Statement

Cash Flows Statements are reported using the method set out in the Ind AS – 7, "Cash Flow Statements", whereby the Net Profit / (Loss) before tax is adjusted for the effects of the transactions of a Non-Cash nature, any deferrals or accrual of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

1.3.27 Cash and Cash Equivalents

Cash and cash equivalents comprise of cash on hand, cash at banks, short-term deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Total	1,496.19		

Note : The company participates in various supply chain finance programs under which participating suppliers may voluntarily elect to sell some of all of their Company receivables to third-party financial institutions. Supplier participation in the programs is solely up to the supplier, and participating suppliers enter their arrangements directly with the financial institutions. The Company and its suppliers agree on the contractual terms for the goods and services it procure, including prices, quantities and payment terms, regardless of whether the supplier elects to participate in these programs. The suppliers' voluntary inclusion of invoices in these programs has no bearing on our payment terms. Further, the company has no economic interest in a supplier's decision to participate in these programs; As at 31st March '24, confirmed supplier invoices that are outstanding and subject to the third-party programs included in accounts payable on the balance sheets were 1,496.19 Lakhs, The company do not believe that future changes in the availability of supply chain financing will have a significant impact on the company's liquidity.

Nominal Value of Equity Shares	10.00	10.00	10.00

Annexure - 32- Details of Employee Benefits:

The Company has the following post-employment benefit plans:

A. Defined Contribution Plan

Contribution to defined contribution plan recognised as expense for the year is as under:

The Company offers its employees benefits under defined contribution plans in the form of provident fund. Provident fund cover substantially all regular employees which are on payroll of the company. Both the employees and the Company pay predetermined contributions into the provident fund and approved superannuation fund. The contributions are normally based on a certain proportion of the employee's salary and are recognised in the Statement of Profit and Loss as incurred.

Particulars	(Amount in Lakhs)		
	Year Ended March 31, 2024	Year Ended March 31, 2023	Year Ended March 31, 2022
Contribution to provident fund and other Fund	12.81	10.47	8.56

B. Defined Benefit Plan - Gratuity:

(i) The Company administers its employees' gratuity scheme unfunded liability. The present value of the liability for the defined benefit plan of gratuity obligation is determined based on actuarial valuation by an independent actuary at the period end, which is calculated using the projected unit credit method, which recognises each year of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

(ii) Gratuity benefits in India are governed by the Payment of Gratuity Act, 1972. The key features are as under

Benefits Offered	15/26 th salary* Duration of service
Salary Definition	Basic Salary including Dearness Allowance (if any)
Benefit Ceiling	Benefit Ceiling of Rs 20 Lakhs
Vesting Conditions	5 Years of Continuous Service (Not Applicable in Case of Death/ Disability)
Benefit Eligibility	Upon Death or resignation or withdrawal or retirement
Retirement Age	60 Years

(iii) Characteristics of defined benefit plans and risks associated with them:

Valuation of defined benefit plan are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above benefit plans which are as follows:

A. Actuarial Risk:

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse Salary Growth Experience:

Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

Notes to the Restated Financial Statements for the year ended 31st March, 2024

B. Investment Risk:

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

C. Liquidity Risk:

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cashflows.

D. Market Risk:

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

E. Legislative Risk:

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the period/year when any such amendment is effective.

Financial Risk Management – Objectives and Policies

The Company's financial liabilities mainly comprise the loans and borrowings in domestic currency, money related to capital expenditures, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's financial assets comprise mainly of security deposits, cash and cash equivalents, other balances with banks, trade and other receivables that derive directly from its business operations.

The Company is exposed to the Market Risk, Credit Risk and Liquidity Risk from its financial instruments.

The Management of the Company has implemented a risk management system which is monitored by the Board of Directors of the Company. The general conditions for compliance with the requirements for proper and future-oriented risk management within the Company are set out in the risk management principles. These principles aim at encouraging all members of staff to responsibly deal with risks as well as supporting a sustained process to improve risk awareness. The guidelines on risk management specify risk management processes, compulsory limitations, and the application of financial instruments. The risk management system aims to identify, assess, mitigate the risks in order to minimize the potential adverse effect on the Company's financial performance.

The following disclosures summarize the Company's exposure to the financial risks and the information regarding use of derivatives employed to manage the exposures to such risks. Quantitative Sensitivity Analysis has been provided to reflect the impact of reasonably possible changes in market rate on financial results, cash flows and financial positions of the Company.

(*) Investment in subsidiaries are measured at cost as per Ind AS 27, "Separate financial statements", and hence not presented here.

(**) Fair value of financial assets and liabilities measured at amortized cost approximates their respective carrying values as the management has assessed that there is no significant movement in factor such as discount rates, interest rates, credit risk from the date of the transition. The fair values are assessed by the management using Level 3 inputs.

(***) The financial instruments measured at FVTPL represents current investments and derivative assets having been valued using level 2 valuation hierarchy.

Fair value hierarchy

The fair value of financial instruments as referred to in note below has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market

Level 2: Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a net asset value or valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

B. Market Risk

Market Risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market Risk comprises three types of Risk: "Interest Rate Risk, Currency Risk and Other Price Risk". Financial instrument affected by the Market Risk includes loans and borrowings in foreign as well as domestic currency, retention money related to capital expenditures, trade and other payables.

(a) Interest Rate Risk

Interest Rate Risk is the risk that fair value or future cash outflows of a financial instrument will fluctuate because of changes in market interest rates. An upward movement in the interest rate would adversely affect the borrowing cost of the Company. The Company is exposed to long term and short - term borrowings. The Company manages interest rate risk by monitoring its mix of fixed and floating rate instruments and taking actions as necessary to maintain an appropriate balance. The Company has not used any interest rate derivatives.

(c) Other Price Risk

Other Price Risk is the Risk that the fair value of a financial instrument will fluctuate due to changes in market traded price. The Company is not exposed to price risk arising from investments in equity/equity-oriented instruments recognized at FVTPL/FVTOCI.

C. Credit Risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and other Financial assets measured at amortized cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

The Company assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets. (i) Low credit risk, (ii) Moderate credit risk, (iii) High credit risk.

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Financial assets (other than trade receivables) that expose the entity to credit risk are managed and categorized as follows:

Basis of categorisation	Asset class exposed to credit	Provision for expected credit loss
Low credit risk	Cash and cash equivalents, other bank balances, loans and other financial assets	12 months expected credit loss.
Moderate credit risk	other financial assets	12 month expected credit loss, unless credit risk has increased significantly since initial recognition, in which case allowance is measured at life time expected credit loss
High credit risk	other financial assets	Life time expected credit loss (when there is significant deterioration) or specific provision whichever is higher

Financial assets (other than trade receivables) that expose the entity to credit risk (Gross exposure): –

Rajputana Industries Limited

(Formerly Known as Rajputana Industries Private Limited)

Notes to the Restated Financial Statements for the year ended 31st March, 2024

(i) Cash and cash equivalent and bank balance:

Credit risk related to cash and cash equivalents and bank balance is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

(ii) Loans and Other financial assets measured at amortized cost:

Other financial assets measured at amortized cost includes Security Deposit to various authorities, Loans to staff and other receivables. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

(iii) Trade receivables:

Life time expected credit loss is provided for trade receivables. Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions. Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognized in statement of profit and loss.

(a) Concentration of trade receivables:

In order to avoid excessive concentrations of risk, the Group's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risk are controlled and managed accordingly. Details of the such identified concentrations of credit risk are disclosed below:

(a) Expected credit losses:

Expected credit loss for trade receivables under simplified approach:

The Company recognizes lifetime expected credit losses on trade receivables & other financial assets using a simplified approach, wherein Company has defined percentage of provision by analyzing historical trend of default based on the criteria defined below and such provision percentage determined have been considered to recognize life time expected credit losses on trade receivables (other than those where default criteria are met in which case the full expected loss against the amount recoverable is provided for). Further, the Company has evaluated recovery of receivables on a case to case basis. No provision on account of expected credit loss model has been considered for related party balances. The Company computes credit loss allowance based on provision matrix. The provision matrix is prepared on historically observed default rate over the expected life of trade receivable and is adjusted for forward - looking estimate. The provision matrix at the end of reporting period is as follows:

Particulars	Expected Loss Rate
All Receivables excluding Related Parties	0.50%

(Amount in Lakhs)

Movement in Expected Credit Loss Allowance on Trade Receivables	As at 31st March, 2024	As at 31st March, 2023	As at 31st March, 2022
Balance at the beginning of the reporting period	0.70	0.07	0.98
Loss Allowance measured at lifetime expected credit losses	5.87	0.63	(0.91)
Balance at the end of reporting period	6.57	0.70	0.07

D. Liquidity Risk

Liquidity Risk is the risk that the Company will encounter difficulty in raising the funds to meet the commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

(a) Financing arrangements:

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(Amount in Lakhs)

Particulars	As at 31st March, 2024	As at 31st March, 2023	As at 31st March, 2022
Expiring within One Year			
- CC/EPC Facility	98.08	51.28	-

The cash credit and other facilities may be drawn at any time and may be terminated by the bank without notice.

(b) Maturities of Financial Liabilities:

The tables below analyze the Company's financial liabilities into relevant maturity based on their contractual maturities for all non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant. As per attached Annexure "A".

E. Capital Management

The Company's capital management objectives are to ensure the company's ability to continue as a going concern, to provide an adequate return to shareholders:

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet. Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

The Company manages its capital on the basis of Net Debt to Equity Ratio which is Net Debt (Total Borrowings net of Cash and Cash Equivalents) divided by total equity.

Notes:

1. The ratios have been computed as per the following formulas:

(i) Basic and Diluted Earnings per Share:

$$\frac{\text{Restated Profit after Tax attributable to equity shareholders}}{\text{Weighted average number of equity shares outstanding during the year}}$$

(ii) Return on Net worth (%):

$$\frac{\text{Restated Profit after Tax}}{\text{Restated Net worth as at year end}}$$

(iii) Net Asset Value (NAV) per Equity Share:

$$\frac{\text{Restated Net worth as at year end}}{\text{Total Number of equity shares as at year end}}$$

2. The figures disclosed above are based on the Restated Financial Information of the Company.
3. Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the year adjusted for the number of equity shares issued during the year multiplied by the time weightage factor. The time weightage factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.
4. Net worth for the ratios represents sum of share capital and reserves and surplus (share premium and surplus in the Restated Summary Statement of Profit and Loss).
5. Earnings per share calculations are done in accordance with Indian Accounting Standard (INDAS) - 33 "Earning per Share", issued by the Institute of Chartered Accountants of India.

6. Earning Before Interest, Taxes, Depreciation & Amortization (EBITDA) = Profit Before Tax + Finance Cost
+ Depreciation & Amortisation – Other Incomes

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of our financial condition and results of operations should be read in conjunction with our **“Financial Statements as Restated”** on page 210.

This section may include forward-looking statements that involve risks and uncertainties, and our actual financial performance may materially vary from the conditions contemplated in such forward-looking statements as a result of various factors, including those described below and elsewhere in this Red Herring Prospectus. For further information, see **“Forward Looking Statements”** on page 21. Also read **“Risk Factors”** on page 31 for a discussion of certain factors that may affect our business, financial condition or results of operations.

Unless otherwise indicated or the context otherwise requires, for Financial Year ended on 2024, 2023 and 2022 included herein is derived from the Restated Financial Information, included in this Red Herring Prospectus, have been prepared in accordance with requirements of the Companies Act and Ind AS and restated in accordance with the SEBI Regulations, which differ in certain material respects from IFRS, U.S. GAAP and GAAP in other countries. For further information, see **“Financial Statements”** on page 210.

Unless the context otherwise requires, in this section, references to “we”, “us”, “our”, “the Company” or “our Company” refers to Rajputana Industries Limited.

OVERVIEW

Our Company is primarily engaged in the business of manufacturing diverse range of non-ferrous metal products from Copper, Aluminium, Brass, and various alloys. Our product range includes rods, tubes, bus bars, billets and winding wires etc. These wires, tubes, bars, billets, and rods are manufactured in various shapes and sizes as per the requirement of the customers and / or demand in the market.

For further details, please refer **“Our Business – Overview”** on page 138.

SIGNIFICANT MATERIAL DEVELOPMENTS SUBSEQUENT TO THE STUB PERIOD

In the opinion of the Board of Directors of our Company, since the date of the last financial statements disclosed in this Red Herring Prospectus, except those mentioned below, there have not arisen any circumstance that materially and adversely affect or are likely to affect the business activities or profitability of our Company or the value of its assets or its ability to pay its material liabilities within the next twelve months except as mentioned below:

- 1) Our Company has received the In Principle Approval from National Stock Exchange of India Limited on **July 08, 2024**, to use their names in the Issue Document in respect of the proposed public issue of Equity Shares.
- 2) Our company, with the consultation of the BRLM, has undertaken a Pre-IPO Placement of 6,00,000 Equity Shares of face value of Rs. 10/- each at a premium of Rs. 28/- each aggregating to ₹ 228 Lakhs on July 19, 2024.

KEY FACTORS THAT MAY AFFECT OUR RESULTS OF OPERATION

Our results of operations have been, and will be, affected by many factors, some of which are beyond our control. Our results of operations and financial conditions are affected by numerous factors including the following:

A. Ability to expand the customer base and develop new products capabilities to meet evolving preferences and generate new sales.

Customer relationships are the core of our business. Our ability to grow our customer base and drive market adoption of our products is affected by the pace at which the non-ferrous metal and electrical industry grows. We expect that our revenue growth will be primarily driven by the pace of adoption of our offerings. This will drive our ability to acquire new customers and increase sales to existing customers, which in turn, will affect our future financial performance.

We have grown our operations by introducing quality products to meet potential requirements of our customers and create market for our products. To service and grow our relationships with our existing customers and to win new customers, we are required to provide them with products that address their quality and other requirements, to anticipate and understand trends in their relevant markets and to continually address their needs as those change and evolve.

Our future growth shall depend on our ability to identify emerging market trends, offer new products and new designs to customers, inculcate strong culture of innovation, have trained workforce and latest research and development facilities to enable us to expand the range of our offerings to customers and improve the delivery of our products along with growing our portfolio of various sized products to increasingly represent our revenue from operations, widened the customer base that we cater to, and typically have a higher margin profile.

B. Cost of materials consumed

Our ability to remain competitive and profitable depend on our ability to source and maintain a stable and sufficient supply of raw materials at cost effective prices. Historically, prices of copper and aluminium along with basic raw material costs have increased and are continuously fluctuating. However, on account of the continuing impact of COVID-19, there has been an increase in prices of metals and other materials used in raw materials which have a significant effect on the cost of raw materials and consequently our gross margins. We depend on external suppliers for our materials and components required and typically purchase materials and components on a purchase order basis and place such orders with them in advance on the basis of our anticipated requirements. As a result, the success of our business is significantly dependent on maintaining good relationships with our suppliers. For further information on procurement of our raw materials, see “*Our Business – Raw Materials*” on page 156-157.

C. Sales and Marketing

We have deployed a team of efficient and dedicated marketing professionals for the marketing and promotion of our products. Our marketing team constantly monitors and scours the trends in the market. Regular interaction is required to maintain the client base and to gain insight into the design and specification needs of the diverse clientele. We constantly seek to grow our product reach to underpenetrated geographies, increase the penetration of our products in markets in which we are currently present and widen the portfolio of our products available in those markets by growing our network. Our success is dependent on our ability to enter and expand our network in new markets

which is further dependent on our familiarity with the economic condition, customer base and commercial operations in new regions. With limited presence, our ability to gain market share is also dependent on our ability to compete with companies that may have an existing strong presence.

However, we may not be successful in expanding our network or increasing our market presence. Further, we may also face disruptions in selling our products for various reasons such as transportation bottlenecks, raw material inaccessibility, competition activities, labor issues, natural disasters, absence of professional & technical expertise, etc. which may result in disruptions to our business.

D. Product mix and pricing

As we manufacture billets, rods and metal bars made of Copper, Aluminum, Brass and other alloys, which are used in different industries like HVAC industry, Electrical and Electronics Industry, Automotive Industry, Construction and Architecture Industry, Plumbing and Sanitary Industry, Renewable Energy Industry and other manufacturing industries wherein our products are used in various methods as a raw material to form a finished product.

As new innovations and regular improvements on the product mix are made, we have to continue to regularly improve and innovate in our operations in order to cater to the new and growing demand of our customers. For further details on our product portfolio, please refer to ***“Our Business- Our Products”*** on page no. 144-156.

E. Increasing competition in the industry;

We face competition from multiple competitors in the markets in which we operate. Success of our operations depends on our ability to effectively compete, including by continuing to distinguish our brand and products from competition by maintaining our brand perception centered around the values of trust and transparency and by continuing to optimize our product assortment and marketing campaigns to cater to preferences in the markets in which we operate. For further details, see ***“Business – Competition”*** on page 162.

F. Changes in fiscal, economic, or political conditions in India

Our results of operations are dependent on the overall economic conditions in the markets in which we operate. Any slowdown in these economies, including due to a global economic slowdown or changes in interest rates, government policies or taxation, social and civil unrest, pandemics and political, economic, or other developments could adversely affect our business and results of operations. Even though there are many factors that affect levels of consumer confidence and spending, demand for jewellery can be relatively inelastic in our markets as it is often purchased for wedding-related, religious, cultural, and sentimental reasons.

KEY PERFORMANCE INDICATORS AND CERTAIN NON-GAAP MEASURES

In evaluating our business, we consider and use certain non-GAAP financial measures and key performance indicators that are presented below as supplemental measures to review and assess our operating performance. The presentation of these non-GAAP financial measures and key performance indicators are not intended to be considered in isolation or as a substitute for the Restated Financial Information. We present these non-GAAP financial measures and key performance indicators because they are used by our management to evaluate our operating performance. These non-GAAP financial measures are not defined under Ind AS and are not presented in accordance with Ind AS. The non-GAAP financial measures and key performance indicators have limitations as analytical tools. Further, these non-GAAP financial measures and

key performance indicators may differ from the similar information used by other companies, including peer companies, and hence their comparability may be limited. Therefore, these matrices should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity, profitability or results of operation.

EBITDA and EBITDA Margin

EBITDA is defined as our profit/loss before tax, finance cost and depreciation and amortisation. Profit/loss before tax margin is defined as profit/loss before tax divided by revenue from operations. EBITDA margin is defined as our EBITDA as a percentage of revenue from operations.

The following table reconciles our profit/loss before tax (an Ind AS financial measure) to EBITDA for the periods indicated.

QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Credit Risk

Credit risk is the risk of financial loss to the Company, if a customer or the counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers and from its investing activities, including deposits with banks. The carrying amounts of financial assets represent the maximum credit risk exposure.

Liquidity Risk

Liquidity risk is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Our Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. We believe that our working capital is sufficient to meet our current requirements.

Market Risks

We are exposed to various types of market risks during the normal course of business. Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: price risk, currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Effect of Inflation

In recent years, India has experienced relatively high rates of inflation. While we believe inflation has not had any material impact on our business and results of operations, inflation generally impacts the overall economy and business environment and hence could affect us

Unusual or infrequent events or transactions

Except as described in this Red Herring Prospectus, during the periods under review there have been no transactions or events, which in our best judgment, would be considered unusual or infrequent.

Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations.

Other than as disclosed in the section titled "*Risk Factors*" beginning on page 31 to our knowledge there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

Future changes in relationship between costs and revenues

Other than as described in chapter titled "*Risk Factors*" beginning on page 31 and in this section, to our knowledge there are no known factors that might affect the future relationship between cost and revenue. Our Company's future costs and revenues will be determined by demand/ supply situation, government policies, global market situation and prices of our material.

New Products or Business Segments

Other than as described elsewhere in this Red Herring Prospectus, there are no new products or business segments in which we operate.

Significant economic changes that materially affected or are likely to affect income from continuing operations.

Indian rules and regulations as well as the overall growth of Indian economy have a significant bearing on our operations. Major changes in these factors can significantly impact income from continuing operations.

Other than as described in the section titled **“Risk Factors”** beginning on page 31 to our knowledge there are no significant economic changes that materially affects or are likely to affect income of our Company from continuing operations.

The extent to which material increases in net sales or revenue are due to better product quality and increase in number of customers

Increase in revenue is by and large linked to increases in volume of business activity by the Company.

Total turnover each Major Industry Segment

Total turnover of our Company is generated from only one Industry segment.

Reservations, qualifications and adverse remarks

Except as disclosed in chapter titled **“Financial Statements as Restated”** beginning on page 210, there have been no reservations, qualifications and adverse remarks.

Details of default, if any, including therein the amount involved, duration of default and present status, in repayment of statutory dues or repayment of debentures or repayment of deposits or repayment of loans from any bank or financial institution

Except as disclosed in chapter titled **“Financial Statements as Restated”** beginning on page 210, there have been no defaults in payment of statutory dues or repayment of debentures and interest thereon or repayment of deposits and interest thereon or repayment of loans from any bank or financial institution and interest thereon by the Company.

Material Frauds

There are no material frauds, as reported by our statutory auditor, committed against our Company, in the last three Fiscals.

Status of any publicly announced new products / projects or business segments

Our Company has not announced any new projects or business segments, other than disclosed in the Red Herring Prospectus. For details of our new projects or business segments please refer to the chapter titled **“Our Business”** beginning on page 138.

Increase in income

Increases in our income are due to the factors described above in this chapter under **“Key Factors that may affect our Results of Operation”** on page 275 and chapter titled **“Risk Factors”** beginning on page 31.

Any significant dependence on a single or few suppliers or customers

We majorly procure our raw materials and finished goods from our top 10 third party supplier and have dependence from them. For further details, please see **“Risk Factor No. 2 - We are highly dependent upon a limited number of suppliers. 79.49%, 87.42% and 92.75% of our Total Purchases are derived from our top 10 suppliers for the Fiscal Years ended on March 31, 2024, 2023 and 2022. Further our 45.98%, 52.35% and 73.18% of our total purchases for the Fiscal Years ended on March 31, 2024, 2023 and 2022 are procured from our holding and group companies. Any failure of our suppliers to deliver these products in the necessary quantities or to adhere to delivery schedules, credit terms or specified quality standards and technical specifications may adversely affect our business and our ability to deliver orders on time at the desired level of quality.”** on Page 33. B and C Energy Infra Pvt. Ltd. and Others Vs. M/s Shera Energy Pvt. Ltd. and Others [Cr. Appeal 41 of 2023 & Cr. Appeal 42 of 2023]

B & C Energy Infra Pvt. Ltd. purchased goods of Rs. 70,15,080/- on credit to fulfil business requirements from our Promoter Shera Energy Limited. Cheques were presented by B & C Energy Infra Pvt. Ltd. for partial payment of the credit of Rs. 50,00,000/- and Rs. 20,00,000/-, however, the issued cheques were returned by the bank due to insufficient funds for cheque of Rs. 50,00,000/- on 30/09/2015 and for cheque of Rs. 20,00,000/- on 29/09/2015, respectively.

Our Promoter, Shera Energy Limited then filed 2 complaints [N.I Act 1222 of 2016 & N.I Act 1223 of 2016] against B & C Energy Infra Pvt. Ltd. on 08.02.2016 under Section 138 of the Negotiable Instruments Act, 1881 before the Hon'ble Court of Special MM NI Act Pilot Study Cases in relation to the dishonour of cheques issued in favour of Shera Energy Limited.

The Hon'ble Court passed the order dated 05.01.2023 in favour of Shera Energy Limited wherein B & C Energy Infra Pvt. Ltd. (through its authorized signatory/director) was imposed with imprisonment for a term of 2 years along with the fine amounting to Rs. 40,00,000/- and order dated 20.01.2023 also in favour of Shera Energy Limited wherein B & C Energy Infra Pvt. Ltd. (through its authorized signatory/director) was imposed with imprisonment for a term of 2 years along with Rs. 1,00,00,000/-.

Subsequently, B & C Energy Infra Pvt. Ltd. (through its authorized signatory/director) on 31.01.2023 filed these criminal appeal No. 41 of 2023 against the order dated 20.01.2023 & criminal appeal 42 of 2023 against the order dated 05.01.2023 before the Hon'ble District & Sessions Judge, ADJ-5, Jaipur.

B & C Energy Infra Pvt. Ltd., in both the criminal appeals, submitted that considering the facts and circumstances of the case and the seriousness of the crime, the conviction of the appellant (director of B & C Energy Infra Pvt. Ltd.) should be postponed till the disposal of said appeal. The Hon'ble Court ordered that the conviction of the said appellant will be put on stay subject to the condition that the appellant deposits the cheques with 20% of the amount of the fine imposed under the orders dated 05.01.2023 and 20.01.2023 along with a bail bond of Rs. 25,000/- under each appeal, to the court as surety.

Both appeals are pending for adjudication before the Hon'ble District & Sessions Judge, ADJ-5, Jaipur and is at the stage of final hearing.

Amit Dushad vs. State Government [FR 8126/2019]

An FIR was filed in the Shastri Nagar Police Station, Jaipur bearing FIR No. 43/2018 on 02/02/2018 by Mr. Amit Dusad accusing our Promoters, Mr. Sheikh Naseem and Mrs. Shivani Sheikh and certain others for abetment of suicide (under Section 306 of Indian Penal Code, 1860) committed by his brother, Late Ashok Dusad. The police investigated on the basis of the FIR and came to the conclusion that no offence was being made out against the abovementioned persons, including our Promoters, Mr. Sheikh Naseem and Mrs. Shivani Sheikh. Accordingly, the police filed a negative final report before the Additional Senior Civil Judge cum ACJM-1, Jaipur (Final Report/8126/2019). As per the court order dated June 01, 2018, the complainant was personally present before the date and submitted his no-objection on the final report and also stated that he does not wish to pursue the matter further.

The matter is currently pending before the court of Additional Senior Civil Judge cum ACJM-6, Jaipur Metro-2 for a final disposal order on acceptance of the final report.

Employees Provident Fund Organization Vs. Shera Metal Pvt. Ltd. and Others [REG. CRI. 1051 of 2016]

The Employees' Provident Fund Organization through its Enforcement Officer filed a case against our Group Company, Shera Metal Pvt. Ltd. and Ors. and its directors, which inter alia, included our Promoter and Director, Sheikh Naseem, for violation of Section 14 of the Employee's Provident Funds & Miscellaneous Provisions Act, 1952 (“EPF Act”) read with Section 76 of the Employee's Provident Fund Scheme, 1952 (“EPF Scheme”) before the Court of Chief Judicial Magistrate, Sikar, Rajasthan as the accused directors failed to follow mandatory instruction in relation to Digital Signature Certificates. The Hon'ble Court passed an order dated 20.06.2016 directing that cognizance shall be taken for the contravention of Section 14 of EPF Act read with Section 76 of EPF Scheme. Thereafter, our Promoter and Director, Sheikh Naseem along with Piyush Sharma had filed a Revision Petition [Cr. Revision 16/22] under Section 397 of the Code of Criminal Procedure, 1973 against the said impugned order before the District and Sessions Court, Sikar, Rajasthan and had prayed for the setting aside of the said impugned order.

Additional Session Judge No. 2, Sikar passed an order dated 09.05.2023 partially allowing the said revision petition and set aside the cognizance order against Sheikh Naseem, while rejecting the cognizance against Piyush Sharma under said revision petition. The matter is currently pending for adjudication.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts/ authorities in Jaipur, Rajasthan, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, "U.S. persons" (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDERS

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO INVESTORS

In accordance with Section 72 of the Companies Act, 2013 the sole applicant, or the first applicant along with other joint applicants, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicants, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale / transfer / alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or with the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013, shall upon the production of such evidence as may be required by the Board, elect either:

- a) To register himself or herself as the holder of the Equity Shares; or
- b) To make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the bidder would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

Our Company, in consultation with the Book Running Lead Manager, reserves the right to not proceed with the Issue after the Issue Opening Date but before the allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two days of the Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Book Running Lead Manager through, the Registrar to the Issue, shall notify the SCSBs and the Sponsor Bank to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is registered with the RoC. If our Company withdraws the Issue after the Issue Closing Date and thereafter determines that it will proceed with an Issue of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with Stock Exchange.

Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only on Business Days. Neither our Company nor the Book Runner Lead Manager is liable for any failure in uploading the Bids due to faults in any software / hardware system or otherwise. Any time mentioned in this Red Herring Prospectus is Indian Standard Time.

Our Company in consultation with the BRLM, reserves the right to revise the Price Band during the Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the Face Value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e., the floor price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.

In case of any revision to the Price Band, the Bid / Issue Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid / Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a public

notice, and also by indicating the change on the respective websites of the BRLM and at the terminals of the Syndicate Members.

In case of force majeure, banking strike or similar circumstances, the issuer may, in consultation with the BRLM, for reasons to be recorded in writing, extend the bidding (Issue) period disclosed in the Red Herring Prospectus, for a minimum period of three working days, subject to the Bid / Issue Period not exceeding 10 working days.

In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Retail Individual Applicants can revise or withdraw their Application Forms prior to the Issue Closing Date. Allocation to Retail Individual Applicants, in this Issue will be on a proportionate basis.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid cum Application Form, for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“**UPI**”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“**UPI Phase I**”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“**UPI Phase II**”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, had extended the timeline for implementation of UPI Phase II till further notice. The final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders (“**UPI Phase III**”), and modalities of the implementation of UPI Phase III has been notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023. The Issue will be undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with the circular no. SEBI/HO/CFD/DIL2/ P/CIR/2021/570 dated June 02, 2021, and circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular shall come into force for initial public offers opening on or after May 1, 2021, except as set out in circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and the provision of this circular are deemed to form part of this Red Herring Prospectus.

Furthermore, pursuant to circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to Rs. 5,00,000 shall use the UPI Mechanism. This circular has come into force for initial public offers opening on or after May 1, 2022 and the provisions of this circular are deemed to form part of this Red Herring Prospectus. Subsequently, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

The BRLM shall be the nodal entity for any issues arising out of public issuance process. In terms of regulation 23(4), 23(5) and regulation 271 of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, in SEBI Circular. No. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019, the timelines, processes and compensation policy shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and book running lead manager shall continue to coordinate with intermediaries involved in the said process.

Our Company and the Book Running Lead Manager do not accept any responsibility for the completeness and accuracy of the information stated in this Section and is not liable for any amendment, modification or change in the applicable law which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in this Red Herring Prospectus.

Further, Our Company and the Book Running Lead Manager are not liable for any adverse occurrence's consequent to the implementation of the UPI Mechanism for Bid in this Issue.

BOOK BUILDING PROCEDURE

In terms of Rule 19(2)(b)(i) of the Securities Contracts (Regulation) Rules, 1957, as amended (the "SCRR") read with Regulation 252 of SEBI ICDR Regulations, 2018, the Issue has been made for at least 25% of the post-Issue paid-up Equity Share capital of our Company. The Issue is being made under Regulation 229(1) of Chapter IX of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 via book building process.

The allocation to the public will be made as per Regulation 253 of SEBI ICDR Regulations, wherein not more than 50% of the Net Issue shall be allocated on a proportionate basis to QIBs. Further, 5% of the QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Investors and not less than 35% of the Net Issue shall be available for allocation to Retail Individual Investors in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price.

Accordingly, we have allocated the Net Issue i.e., not less than 35% of the Net Issue shall be available for allocation to Retail Individual Bidders and not less than 15% of the Net Issue shall be available for allocation to Non institutional bidders and not more than 50% of the Net Issue shall be allocated on a proportionate basis to QIBs. Furthermore, up to 30,000 Equity Shares, aggregating to Rs. [●] lakhs shall be made available for allocation on a proportionate basis only to Eligible Employees Bidding in the Employee Reservation Portion, subject to valid Bids being received at or above the Issue Price, if any. Furthermore, up to 3,00,000 Equity Shares, aggregating to Rs. [●] lakhs shall be made available for allocation on a proportionate basis only to Eligible Shera Energy Shareholders Bidding in the Shera Energy Shareholders Reservation Portion, subject to valid Bids being received at or above the Issue Price, if any.

Subject to valid Bids being received at or above the Issue Price, under subscription, if any, in any category, except the QIB Portion, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company and the in consultation with the BRLM and the Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories. The unsubscribed portion, if any, in the Employee Reservation Portion and Shera Energy Shareholders Reservation Portion shall be added to the Net Issue.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Bidders should note that the Equity Shares will be allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID and PAN and UPI ID (for RIBs using the UPI Mechanism), shall be treated as incomplete and will be rejected. Eligible Employees Bidding in the Employee Reservation Portion Bidding using the UPI Mechanism, shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form.

Investors must ensure that their PAN is linked with Aadhaar and are in compliance with the notification dated February 13, 2020, issued by the Central Board of Direct Taxes and the press release dated June 25, 2021.

PHASED IMPLEMENTATION OF UPI FOR BIDS BY RETAIL INDIVIDUAL BIDDERS AS PER THE UPI CIRCULAR

SEBI has issued the SEBI UPI circulars in relation to streamlining the process of public issue of, among others, equity shares. Pursuant to the SEBI UPI Circulars, the UPI mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for Bids by UPI Bidders through designated intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment Mechanism, the SEBI UPI Circular have introduced the UPI Mechanism in three phases in the following manner:

- **Phase I:** This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Bidder had the option to submit the ASBA Form with any of the designated intermediaries and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continue to be six Working Days.
- **Phase II:** This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI, vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. Under this phase, submission of the ASBA Form by UPI Bidders through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.
- **Phase III:** This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023, and on a mandatory basis for all issues opening on or after December 1, 2023,

vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

Pursuant to the SEBI UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the SEBI UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

The Issue will be made under UPI Phase II of the SEBI UPI Circulars, unless UPI Phase III of the SEBI UPI Circulars becomes effective and applicable on or prior to the Bid/ Issue Opening Date. If the Issue is made under UPI Phase III of the SEBI UPI Circulars, the same will be advertised in all editions of Financial Express, English national daily newspaper and all editions of Jansatta, Hindi national daily newspaper and all editions of Business Remedies, Hindi daily regional newspaper (Hindi also being the regional language of Jaipur, Rajasthan where our Registered and Corporate Office is located), each with wide circulation, on or prior to the Bid/ Issue Opening Date and such advertisement shall also be made available to the Stock Exchange for the purpose of uploading on their websites.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the UPI Bidders using the UPI Mechanism.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders applying in public issues where the application amount is up to Rs. 500,000 shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

- i) a syndicate member
- ii) a stock broker registered with a recognized stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity) ("**broker**")
- iii) a depository participant ("**DP**") (whose name is mentioned on the website of the stock exchange as eligible for this activity)
- iv) a registrar to an Issue and shares transfer agent ("**RTA**") (whose name is mentioned on the website of the stock exchange as eligible for this activity)

For further details, refer to the General Information Document to be available on the website of the Stock Exchange and the BRLM.

BID CUM APPLICATION FORM

Copies of the Bid cum Application Form and the abridged prospectus will be available at the offices of the BRLM's, the Designated Intermediaries at relevant Bidding Centers, and at the Registered Office and Corporate Office of our Company. The electronic copy of the Bid cum Application Form will also be available for download on the websites of the National Stock Exchange of India Limited (www.nseindia.com), atleast one day prior to the Bid Opening Date.

All ASBA Bidders must provide either (i) the bank account details and authorization to block funds in the ASBA Form, or (ii) the UPI ID (in case of UPI Bidders), as applicable, in the relevant space provided in the ASBA Form. The ASBA Forms that do not contain such details will be rejected.

UPI Bidders Bidding using the UPI Mechanism must provide the UPI ID in the relevant space provided in the Bid cum Application Form. Bid cum Application Forms that do not contain the UPI ID are liable to be rejected. Applications made by the UPI Bidder using third party bank account or using third party linked bank account UPI ID are liable for rejection. UPI Bidders Bidding using the UPI Mechanism may also apply through the SCSBs and mobile applications using the UPI handles as provided on the website of SEBI.

Further, Bidders shall ensure that the Bids are submitted at the Bidding Centres only on Bid cum Application Forms bearing the stamp of a Designated Intermediary (except in case of electronic Bid cum Application Forms) and Bid cum Application Forms not bearing such specified stamp may be liable for rejection.

ASBA Bidders are also required to ensure that the ASBA Account has sufficient credit balance as an amount equivalent to the full Bid Amount which can be blocked by the SCSBs or sponsor banks, as applicable, at the time of submitting the Bid. In order to ensure timely information to investors, SCSBs are required to send SMS alerts to investors intimating them about Bid Amounts blocked/ unblocked including details as prescribed in Annexure II of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

The prescribed colour of the Bid cum Application Form for various categories is as follows:

¹ Bid cum Application Forms for Anchor Investors shall be available at the offices of the BRLM.

In case of ASBA Forms, the relevant Designated Intermediaries shall upload the relevant Bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. Subsequently, for ASBA Forms (other than UPI Bidders using UPI Mechanism), Designated Intermediaries (other than SCSBs) shall submit/ deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

For UPI Bidders using the UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to UPI Bidders for blocking of funds. The Sponsor Bank shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (Bidding through UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e., the Sponsor Bank, NPCI or the Issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Bank and the Issuer bank. The Sponsor Bank and the Bankers to the Issue shall provide the audit trail to the Book Running Lead Managers for analysing the same and fixing liability.

The Sponsor Bank will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the Book Running Lead Managers in the format and within the timelines as specified under the SEBI UPI Circulars. Sponsor Bank and Issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three-way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with Issuer banks and Sponsor Bank(s) on a continuous basis.

*For all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Issue Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders Bidding using through the UPI Mechanism should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse.*

The Sponsor Bank shall host a web portal for intermediaries (closed user group) from the date of Bid/ Issue Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the Issue Bidding process.

Further, Intermediaries shall retain physical bid cum application forms submitted by retail individual investors with UPI as a payment mechanism, for a period of six months and thereafter forward the same to the Company/ Registrar to the Issue. However, in case of electronic forms, “printouts” of such Bids need not be retained or sent to the Company. Intermediaries shall, at all times, maintain the electronic records relating to such forms for a minimum period of three years.

ELECTRONIC REGISTRATION OF BIDS

- a) The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Issue.
- b) On the Bid/Issue Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus.
- c) Only Bids that are uploaded on the Stock Exchanges Platform are considered for allocation/Allotment. The Designated Intermediaries are given till 5:00 pm on the Bid/Issue Closing Date to modify select fields uploaded in the Stock Exchange Platform during the Bid/Issue Period after which the Stock Exchange(s) send the bid information to the Registrar to the Issue for further processing.

Participation by the Promoters, the members of the Promoter Group, the Book Running Lead Manager, the Syndicate Member(s) and persons related to the Promoters/the members of the Promoter Group/the Book Running Lead Manager

The Book Running Lead Manager and the Syndicate Members shall not be allowed to purchase the Equity Shares in any manner, except towards fulfilling their underwriting obligations. However, the respective associates and affiliates of the Book Running Lead Manager and the Syndicate Member(s) may purchase Equity Shares in the Issue under the Non-Institutional Category and such subscription may be on their own account or on behalf of their clients. All categories of investors, including respective associates or affiliates of the Book Running Lead Manager and Syndicate Members, shall be treated equally for the purpose of allocation to be made on a proportionate basis.

Further, the Promoters and members of the Promoter Group shall not participate by applying for Equity Shares in the Issue.

Except as stated below, neither the Book Running Lead Manager nor any associate of the Book Running Lead Manager can apply in the Issue under the Anchor Investor Portion:

- (i) mutual funds sponsored by entities which are associate of the Book Running Lead Manager;
- (ii) insurance companies promoted by entities which are associate of the Book Running Lead Manager;
- (iii) AIFs sponsored by the entities which are associate of the Book Running Lead Manager; or
- (iv) FPIs (other than individuals, corporate bodies and family offices) sponsored by the entities which are associate of the Book Running Lead Manager.

Further, the Promoters and members of the Promoter Group shall not participate by applying for Equity Shares in the Issue. Further, persons related to the Promoters and the member of the Promoter Group shall not apply in the Issue under the Anchor Investor Portion.

However, a QIB who has any of the following rights in relation to our Company shall be deemed to be a person related to the Promoters or the members of the Promoter Group of our Company:

- (i) rights under a shareholders' agreement or voting agreement entered into with the Promoters or the members of the Promoter Group of our Company;
- (ii) veto rights; or
- (iii) right to appoint any nominee director on the Board.

Further, an Anchor Investor shall be deemed to be an "associate of the Book Running Lead Manager" if:

- (i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or
- (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or
- (iii) there is a common director, excluding nominee director, among the Anchor Investors and the Book Running Lead Manager.

BIDS BY MUTUAL FUNDS

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which such Bid has been made.

No Mutual Fund scheme shall invest more than 10% of its NAV in equity shares or equity-related instruments of any single company, provided that the limit of 10% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

BIDS BY ELIGIBLE NRIS

Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (White in colour). Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents (Blue in colour). Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries.

Eligible NRI Bidders Bidding on a repatriation basis by using the Non-Resident Forms should authorise their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident External (“NRE”) accounts, or Foreign Currency Non-Resident (“FCNR”) Accounts, and Eligible NRI Bidders Bidding on a non-repatriation basis by using Resident Forms should authorise their respective SCSBs (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident Ordinary (“NRO”) accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Eligible NRIs will be permitted to apply in the Issue through Channel I or Channel II (as specified in the SEBI UPI Circulars). Further, subject to applicable law, Eligible NRIs may use Channel IV (as specified in the SEBI UPI Circulars) to apply in the Issue, provided the UPI facility is enabled for their NRE/NRO accounts.

For details of restrictions on investment by NRIs, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 364.

Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules.

BIDS BY HUFs

Bids by HUFs, should be made in the individual name of the Karta. The Bidder/Applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form

as follows: “Name of sole or First Bidder/Applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bids/Applications by HUFs will be considered at par with Bids/Applications from individuals.

BIDS BY FPIs

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of the post-Issue Equity Share capital. Further, in terms of the FEMA Rules, the total holding by each FPI or an investor group shall be below 10% of the total paid-up Equity Share capital of our Company. With effect from April 1, 2020, the aggregate limit by FPIs shall be the sectoral caps applicable to the Indian company as prescribed in the FEMA Rules with respect to its paid-up equity capital on a fully diluted basis. While the aggregate limit as provided above could have been decreased by the concerned Indian companies to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its board of directors and its shareholders through a resolution and a special resolution, respectively before March 31, 2020, our Company has not decreased such limit and accordingly the applicable limit with respect to our Company is 100%. In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non- Residents (Blue in colour).

A FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognised stock exchange in India, and/or may purchase or sell securities other than equity instruments.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

To ensure compliance with the applicable limits, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar to the Issue shall:

- (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI, and
- (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs, (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs, (iii) such offshore derivative instruments are issued after compliance with “know your client” norms, and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instrument is made by, or on behalf of it subject to, among others, the following conditions:

- a) each offshore derivative instruments are transferred to persons subject to fulfilment of SEBI FPI Regulations; and
- b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

Further, Bids by following FPIs, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs may not be regarded as multiple Bids:

- FPIs which utilise the multi-investment manager (“MIM”) structure.
- Offshore derivative instruments (“ODI”) which have obtained separate FPI registration for ODI and proprietary derivative investments.
- Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration.
- FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager.
- Multiple branches in different jurisdictions of foreign bank registered as FPIs.
- Government and Government related investors registered as Category I FPIs.
- Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to the aforesaid seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN). In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilise any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation.

In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected.

BIDS BY SEBI REGISTERED AIFS, VCFS AND FVCIS

The SEBI AIF Regulations prescribe, among others, the investment restrictions on AIFs. Post the repeal of the SEBI VCF Regulations, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. The SEBI FVCI Regulations prescribe the investment restrictions on FVCIs. Category I AIFs and Category II AIFs cannot invest more than 25% of the investible funds in one investee company directly or through investment in the units of other AIFs. A category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than one-third of its investible funds by way of subscription to an initial public offering of a venture capital undertaking.

The holding in any company by any individual VCF or FVCI registered with SEBI should not exceed 25% of the corpus of the VCF or FVCI. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds in various prescribed instruments, including in initial public offerings.

Further, the shareholding of VCFs, Category I AIFs or Category II AIFs and FVCIs in a company prior to an initial public offering being undertaken by such company, shall be exempt from lock-in requirements, provided that such equity shares shall be locked in for a period of at least six months from the date of purchase by the VCF or AIF or FVCI. However, if such VCFs, Category I AIFs or Category II AIFs and FVCIs hold individually or with persons acting in concert, more than 20% of the pre-issue shareholding of such company, this exemption from lock-in requirements will not be applicable.

There is no reservation for Eligible NRIs, AIFs, FPIs and FVCIs. All such Bidders will be treated on the same basis with other categories for the purpose of allocation. Participation of VCFs, AIFs or FVCIs in the Issue shall be subject to the FEMA Rules.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company or the Book Running Lead Manager will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended, ("**Banking Regulation Act**"), and the Master Directions - Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10% of the banking company's paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act, (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company, (iii) hold along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank, and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in non-financial services. However, this cap does not apply to the cases mentioned in (i) and (ii) above.

Further, the aggregate investment by a banking company in all its subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments, cannot exceed 20% of the banking company's paid-up share capital and reserves.

The banking company is required to submit a time-bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make (i) investment in a subsidiary or a financial services company that is not a subsidiary (with certain exceptions prescribed), and (ii) investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in para 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

BIDS BY SCSBS

SCSBs participating in the Issue are required to comply with the terms of the circulars dated September 13, 2012, and January 2, 2013 issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such Bids.

BIDS BY INSURANCE COMPANIES

In case of Bids made by insurance companies registered with the IRDA, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason thereof. The exposure norms for insurers are prescribed under Regulation 9 of the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 ("**IRDAI Investment Regulations**"), and are based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Bidders are advised to refer to the IRDAI Investment Regulations 2016, as amended, which are broadly set forth below:

- (a) equity shares of a company: the lower of 10%* of the outstanding equity shares (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- (b) the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and

- (c) the industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under (a), (b) and (c) above, as the case may be.

*The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of Rs. 2,50,00,000 Lakhs or more and 12% of outstanding equity shares (face value) for insurers with investment assets of Rs. 5,00,00,000 Lakhs or more but less than Rs. 2,50,00,000 Lakhs.

Insurance companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars issued by IRDAI, from time to time, including the IRDAI Investment Regulations for specific investment limits applicable to them.

BIDS BY NBFC-SI

In case of Bids made by NBFC-SI, a certified copy of the certificate of registration issued by RBI, a certified copy of its last audited financial statements on a standalone basis and a net worth certificate from its statutory auditor(s), must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid, without assigning any reason thereof. NBFC-SI participating in the Issue shall comply with all applicable regulations, guidelines and circulars issued by RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time. In accordance with existing regulations issued by RBI, OCBs cannot participate in this Issue.

BIDS UNDER POWER OF ATTORNEY

In case of Bids made pursuant to a power of attorney by limited companies, corporate bodies, registered societies, eligible FPIs, AIFs, Mutual Funds, insurance companies, NBFC-SI, insurance funds set up by the army, navy or air force of the India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of Rs. 250 million (subject to applicable laws) and pension funds with a minimum corpus of Rs. 250 million, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reason thereof.

Our Company, in consultation with the Book Running Lead Manager, in their absolute discretion, reserve the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form, subject to such terms and conditions that our Company, in consultation with the Book Running Lead Manager, may deem fit.

BIDS BY PROVIDENT FUNDS/PENSION FUNDS

In case of Bids made by provident funds/pension funds, subject to applicable laws, with minimum corpus of Rs. 2,500 Lakhs, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid, without assigning any reason therefor.

The above information is given for the benefit of the Bidders. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that any single Bid from them does not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable laws or regulation and as specified in this Red Herring Prospectus. Information for Bidders.

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such acknowledgement slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier acknowledgement slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the Book Running Lead Manager are cleared or approved by the Stock Exchanges, nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company, nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Red Herring Prospectus, nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

GENERAL INSTRUCTIONS

Please note that QIBs and Non-Institutional Investors are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage.  15. Submit revised Bids to the same Designated Intermediary, through whom the original Bid is placed and obtain a revised acknowledgment;
 16. Except for Bids (i) on behalf of the Central or State Governments and the officials appointed by the courts, who, in terms of a SEBI circular dated June 30, 2008, may be exempt from specifying their PAN for transacting in the securities market, (ii) Bids by persons resident in the state of Sikkim, who, in terms of a SEBI circular dated July 20, 2006, may be exempted from specifying their PAN for transacting in the securities market, and (iii) any other category of Bidders, including without limitation, multilateral/bilateral institutions, which may be exempted from specifying their PAN for transacting in the securities market, all Bidders should mention their PAN allotted under the IT Act. The exemption for the Central or the State Government and officials appointed by the courts and for investors residing in the State of Sikkim is subject to (a) the Demographic Details received from the respective depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in "active status"; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same. All other applications in which PAN is not mentioned will be rejected;
 17. Ensure that the Demographic Details are updated, true and correct in all respects;
 18. Ensure that thumb impressions and signatures other than in the languages specified in the Eighth Schedule to the Constitution of India are attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal;

19. Ensure that the category and the investor status is indicated in the Bid cum Application Form to ensure proper upload of your Bid in the electronic Bidding system of the Stock Exchanges;
20. Ensure that in case of Bids under power of attorney or by limited companies, corporates, trust etc., relevant documents, including a copy of the power of attorney, are submitted;
21. Ensure that Bids submitted by any person outside India should be in compliance with applicable foreign and Indian laws;
22. Bidders (except UPI Bidders Bidding using the UPI Mechanism) should instruct their respective banks to release the funds blocked in the ASBA Account under the ASBA process. UPI Bidders Bidding using the UPI Mechanism, should ensure that they approve the UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to application amount and subsequent debit of funds in case of Allotment, in a timely manner;
23. Note that in case the DP ID, Client ID and the PAN mentioned in their Bid cum Application Form and entered into the online IPO system of the Stock Exchanges by the relevant Designated Intermediary, as the case may be, do not match with the DP ID, Client ID and PAN available in the Depository database, then such Bids are liable to be rejected;
24. Ensure that while Bidding through a Designated Intermediary, the Bid cum Application Form (other than for Anchor Investors and Retail Individual Investors) is submitted to a Designated Intermediary in a Bidding Centre and that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at least one branch at that location for the Designated Intermediary to deposit ASBA Forms (a list of such branches is available on the website of SEBI at www.sebi.gov.in);
25. Ensure that you have correctly signed the authorisation/undertaking box in the Bid cum Application Form, or have otherwise provided an authorisation to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid Amount mentioned in the Bid cum Application Form at the time of submission of the Bid;
26. UPI Bidders Bidding using the UPI Mechanism shall ensure that details of the Bid are reviewed and verified by opening the attachment in the UPI Mandate Request and then proceed to authorise the UPI Mandate Request using their UPI PIN. Upon the authorisation of the mandate using their UPI PIN, the UPI Bidder may be deemed to have verified the attachment containing the application details of the UPI Bidder Bidding using the UPI Mechanism in the UPI Mandate Request and have agreed to block the entire Bid Amount and authorised the Sponsor Bank to issue a request to block the Bid Amount mentioned in the Bid Cum Application Form in their ASBA Account;
27. UPI Bidders Bidding using the UPI Mechanism should mention valid UPI ID of only the Bidder (in case of single account) and of the First Bidder (in case of joint account) in the Bid cum Application Form;
28. UPI Bidders Bidding using the UPI Mechanism, who have revised their Bids subsequent to making the initial Bid, should also approve the revised UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to the revised Bid Amount in their account and subsequent debit of funds in case of allotment in a timely manner;
29. Bids by Eligible NRIs, HUFs and FPIs other than individuals, corporate bodies and family offices, for a Bid Amount of less than Rs. 200,000 would be considered under the Retail Category for the purposes of allocation and Bids for a Bid Amount exceeding Rs. 200,000 would be considered under the Non- Institutional Category for allocation in the Issue;
30. Ensure that Anchor Investors submit their Bid cum Application Forms only to the Book Running Lead Manager;
31. Ensure that you have accepted the UPI Mandate Request received from the Sponsor Bank prior to 12:00 p.m. of the Working Day immediately after the Bid/ Issue Closing Date; and
32. FPIs making MIM Bids using the same PAN, and different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

NAMES OF ENTITIES RESPONSIBLE FOR FINALISING THE BASIS OF ALLOTMENT IN A FAIR AND PROPER MANNER

The authorised employees of the Stock Exchanges, along with the Book Running Lead Manager and the Registrar to the Issue, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in the SEBI ICDR Regulations.

METHOD OF ALLOTMENT AS MAY BE PRESCRIBED BY SEBI FROM TIME TO TIME

Our Company will not make any Allotment in excess of the Equity Shares Issued through the Issue except in case of oversubscription for the purpose of rounding off to make Allotment, in consultation

with the Designated Stock Exchange. Further, upon oversubscription, an Allotment of not more than 10% of the Net Issue may be made for the purpose of making Allotment in minimum Bid Lots.

The Allotment of Equity Shares to applicants other than to the Retail Individual Investors, Non-Institutional Investors and Anchor Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum Allotment being equal to the minimum application size as, determined and disclosed.

The Allotment of Equity Shares to each Retail Individual Investor and Non-Institutional Investor shall not be less than the minimum Bid Lot, subject to the availability of Equity Shares in the Retail Individual Investor category and the Non-Institutional Category, respectively, and the remaining available Equity Shares, if any, shall be Allotted on a proportionate basis.

PAYMENT INTO ESCROW ACCOUNT FOR ANCHOR INVESTORS

Our Company, in consultation with the Book Running Lead Managers in their absolute discretion, will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. Anchor Investors are not permitted to Bid in the Issue through the ASBA process. Instead, Anchor Investors should transfer the Bid Amount (through direct credit, RTGS or NEFT). The payment instruments for payment into the Escrow Account should be drawn in favour of:

- (i) In case of resident Anchor Investors: ***“RAJPUTANA INDUSTRIES LIMITED - ANCHOR R ACCOUNT”***
- (ii) In case of non-resident Anchor Investors: ***“RAJPUTANA INDUSTRIES LIMITED - ANCHOR NR ACCOUNT”***

Anchor Investors should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Syndicate, the Bankers to the Issue and the Registrar to the Issue to facilitate collections from Anchor Investors.

ISSUANCE OF CONFIRMATION NOTE (“CAN”) AND ALLOTMENT IN THE ISSUE

- a. Upon approval of the Basis of Allotment by the Designated Stock Exchange. The BRLM or Registrar to the Issue shall send to the SCSBs or Sponsor Bank a list of their Bidders who have been allocated Equity Shares in the Issue.
- b. On the basis of approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the allotment and credit of equity shares. Bidders are advised to instruct their Depository Participants to accept the Equity Shares that may be allotted to them pursuant to the Issue.
- c. The Registrar to the Issue will dispatch an Allotment Advice (CAN) to their Bidders who have been allocated Equity Shares in the Issue. The dispatch of Allotment Advice (CAN) shall be deemed a valid, binding and irrevocable contract for the Allotment to such Bidder.
- d. Issuer will make the allotment of the Equity Shares and initiate corporate action for credit of shares to the successful Bidders Depository Account within 4 working days of the Issue Closing date. The Issuer also ensures the credit of shares to the successful Bidders Depository Account is completed within one working Day from the date of allotment, after the funds are transferred from ASBA Public Issue Account to Public Issue account of the issuer.

TERMS OF PAYMENT

The entire Issue price of Rs. [●] per share is payable on Bid cum application. In case of allotment of

lesser number of Equity Shares than the number applied, the Registrar to the Issue shall instruct the SCSBs or Sponsor Bank to unblock the excess amount blocked.

SCSBs or Sponsor Bank will transfer the amount as per the instruction received by the Registrar to the Public Issue Bank Account, post finalization of basis of Allotment. The balance amount after transfer to the Public Issue Account shall be unblocked by the SCSBs or Sponsor Bank.

The Bidders should note that the arrangement with Bankers to the Issue or the Registrar or Sponsor Bank is not prescribed by SEBI and has been established as an arrangement between our Company, Sponsor Bank, and Bankers to the Issue, the BRLM and the Registrar to the Issue to facilitate collections from the Bidders.

PRICE DISCOVERY AND ALLOCATION

- a) Based on the demand generated at various price levels, our Company in consultation with the BRLM shall finalize the Issue Price.
- b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the Red Herring Prospectus.
- c) Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- d) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the Red Herring Prospectus.
- e) Allocation to Anchor Investors, if applicable shall be at the discretion of our Company and in consultation with the BRLM, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs. 20/- to Rs. 24/- per share, Issue size of 3,000 Equity Shares and receipt of five Bid from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Applied Quantity	Bid Amount (Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

Price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer in consultation with the BRLM, may finalize the Issue Price at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, the FDI Policy, FEMA and rules and regulations made thereunder. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the RBI and the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“DPIIT”).

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT consolidated FDI Policy, which with effect from October 15, 2020 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government has also enacted Foreign Exchange Management (Non-debt Instruments) Rules, 2019 and Foreign Exchange Management (Debt Instruments) Rules, 2019 in supersession of Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 and the Foreign Exchange Management (Acquisition and Transfer of Immovable Property in India) Regulations, 2018. Consequent to the Foreign Exchange Management (Non-Debt Instrument) Rules, 2019, the Reserve Bank has issued Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instrument) Regulation, 2019 which governs the mode of payment and reporting requirements for investment in India by a person resident outside India. The FDI Policy will be valid until the DPIIT issues an updated circular.

As per the FDI Policy, FDI in companies engaged in manufacturing sector is permitted up to 100% of the paid-up share capital of such company under the automatic route.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue. For further details, see the chapter titled “*Issue Procedure*” beginning on page 338.

Investment by Foreign Portfolio Investors (FPIs)

FPIs are permitted to subscribe to Equity Shares of an Indian Company in a public issue without the prior approval of the RBI, so long as the price of the Equity Shares to be issued is not less than the price at which the Equity Shares are issued to residents. SEBI registered FPIs have been permitted to purchase shares of an Indian company through issue, subject to total FPI investment being within the individual FPI investment limit of below 10% of the total paid-up equity capital of the Indian Company on a fully diluted basis, or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together, including any other direct and indirect foreign investments in the Indian company by the FPIs permitted under Foreign Exchange Management (Non-debt Instruments) Rules, 2019, shall not exceed 24% of the paid-up equity capital of the Indian company on a fully diluted basis. However, this aggregate limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

With effect from the April 01, 2020, the aggregate limit shall be the sectoral caps applicable to the Indian company as laid out in sub-paragraph (b) of paragraph 3 of Schedule I of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, with respect to its paid-up equity capital on a fully diluted basis or such same sectoral cap percentage of paid-up value of each series of debentures or preference shares or share warrants. The aggregate limit as provided above may be decreased by the Indian company concerned to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the

approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively before March 31, 2020. The Indian company which has decreased its aggregate limit to 24% or 49% or 74%, may increase such aggregate limit to 49% or 74% or the sectoral cap or statutory ceiling respectively as deemed fit, with the approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively; however, once the aggregate limit has been increased to a higher threshold, the Indian company cannot reduce the same to a lower threshold.

Subscription by Non-Resident Indians (NRI) or Overseas Citizen of India (OCI) on Repatriation Basis

As per Schedule III of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, a NRI or OCI may purchase or sell shares of a listed Indian company on repatriation basis, on a recognised stock exchange in India, subject to the conditions that NRIs or OCIs may purchase and sell shares through a branch designated by an authorised dealer for the purpose; and the total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants. The aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the company.

Investment by NRI or OCI on Non-Repatriation Basis

As per Schedule IV of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, purchase by an NRI/ OCI, including a company, a trust and a partnership firm incorporated outside India and owned and controlled by NRIs/OCIs, on non-repatriation basis of shares and convertible debentures or warrants issued by a company without any limit either on the stock exchange or outside, it will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions. However, NRI/ OCI, including a company, a trust and a partnership firm incorporated outside India and owned and controlled by NRIs/OCIs, is prohibited from making any investment, under Schedule IV, in capital instruments or units of a Nidhi company or a company engaged in agricultural/ plantation activities or real estate business or construction of farmhouses or dealing in transfer of development rights.

Investment by other Non-Residents

As per Schedule I of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, a person resident outside India may purchase capital instruments of a listed Indian company on a stock exchange in India provided the person resident outside India making the investment has already acquired control of such company in accordance with SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 and continues to hold such control and the amount of consideration may be paid as per the mode of payment as prescribed by RBI i.e., Regulation 3 of Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instrument) Regulation 2019 under or out of the dividend payable by Indian investee company in which the person resident outside India has acquired and continues to hold the control in accordance with SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 provided the right to receive dividend is established and the dividend amount has been credited to a specially designated non-interest bearing rupee account for acquisition of shares on the recognised stock exchange.

Investors are advised to refer to the exact text of the relevant statutory provisions of law before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company.

No person shall make an application in the Offer, unless such person is eligible to acquire Equity Shares of our Company in accordance with applicable laws, rules, regulations, guidelines, and approvals.

The Equity Shares offered in the Issue have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States, except pursuant to an

exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be “qualified institutional investors” (as defined in Regulation 230.144A under Title 17 of the Code of Federal Regulations) pursuant to Regulation 230.144A under Title 17 of the Code of Federal Regulations or other applicable exemption under the U.S. Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulation S, under the U.S. Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the LM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.

Investment by Non-Resident Entities in India Under FDI Policy 2020:

The FDI Policy 2020 provides that a non-resident entity can invest in India, subject to the FDI Policy except in those sectors/activities which are prohibited. However, an entity of a country, which shares a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, can invest only under the Government route. Further, a citizen of Pakistan or an entity incorporated in Pakistan can invest, only under the Government route, in sectors/activities other than defence, space, atomic energy and sectors/activities prohibited for foreign investment. In the event of the transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the restriction/purview as mentioned herein, such subsequent change in beneficial ownership will also require Government approval. The same is in line with the Press Note No. 3(2020 Series) dated April 17, 2020 as issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce & Industry, Government of India and Foreign Exchange Management (Non-debt instrument) Amendment Rules, 2020 notified by Central Government through notification dated April 22, 2020 in order to curb opportunistic takeover/acquisition of Indian Companies due to current COVID-19 pandemic conditions.
